CROW HUNT PARTY THURSDAY NIGHT WAS BIG SUCCESS

Team Headed by Ole Ness Is Announced as Winner of Contest

Members of the Pennington County Sportsmens club held an enjoyable party at Smiley hall last Thursday evening, celebrating the completion of their annual crow hunt.

A team headed by Ole Ness was announced as the winner of the contest, defeating Helmer Ness and his marksmen by a total score of 891 points to 561. James Jensen of Kratka was high individual scorer with 420 points, and was awarded first prize, while second prize went to Carlie Johnson, with 197 points.

A feature of the program was a kangaroo court, over which Lewis A. Nelson presided as judge, with Harry Gregg of East Grand Forks as prosecuting attorney and Ed Korstad of Highlanding as defense attorney. The program also included a talk by William Carlson, caretaker on the Thief Lake game refuge, and accordion selections by Lewis Hruby.

Mr. Gregg, president of the Northwestern Minnesota Association of Conservation Clubs, announced that the annual meeting of the association will be held at the Auditorium in this city in the latter part of July.

MOTHER OF SEVEN SLAIN ON RED LAKE INDIAN RESERVE

Brother-in-Law Suspected of Shooting Mrs. Wm. King

An expert marksman and woodsman, accused in a warrant of the slaying of Mrs. William King, 38, mother of seven children, Wednesday was being hunted by a posse of Indians and federal men in the trackless wilderness of the Red Lake Indian reservation.

The suspect, Gordon King, 22, brother-in-law of the dead woman was named in a warrant sworn by Sheriff John Cahill. Two of Mrs. King's children, who witnessed the shooting, named Gordon as the slayer.

King, known to have spent as much as a month in seclusion in the wilderness on previous occasions, left no trail. His reservation cabin was found burned to the ground. Bloodhounds were used Tuesday without avail.

Mrs. King was shot twice, one bullet penetrating her skull and another her left side. King was described as five feet six inches tall, 140 pounds, very dark complexioned. He was wearing a checkered shirt.

LOCAL BALL TEAM TAKES ON WARREN SUNDAY; WINS 13-5

Thief River Falls Club Will Play Next Sunday at Red Lake Falls

A big second inning, when the locals poled out 6 hits and scored 7 runs, permitted pitcher Bill Hallamack to coast to a 13 to 5 win over Warren in game played there Sunday.

After a scoreless opening frame Jesse DuChamp slapped out a ground single to center to start the second inning. Bobby DuChamp punched a single into left-field, Jesse pulling up at third base. Bob stole second base. Warren's lanky Curtis Engelstad struck out "Casey" Nornes and Stevenson; but "Poop" Offerdahl proved himself a clutch hitter by smashing a single into right-field, scoring Jesse. Wally DuChamp singled brother Bob across the plate, and sent Offerdahl to third base. Stan Cockrell beat out a slow roller to first base, with Offerdahl scoring.

Bill Hallamack was hit by a pitched ball, to load the bases; and then Jaranson drove out a line single to right-center, scoring Wally DuChamp and Cockrell, with Hallamack going to third and Johnny moving to second on the throw to the plate. Jesse DuChamp, up for the second time, dumped a slow roller to the pitcher, who made the play at home, but the ball escaped catcher Bossman and Hallamack and Jaranson both scored. Bob DuChamp ended the inning by grounding out, short to first.

Warren picked up a couple runs in the third inning on singles by Bossman and Englestad and Rosendahl's double to the right-field fence. And added 3 runs in the sixth inning when they garnered 5 hits of Hallamack's delivery. Stroble and McGlynn getting doubles, and Harry Howard blasting a homerun over the right-field fence.

Thief River collected some game "insurance" in the eighth inning when a hit batsman, an error, Bob DuChamp's long fly, an infield hit by Nornes, a base on balls to Offerdahl, and Wally DuChamp's base-clearing triple accounted for 5 runs.

The locals will travel to Red Lake Falls next Sunday, for a game with Eddie Kiefenheim's aggregation.

Bridgemans 14; Kiewels 11

Taking advantage of Kiewel misplays and punching out timely hits off Gordy Kaushagen's delivery the Bridgeman's, by a 14 to 11 score in 8 innings, upset Ole Ness' team last Thursday night. Speed-ball pitcher Bill Gray, on the mound for "Abner" Stromberg's club, had his control and held the heavy-hitting Kiewels in check. A 5 run cluster in the 8th inning, when shortstop Wally DuChamp kicked away a couple of ground balls, gave the Bridgeman's the win: with Kiewel's managing to push 2 runs across the plate in their half of the 8th.

Harts, 17; Land O'Lakes, 2

Hopping on Land O'Lakes Ham Myhrer for 4 runs in the 1st inning, 7 runs in the 3rd inning, 4 runs in the 4th inning, and 2 runs in the 5th inning, the Hartz team made a rout of their "crucial" game with the Land O'Lakes, winning by a 17 to 2 score in 5 innings. Hartz hurler Al Ness pitched a smart game, getting the hard-hitting Land O'Lakes to swing at high pitches. Al whiffed Almquist three times, with the over-anxious Woody going after bad balls. In the Hartz big 3rd inning Jesse DuChamp made a clean steal of home, on catcher Ernie Helquist's toss to the pitcher. Ham Myhrer pitched better ball for the losers than the score would indicate, being handicapped by erratic support, and having an injury force his catcher, Arto Jacobson, out of the line-up for a couple of innings.

Red Lake Falls, 10; N. Y. A. 2.

A 5 run outburst in the 2nd inning broke up a pitcher's duel between Ray Kitaro of Red Lake Falls and "Daggy" Cagwin of the N. Y. A., and sent Gregg Poulot's club on to a 10 to 2 win in a 5 inning game played Tuesday night.

Walt DePaul

It comes as good news to report that Walt DePaul has accepted the offer of the local school board, and that he has signed the contract that will make him a member of the high school faculty. Now that the problem of securing a first class high school hockey coach is solved, the next problem that is up for solution is whether or not "Mouse" and Johnny Efteland and Lloyd Johnson will be eligible for hockey.

He's a First Baseman

The handful of fans that witnessed the ball game at Warren Sunday saw Stan Cockrell put on a sparkling exhibition of first base play. Stan was fielding ground balls like a shortstop and he was digging low throws out of the dirt like a robin picking up worms. In the 8th inning he climaxed his performance with a circus play when he made a one-handed stab of shortstop Jesse DuChamp's wide throw, which pulled Stan off the bag, and then in the same motion made the tag on the runner as he sped to first. Yes, Stan plays a lot of first base; but he could have a bit more power at the plate. Stan calls himself a Mike Gonzales ball-player— "good field; no hit".

There were a number of fine plays in last Sunday's game. Third baseman Bobby DuChamp, in the 4th inning, made a bare-handed grab of Willey's hard-hit ground ball as it scooted over third base, and nipped the runner with a long throw to first. And Johnny Jaranson and "Casey" Nornes collaborated to cut down two runners that tried to score, with Johnny making the throws in to the plate and Nornes blocking the runners and slapping the ball on them for the put-outs.

Nornes' first name is Birdean, but manager Chuck Dostal has dubbed him "Casey" after Nornes came up to bat with the bases loaded and—swish, swish, swish—struck out.

The Mosquitoes

The swarms of mosquitoes that have invaded this vicinity have put considerable of a crimp in the sports activities. Last week's Boloney league matches were postponed, and the L. B. Hartz handicap tournament which was scheduled for last Sunday was also postponed. The mosquitoes have become more than a threat and a menace when they can drive such inveterate golfers as Ed Carlson, Oscar Cerny, and Lloyd Bennes off the course. Ed has been having enough trouble with his short game, his putts and his approaches, without the added handicap of these inch-long mosquitoes buzzing around and making three-point landings.

The D-ballers have been able to play a few of their league games, with the help of smudges; but it isn't any fun to play and it isn't any fun to watch the games under such conditions. In fact, Jimmy Dryden and I have been huddling over so many smudged fires that we smell like smoked herring.

They thought the fire hall was on [illegible] investigation [illegible] the thick smoke proved that it was only "Leck" Robinson's mosquito smudge. "Leck" looked like the end man in a minstrel show—white eyes and teeth, and soot.

The Mud Lake Duck Situation

Wally DuChamp and I were in the Mud lake game refuge Monday afternoon, and we agreed that the prospects for this season's duck shooting were the brightest they have been for several years. The refuge is open to visitors during the week—the gates to the lake proper, though, are closed on Saturday afternoons and Sundays—and it is an education to make a trip through the place. The recent rains have raised the water level to such an extent that most of refuge is flooded, with water pouring over the spillways into what has previously been crop land. It is difficult to make an accurate check on the number of ducks that are nesting in the refuge, but Hilmer Davidson, who's directing the C. C. C. work in the refuge, estimates that there are 20% more ducks in there this year than last year. And with most of the crop land in the refuge being flooded it means that the ducks will have to leave the reserve to get their feed.

The refuge is in the process of having its acreage increased by about 3,840 acres, for the six sections adjoining the south-east border are to be included in the refuge. That will bring the southern boundary up to ditch 200 (three miles north of ditch 20).

Miscellany

That Andy Geer, former U. of M. football player, who's been given wide publicity for the short story that was accepted by Redbook magazine, and for the novel which he's having published this fall, is also a former Crookston high-school star. Back in those days, '24 and '25, Andy was the chief Pirate threat in football and basketball, and in fact the school had a cheer especially for him, the lyrics of which went something like this: High Gear, Low Gear, Any Gear, Andy Geer.

St. Hilaire Holds R. L. Falls to 2 Hits Sunday

With their fast ball pitcher Woody Almquist hurling two-hit ball, and allowing but one unearned run, the St. Hilaire team pounded three Red Lake Falls pitchers for a 21 to 1 win in a game played on Red Lake Falls' new diamond last Sunday. St. Hilaire drove Red Lake Falls' starting hurler, Harry Kelly, off the mound and continued their assault on relief pitchers Eddie Kiefenheim and Columbus.

Legion Junior Baseball Loses 16-1 Contest to Grand Forks Wednesday

Behind the steady two-hit hurling of their lanky pitcher, Chuck Nelson, and with their 15-hit attack packed by first baseman Don Haufmeister, who punched out five hits in five trips to the plate, the Grand Forks American Legion junior baseball team defeated the local junior team, 16 to 1, in a 7 inning game played on the fair grounds diamond Wednesday evening. Poor support hindered the effectiveness of pitcher Johnny Campbell, who started for the locals, and Lefty Lenny Lorentson, who went in as a relief pitcher in the 5th inning. That Don Haufmeister in the Grand Forks line-up is a son of the old-time Thief River Falls catcher, Henry "Dutch" Haufmeister.

Coach Doc Elstad's team will travel to Warren next Wednesday, for a game with Harold Stroble's Warren American Legion Juniors.

In general, a plant that can grow well on a poor soil may be regarded as having a strong feeding power, while a plant that cannot grow well except on a very rich soil may be regarded as having a weak feeding power.

DEFENSE ORDERS IN LARGE VOLUME COMING TO STATE

$30,000,000 Plant for Ammunition to be Built Near Twin Cities

Minnesota manufacturers, who in months past have been concerned about lack of defense contracts, were told Thursday that there was every indication that soon they were "going to be swamped" by orders that would call for an "all-out" use of the state's production facilities and the industrialists were warned that the urgency of impending orders necessitated immediate steps in organizing an extensive Training-in-Industry program.

The statement was made by E. L. Olrich, state defense co-ordinator, and OPM's regional representative, who was chairman of a conference of Twin City manufacturers holding defense contracts. Approximately 75 manufacturers were present at the auditorium in the state office building at St. Paul to hear an explanation of what the state and federal government is doing to assist industry to obtain the skilled man-power that will be needed.

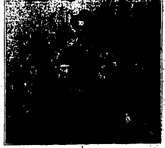
Mr. Olrich said that a fitting background for the conference was the announcement of the government's decision to construct a $30,000,000 small arms ammunition plant in the Twin Cities area that will give employment to not less than 8,500 and possibly 12,000 workers. This development he said, is exceedingly important of itself, but is only one of many similar but probably less sensational circumstances that doubtless will combine to absorb all available employables in this area. Except as a training program is energetically carried forward, serious shortages of competent workers are inevitable in the very near future, he said.

"If you think you are having difficulties now," he said, "you can take it from me that you 'haven't seen anything yet'. Soon, you are going to find it difficult to get any kind of help, starting with domestic workers and going on up through all of the job categories."

Field Windbreaks Protect

With more than 11,000 miles of windbreaks planted since 1935, the department of agriculture announced recently that field windbreaks have proven very satisfactory. A survival count taken on one farm out of ten on which seedlings were planted, showed an average increase rate of survival of 5 per cent. Originally planted to prevent dust storms, the shelter belts now protect nearly 2,000,000 acres of farm land.

Feature of WLS Troupe at County Fair July 30



From the foothills of the Cumberland Mountains, Mt. Vernon, Rock Castle County, Kentucky, where they grew up from childhood and developed their musical talents, come the "Cumberland Ridge Runners," one of radio's most versatile aggregations. They will make a personal appearance at the Pennington County fair Wednesday evening, July 30.

Generally known as Doc, Karl, Marty, and Buddy, they were christened Doctor Howard Hopkins, Karl Victor Davis, Hartford Connecticut Taylor and Odes McDowell. Hopkins being a seventh son, his parents believed he was destined to become a doctor so they christened him Doctor. Taylor's father was a blacksmith who bought nails and other supplies for his shop from Hartford, Conn., which gave him the inspiration for his son's name. The other two seem to have acquired their names in the customary way.

When they gained favor in their community as entertainers, musical as well as comic, "They were always on the run," to quote them, "to pie suppers, box suppers, corn huskin's, quiltin' parties and what-not," and adopted "Cumberland Ridge Runners," as the name of their act when they went to WLS, Chicago, in 1930 for an audition. They were with this station five years, going over to WJJD, Chicago, in 1935, being prime favorites for five years on that station's "Suppertime Frolic", a two-hour program. Now they are back with WLS, where they first gained popularity with their distinctive and hilarious style of entertainment. They are a whole show in themselves.

Nearly 1,500 Motorists are Deprived of Drivers Licenses in Five Months

The "Big Three" of Minnesota traffic law violations—and the big three among traffic accident causes as well—cost 1,443 motorists the forfeiture of their driver's licenses during the first five months of this year. The three offenses which took such a heavy toll of motoring privileges were mixing drinking with driving, speeding, and reckless driving.

In all, 580 drivers' licenses were revoked outright and 1,300 were suspended for a total of 1,880, since Jan. 1, a five-month report of the drivers' license bureau of the state highway department to Commissioner M. J. Hoffmann disclosed today.

Other life-endangering traffic law violations which caused the drivers involved to lose their licenses by revocation included: operating a car without the owner's permission, 48; criminal negligence, 7; failure to stop and disclose identity after an accident, 8, and commission of a felony, 23.

Sixty-three of the revocations and 275 of the suspensions were incurred by youthful motorists under 21 years of age, while another 62 revocations and 224 suspensions resulted from violations by drivers in the age-group of 21 to 24 years. Only 14 revocations and 29 suspensions were imposed, during the entire five-month period, upon persons over 64 years old.

MARSHALL COUNTY FAIR WILL OPEN AT WARREN JUNE 30TH

Suicide Club Program, Auto Polo and Band Music on Program

Final preparations are now nearing completion for the 35th annual Marshall county fair which will take place at the county's fair grounds at Warren on June 30, July 1 and 2, with directors, supervisors and others working long hours in order to make the 1941 exposition a banner event in every way.

Headlining the afternoon programs at the fair will be three big thrill attractions, with the Suicide Club of motorcycle and auto drivers showing on June 30, followed by the National Auto Polo championships on Tuesday afternoon and closing with the famous Jimmie Lynch Death Dodgers on Wednesday afternoon. The Death Dodgers will perform the "Blue Bomber Crash," a new innovation in thrill events during their two hour performance Wednesday afternoon.

Lew Rosenthal's organization will furnish 10 professional circus acts which will be presented each afternoon and evening while the night show will feature "The Fantasies of 1941," a gorgeous exhibition of feminine beauty in intricate dance steps which will form the background of a complete evening's production. A complete new show will be presented each evening.

Three Marshall county bands will also perform during the three days, with the opening day featuring the popular Alvarado public school band. On the second day of the fair the Warren high school band will play, while the closing day will bring the well known Holt community band to the exposition.

Will Form Local Groups to Sell Defense Bonds

With a state committee now set up to promote the sale of defense bonds, volunteers will soon be organized in every county and town in Minnesota, in a far-reaching campaign to enlist citizens in the defense of America by investing in defense bonds.

Active organizations work will be supervised by the state committee, of which Governor Harold E. Stassen is honorary chairman and O. J. Arnold, president of the Northwestern National Life Insurance Company, is active chairman.

"Buy a share in America," is the keynote of the effort. The bonds and stamps are on sale in all post offices and in most banks.

ROAD, ROAD, WHO'S GOT THE ROAD?

Walker—Engineers and construction foremen building a new road to Whipholt were confronted with a real problem when [illegible] feet of road near Walker fell completely out of sight early last week. Most of the dirt and road bed was moved to one side but in spots the road disappeared completely, dropping from 8 to 15 feet from its original level. Some experts believe that the road fell into an underground lake about 90 feet deep said to be located there.

Northwest farmers help give HAMM'S BEER EXTRA GRAIN GOODNESS

LAST year our partner, the Northwest Farmer, sold us direct over a million bushels of his choicest barley . . . to give Hamm's Beer extra grain goodness.

Then we malted it in our own giant plant, so every step was under watchful control. Each batch of malted barley was certified "properly aged" to produce the full richness of the malt.

See what a difference in flavor this finer barley gives—ask for Hamm's "Smooth and Mellow." Theo. Hamm Brewing Co., St. Paul, Minn.

Third Eyelid

Most birds have a third eyelid, known as the nictitating membrane, which serves to cover and clean the surface of the eye, reports the Better Vision Institute. It also is well developed in cats, cows and rabbits. In the human eye there is a vestigial bit of such membrane under the red glandular swelling in the corner of the eye.

THEA LILLEVOLD AND MANLEY ANDERSON SPEAK NUPTIAL VOWS

The Carmel Lutheran church which was filled with an audience of friends and relatives was the scene of a beautiful wedding on Sunday at eleven o'clock, when Miss Thea Alvina Lillevold, daughter of Mr. and Mrs. T. J. Lillevold became the bride of Manley Anderson, son of Mr. and Mrs. Jake Anderson. The entire church was lavishly decorated with green and white and bouquets of peonies and [illegible] the altar and organ. [illegible] placed on the altar [illegible] their beauty to the scene.

Nuptial music was played by Miss Rachel Anderson, who presided at the organ and Mrs. S. T. Anderson sang "I Love You Truly", accompanied by the former. Ushers were the brides' brother, Johnny Lillevold and her second cousin Evelyn Johnson.

To the strains of Lohengren's wedding march the bridal party entered from the rear of the church and proceeded under an arbor of white latticework accented with pink and white roses to the front of the church. Entering singly were the groom's sister, Miss Alice Anderson, maid of honor, and the bride's sister, Miss Margaret Lillevold, who served as bridesmaid. They were identical floor-length gowns of peach colored chiffon fashioned along princess lines, with short puffed sleeves and adorned with blue velvet bows and forget-me-not trim. Each wore a white carnation in her hair and a gold locket. They carried colonial corsages of pink roses and sweet peas.

The bride entering on the arm of her father was beautifully attired in a floor length gown of white satin fashioned in princess style with long fitted sleeves and a flowing train. The full length veil of lace-bordered white net was capped with a coronet of simulated pearl to match the brooch which enhanced the high neckline of her gown. The bride wore a gold locket a gift from the groom, and following the traditional, something old, she wore a gold bracelet which her mother had worn on her wedding day. Her arm bouquet consisted of white peonies, baby's breath and fern.

The groom, who was attended by his brother, Clifford Anderson, the best man, and Torrence Lillevold, brother of the bride met the bride at the altar where the single ring ceremony was read by Rev. S. T. Anderson. Following the nuptials the bridal party filed out to the strains of Mendelsohn's recessional.

Mrs. Lillevold, the bride's mother, wore an afternoon dress of printed rose crepe with rose and white accessories while Mrs. Anderson, mother of the groom, wore a navy blue dress with matching accessories. The groom and his attendants wore white carnation boutonnieres while the bride's father and the groom's father wore boutonnieres of yellow roses.

Following the ceremony a bounteous wedding dinner was served outside the church by ladies of the congregation. The bridal party, Reverend and Mrs. Anderson and members of the Lillevold and Anderson families were served at a table centered with a three-tiered white wedding cake, topped with a miniature bride and groom and decorated with pink roses. While they were still seated at the table a large assortment of wedding gifts including a substantial amount of money were presented to the bridal pair from all their assembled friends.

Mr. and Mrs. Anderson left on Sunday afternoon for a week's wedding trip along the north shore of Lake Superior. After their return they will make their home in a new house now nearing completion on the Jake Anderson farm.

Those from a distance who attended the wedding were Arthur Anderson and Neal of Baudette, Mr. and Mrs. M. N. Englund and son of Grand Forks, Mr. and Mrs. Werner Rasmusson and family and Mrs. Lizzie Rasmussen and Robert all of Thief River Falls, Ella and Nina Anderson of Bemidji, Peter Hagen, Martin Lillevold, and Mr. and Mrs. Henry Hagen and family of Prairie Farm, Wisconsin, and Lois Hanson of Holt.

LILLEVOLD-BOYUM NUPTIALS EXCHANGED

At a simple ceremony performed last Wednesday evening at the Grygla Lutheran parsonage, Miss Clara Marie Lillevold, daughter of Mr. and Mrs. T. J. Lillevold and Emil Boyum were united in marriage. The single ring service was read at 7:30 o'clock by Reverend S. T. Anderson under an archway of green and white streamers in the presence of Miss Caroline Lillevold, sister of the bride and Selmer Bratteli, cousin of the bride. The wedding march from Lohengren was played by Rachel Anderson.

The bride was becomingly attired in an afternoon dress of beige panerome trimmed with angora embroidery, fashioned with short sleeves, round neckline and full skirt. She wore a corsage of talisman roses and sweet peas. A gold locket which was a gift from her *mother completed her costume.*

The bridesmaid wore an afternoon dress of light blue crepe, fashioned in shirtwaist style with short sleeves, white collar and full skirt. Her corsage resembled that of the bride.

Following the ceremony the bridal party and other immediate relatives were entertained at a reception at the home of the bride. A lovely wedding supper was served at a table above which were white streamers centered with a white bell. A three tiered white wedding cake, topped with a miniature bridal pair, graced the table. Bouquets of garden flowers enchanced the scene.

Mr. and Mrs. Boyum were given a rousing welcome that same evening in Grygla by a large number of their friends. The Boyums responded with treats for all and a short interval of dancing at the local hall.

Mr. and Mrs. Boyum left Thursday for a short wedding trip to International Falls and Lake Kabetogama, returning Saturday. They are at home in an apartment above Gonnering's Meat Market.

Cards formed the main diversion of the evening after which a midnight buffet supper was served by the hostesses, Mmes. A. J. Miller and O. J. Peterson. The main feature of the supper was a white, two-tiered wedding cake decorated with the words, "Twenty-fifth Wedding Anniversary" and with pink roses and silver leaves. The two honored couples were each presented with a purse of silver dollars by A. J. Miller, in behalf of their friends.

Some of the events already decided upon are: horse racing, a ball game for each day, and dancing both evenings while a carnival with its midway attractions will help make a festive atmosphere. This celebration is a second annual event and people remember the huge success experienced last year. This year promises to be even a greater occasion. Delirium Tremens

Delirium tremens are not caused by the whisky you drink, but by the food you lack, according to physicians. Experiments with 10 persons under the influence of liquor, so indicate, according to Drs. Hugh E. Kiene, Robert J. Streitwieser and Hilmon Miller of Providence, R. I. "Inadequate, irregular and at times, total abstinence of diet is practically universal in acute delirium tremens," they said.

Storage is the crux of the problem confronting farmers as country elevators experience difficulty finding outlets for grain carried over from the last harvest.

The Crop Storage Problem

Under normal conditions, wheat and other grain crops flow from the fields of the Northwest to distant markets in so orderly a manner that the producer rarely gives any thought to it.

Availability of adequate storage and transportation, he takes for granted.

The familiar elevators form a huge reservoir into which the flood of grain pours as the harvest begins. Long trains begin scurrying back and forth between these country elevators and the big terminal elevators. Thus the level of grain in the country elevators is kept sufficiently below capacity to accommodate the crops of all producers.

Even in normal times this throws a tremendous peak burden on the railroad. It must have the men to handle the many additional trains, engines to haul them, and cars into which to load the grain. It must have the full co-operation of the grain trade so that cars can be loaded and unloaded promptly, and hurried back for more loads. All of this involves a great deal more than appears on the surface—even in normal times.

But this is not a normal year.

Great quantities of grain have been carried over in the country elevators. How much of this can be moved before the harvest begins is problematical. For the terminal elevators too are filled to near capacity. The prospect of their being able to reduce this storage materially before the harvest is none too bright.

★ So far as the Great Northern is concerned, it expects to be able to furnish transportation for all of the grain produced in its territory *that has some place to go.*

★ It expects, at the same time, to be able to discharge its full obligation to the Nation in furnishing such transportation as is required by the national defense.

★ It expects also to be able to provide transportation for the normal business of its territory.

But it cannot perform these important services unless it has the full co-operation of its patrons. *It is essential that cars be loaded promptly and, insofar as possible, to their full capacity, and unloaded promptly at destinations.*

Despite the fact that the Great Northern has put 4,600 new 50-ton box cars in service in little more than a year, and will begin getting more cars early this fall on an additional order for 7,000, *all cars must be used for transportation purposes, and not tied up for temporary storage.*

The Great Northern is placing these facts before the producers of its territory because it believes that it is to the best interest of the individual farmer to look into the local storage situation, and if unable to obtain assurance for the handling of his crop, to make other provisions for caring for it until it can be absorbed in normal trade channels.

PRECIPITATION IN VALLEY TO DATE IS HIGHEST RECORDED

Northwest School Station Records 16.98 Inches to June 12

Nearly seventeen inches of water as snow or rain have fallen from January 1 to June 12 this year at the Northwest School, according to R. S. Dunham, station agronomist. The exact amount, 16.98 inches, is the largest ever to be recorded for a similar period at the school. The rainfall for April, May, and the first 11 days of June has measured 12.58 inches which is also the maximum on record for such a period. The only seasons to approach these figures were those of 1904, 1922, and 1925. In 1904, precipitation from January through June 30 was 14.82 inches; in 1922, 15.67 inches; and 1925, 14.83 inches.

Any prediction for the rest of the season can only be based on what has happened in the past. If history repeats itself, the total precipitation for 1941 could be 29.6 inches as it was in 1905. The average rainfall for June is 3.2 inches. For the first 11 days of June 1941, it has been 5.95 inches. It might reach a total for the month of 8.46 inches as it did in 1915. The average rainfall for the growing season is 13.76. It might amount to 22.19 inches as it did in 1925. A study of the annual precipitation for the last 41 years shows that it has run in three cycles. From 1900-1909 every year but one was wet for this climate since the amount of precipitation was above the long time average of 19.41 inches. From 1910-1927 one half the years were wet and one half dry with an average for the cycle slightly below 19.41 inches. From 1928-1938 every year has been dry with an average for the cycle of only 16.36 inches. In 1939 the precipitation was 20.32 inches, in 1940, 19.40 inches, and already in 1941, it is 16.98 inches. If history is repeating itself, this climate is entering another wet cycle in which most of the years may be wetter than average as they were from 1900 to 1909.

ONE CLOCK; FOUR TIMES; ALL OF THEM WRONG

Fairmont—To remedy the unhappy situation involving the court house clock in Fairmont which, at any specified time, would invariably show four different times, usually all wrong, on its four different faces, caretaker John Scharpf and the county board members decided to remove the pendulum and weights and replace them with a synchronized motor. The difficulty was created by pigeons which persistently held back the passage of time by climbing on the hands and either throwing it off or stopping the clock altogether. With the new mechanism, a human being can hang on one of the hands and it will go right around with him.

Dear friends:

We are proud of our establishment, our equipment, and our service, naturally.

But we have long since decided that the most important part of our profession is entirely outside the equipment we have. We refer to our friends.

If it were not for our friends we wouldn't remain in business very long. Friends are our greatest asset. And friends can't be purchased—they have to be earned.

Respectfully,

RAILWAY LABOR UNION DEMANDS WOULD COST *900 Million Dollars* A YEAR

THE labor unions have made their demands upon the railways of the United States—and through the railways upon the PUBLIC. These demands are vastly larger in proportion than any they have ever made. The economical and efficient operation of the railways is vital to the nation's defense effort. Therefore, the Western Railways present to the public the following facts:

The labor unions representing engineers, firemen, conductors, brakemen and switchmen are demanding a 30 per cent increase in wages, amounting to 190 million dollars a year—although their present rates of pay are the highest in history.

Other unions representing a greater number of railway employees are demanding wage increases ranging as high as 95 per cent—averaging 47 per cent—and amounting to 580 million dollars a year—although their present rates of pay also are the highest in history.

Thus the wage increases being demanded by the labor unions amount to 770 million dollars a year, an average increase in excess of 41 per cent.

In addition, certain of these labor unions have demanded advances in their pay not included in the above figures, and more rules for the creation of unnecessary jobs.

The situation, then, is this: The total cost of complying with all the demands made would be approximately 900 million dollars a year!

The average weekly earnings of railway employees are now 15 per cent higher than in the peak year 1929, while the cost of living is 12 per cent less.

The demands of the railway labor unions are being made when the entire nation has just been asked to make a supreme effort for National Defense.

The railways cannot meet these demands without a great increase in the cost of transportation. They exceed by more than 700 million dollars the income that the railways had left after paying their annual expenses, taxes and charges in 1940.

The railways have a vitally important job before them. They need all their resources to continue adequately to serve you and contribute effectively toward the National Defense Program.

CENSUS OF THIEF LAKE AREA SHOWS LARGE DUCK COUNT

Department of Conservation Estimates 20,214 Waterfowl in Refuge

An estimated waterfowl population of 20,214 on the Thief Lake game refuge in Marshall county was reported to the department of conservation this week by census crews.

Reported by department investigators, who are operating under the Pittman-Robertson federal wildlife survey project, were 15 species of ducks, two species of grebes and coots—all making homes on the restored area.

Among the "puddle ducks" or non-divers noted were mallards, pintails, shovellers, baldpates, gadwalls, blue-winged teal, and green-winged teal. Diving ducks sighted were bluebill, ringneck, redhead, canvasback, goldeneye, bufflehead, hooded merganser, and ruddy. Don Smith, biologist conducting the survey, termed Thief Lake "an excellent resting place for migrating ducks."

A census made on the Mud Lake national wildlife refuge just south of Thief Lake in early May—the same period when the state refuge was counted—showed an estimated population of 76,710 ducks.

38.4 More Miles of New Paving Head $1,500,000 Group of Road Projects

Another 38.4 miles of concrete paving and shouldering has been made available for bidding by the Minnesota state highway department, with proposals on this work to be received July 11. Added to the 34.5 miles of paving upon which bids were received June 6, this will bring the total of concrete paving contracted so far this construction season to 73 miles—by far the largest amount of paving in recent years.

It is estimated that this new paving will cost more than $1,000,000. In three projects, the improvements are located on T. H. 75 in Big Stone county between Graceville and 2½ miles south of Clinton; in Jackson county on T. H. 60 between the west county line and the junction of T. H. 86; and in Wilkin county on T. H. 75 between one mile south of Wolverton and two miles northwest of Brushvale. The improvements on T. H. 75 are listed as "strategic necessity" improvements to this trunk highway which has been designated as being of military importance.

In addition to these three major projects, bids will also be received on 8 other improvements, bringing the total estimated cost of the 11 projects to more than $1,500,000.

In the afternoon various athletic events were enjoyed. The Smokey Mountain boys, an orchestra from Numedal provided music as a pastime within the hall for those who just "sat around". ELECTRIC CO-OP. SEEKS EXTENSION OF PRESENT LINES

Red Lake Officials Attend Recent Meeting in Grand Forks

Red Lake Electric Co-operative Inc., will add 50 miles to its lines in 1941 if the recommendations of REA field men is approved by the REA at Washington, says the Red Lake Falls Gazette. At the meeting at Grand Forks, N. D., June 12, attended by officials of the Red Lake Co-operative, the local concern applied for funds to build a 150 mile extension but field officers compromised on a recommendation for 50 miles. Additional miles are requested for 1942.

Short extensions are being added to the system all the time and more lines have been built in the vicinity of Plummer and Rosewood but have not yet been energized. A number of members have their premises wired for service, but have not yet been hooked up with the high lines. The association now has some 360 members served by 225 miles of energized line.

The new power plant at Grand Forks is under construction and is expected to be completed in September according to S. O. Sorkness whose concern, the Sorkness Construction company is now engaged in building a transmission line west of the Red River to serve the North Dakota co-operatives.

In attendance at the meeting at Grand Forks were Supt. E. F. Kiland, Jos. F. Skala, and C. W. Beyer, Red Lake Falls; B. E. Hunt and J. G. Newland, Thief River Falls; Stephen Singer, Goodridge.

More Granary Space Is Needed to Handle 1941 Crop, Says U Farm Man

Farmers who plan to sell their grain direct from the threshing machine or who depend upon public storage may be caught with no place to move their grain this summer. With a normal crop, there will be a critical shortage of storage space. The United States wheat carryover is at record levels, and terminal capacity in the Twin Cities and Duluth is largely taken up with old grain.

Railroads report that grain cannot be held in freight cars as in the past. It must be handled and unloaded promptly if cars are to be available for moving the crop.

This situation can be best met by farmers expanding their own storage facilities, declares Norton C. Ives, extension agricultural engineer, University Farm. Present facilities can be repaired or remodeled, portable bins can be purchased or constructed cheaply, or permanent storage units can be built. For cooperators in the AAA program, the 7-cent storage allowance on wheat loans will pay a large part of the cost.

Paul Engelstad Serving on Committee in Charge of Arrangements

According to present indications, the Alumni Reunion scheduled for Saturday, June 28 at the Northwest School of Agriculture, Crookston, will bring in the largest number of graduates from the older classes ever assembled. The 1916 class, which broke all attendance records on its twentieth anniversary celebration, is out now to break its own record for the silver anniversary celebration this year.

While all alumni are urged to be present from all classes, the five-year reunions will begin with the 1911 class. Mr. and Mrs. Carl Ecklund of Mallory and Dr. Harry Hedin of East Grand Forks will act as the committee to round up the '11's for their reunion.

The class is setting a new precedent in getting out a class reunion booklet which will be distributed to all members of the class. The '16's are planning to have the reunion dinner at twelve o'clock noon with the morning assigned to visitation of campus and grounds. Other class groups will meet for picnic lunches at five o'clock. Coffee, cream, and sugar will be furnished for all picnic groups.

FARMERS ADVISED TO GUARD AGAINST BEET WEB WORMS

Heavy Infestation Located in Kittson County Recently

Pennington county farmers are warned to be on the look-out for the beet web worm, according to information received this week by County Agent Ernest Palmer from T. L. Aamodt, assistant state entomologist in charge of control. The main flight of moths began at Hallock on June 14 and the catch in a single night in a light trap was 7,000.

The females of these moths are capable of laying from 200 to 250 eggs each from which larvae hatch out and feed upon Russian thistle, lambs quarters, pig weed, vegetable truck crops, sugar beets, alfalfa, and a number of other crops and weeds.

"Since we cannot tell what nature will do to this pest," Mr. Palmer states, "nothing definite can be said regarding the extent of the outbreak at this time. However all information gained indicates that they will be a serious pest this year. It costs the farmer little to be prepared, while he is apt to lose a lot by not being prepared." When the insects are migrating from the weeds growing on the borders of the crop fields, the use of poison bran mash has given good results in the control of this insect. The formula for bran mash bait is as follows: 100 pounds bran, 2 gallons molasses, 5 pounds paris green, and 10 gallons of water. A furrow should be plowed ahead of the advancing larvae with the steep side toward the crop to be protected. The furrow should receive a good dressing of the poison bran bait.

Funeral Held Wednesday for John Maakrud of St. Hilaire Community

Funeral services were conducted by Rev. R. M. Fjelstad on Wednesday, June 18 at 2 o'clock at the Norwegian Lutheran church at St. Hilaire for John Maakrud, who passed away at a local hospital on Saturday, June 14 following an illness of about three months. Interment was in the family plot in the community cemetery east of St. Hilaire.

Mr. Maakrud was born October 25, 1870 at Stoddard, Wisc., and was, at the time of his death, 70 years, seven months, and 19 days of age. His early years were spent in and near Stoddard and La Crosse, Wisc., and he came to St. Hilaire in 1900. He was married in 1904 to Emma Engh of that village and two daughters were born to them. Mrs. Maakrud died in 1924, and in 1926 he was married to Ina Johnson of St. Hilaire, who preceded her husband in death in 1937.

With the exception of the first year or two, when he was engaged in business in St. Hilaire, Mr. Maakrud has lived on his farm south of the village until his retirement about three years ago. He was a member of the board of directors of the village creamery for some years. He had been a citizen of that community for forty years.

He is survived by his two daughters, Mrs. William Palmquist (Alice) of River Falls township and Mrs. William Krase (Evelyn) of Polk Center; two sisters, Mrs. Marie Hunder of Stoddard and Miss Julia Maakrud of LaCrosse; and five grandchildren.

Nearly 1,000 Ask Tourist Data in One Day's Mail

The state tourist bureau received 935 requests for tourist information in one day's mail last week, setting a new all-time record in that office, according to Victor A. Johnston, director of the bureau.

Last year the bureau broke all previous records for tourist mail handled and indications now are that this year's total will set a new high mark, Johnston said.

Twenty-two states and the Canadian province of Ontario contributed in setting last week's record. Illinois topped the states with 341, Iowa came in second with 140; Missouri third with 104, and Indiana fourth with 70.

CATCHES TWO FISH; LOSES THE BIG ONE

Ely—Almost, but not quite, a perfect fish story is told by Mrs. Clark Jackson, Minneapolitan fishing in Crooked Lake near Ely. While hauling in a 5-pound walleyed pike, she saw a monstrous great northern pike flash through the water after the walleye. The northern missed the pike but hooked itself on a small plug containing a three-way hook. Mrs. Jackson attempted to pull in her prizes when the hooks gave way, straightening out and dropping the northern, estimated at 25 pounds, back into the water.

Seventh Annual State Fair Band Tournament Scheduled August 31

Minnesota's champion band of 1941 will be named in the seventh annual Minnesota state fair band tournament to be presented during the exposition, August 23 to September 1, Raymond A. Lee, secretary, announced today.

The tournament, inaugurated in 1935, affords communities an opportunity to participate in a musical spectacle of statewide interest that is drawing an increasing share of the spotlight each year. Last year 17 ace bands competed for honors and money awards, and already 13 crack bands have registered for the 1941 meet which will be presented in the Hippodrome Sunday afternoon, August 31.

Approximately $3,000 in prize money and trophies has been offered by the fair management. The first six winning bands will receive prizes of $300, $250, $200, $150, $125 and $75 respectively, with awards to be based on music, marching ability and uniforms. Honorable mention premiums of $50 will be awarded to each band entered.

Entries for the tournament should be addressed to Raymond A. Lee, secretary, Minnesota State Fair, St. Paul, Minn.

Drive for Recreation Facilities for U. S. Army Camps Under Way

Every county in Minnesota must do its share to support the United Service Organizations for National Defense in its drive to raise $10,765,000 nationally for morale, welfare, recreation, social, religious, and guidance programs in army camps and naval stations, Harold B. Frame, regional director for U. S. O., declared this week.

"The selective service army is recruited from every county in the state. There is no reason why Minneapolis, St. Paul and Duluth should be obliged to do the entire job of providing the state's U.S.O. quota of $205,000," Frame said. "Every community is expected to do its part. U.S.O. is a patriotic duty, not a charity."

U.S.O. is planning to operate more than 350 club houses and recreation centers for men in the army and navy in buildings which the government is erecting. The army camps have been located away from towns and cities for military reasons. This has resulted in a lack of facilities to care for soldiers which the U. S. O. is trying to supply.

Participating organizations are the Young Men's Christian Association, Salvation Army, National Catholic Community Service, Jewish Welfare Board, Y.W.C.A. and National Traveler's Aid Association.

Mr. Sjolander's report covers Pennington, Red Lake, Kittson, Roseau and Marshall Counties, and includes activities at the full-time office at Thief River Falls as well as the division's part-time offices at Hallock, Roseau, Warren and Red Lake Falls.

NO ONE INJURED IN 75 FOOT PLUNGE

Montevideo—Miraculously escaping serious injury when their car plunged down a 75 foot embankment were five members of the Selmer Jorlet family of Sacred Heart who were returning home from Montevideo following their daughter's graduation from a teacher training course at the Montevideo schools. The accident occurred when Mr. Jorlet dimmed his lights for an approaching car and then, as he pressed the foot button to return them to bright, the lights went out entirely and the car crashed through four steel posts rolling end over end ten or eleven times before coming to a stop, completely wrecked, at the bottom of the embankment. Minor bruises were their only injuries, an infant daughter escaping unscratched.

TWO NEW DEALERS ARE NAMED ON U. S. HIGH COURT BENCH

President Appoints Robert H. Jackson and Senator J. F. Byrnes

President Roosevelt filled two supreme court vacancies with New Dealers Thursday and simultaneously elevated Associate Justice Harlan F. Stone, who shares his theory of constitutional interpretation, to the high post of chief justice of the United States.

As associate justices, Mr. Roosevelt appointed Attorney General Robert H. Jackson of New York and Senator James F. Byrnes of South Carolina. They were his sixth and seventh nominations to the nation's highest tribunal. As a matter of customary courtesy, the senate confirmed the Byrnes appointment by acclamation eleven minutes after it was received.

When the court meets in October for its 1941-42 term, seven of its nine members will be Roosevelt appointees. The two others will be Stone, appointed originally by President Coolidge, and Associate Justice Owen J. Roberts, who was named by President Hoover. Roberts has voted sometimes one way and sometimes the other on questions involving the constitutionality of New Deal legislation.

Consequently, for many years to come, it is expected to be a court almost unanimously disposed to apply the New Deal theory of constitutional interpretation.

Vacationists Urged to Steer Clear of Poison Ivy Plants This Summer

The season's crop of poison ivy victims has already begun to come in, according to a second summer bulletin issued today by the Minnesota State Medical association's committee on public health education.

Surprisingly enough, according to the doctors, a good share of the early victims weren't quite sure, even after the itching and inflammation had begun, just what poison ivy looks like and most of them had confused it for years with the innocent vine known as woodbine.

"Year after year," the bulletin says, "this committee has exorted Minnesotans to get out their botanies and go on a field trip. They should, at the very least, be able to identify poison ivy before they get off the beaten track on a vacation.

"The best way to handle the ivy problem is to know its distinctive three, cross-ribbed leaves and avoid them; and it's just as important to avoid walking in them with bare legs as it is to avoid touching them with the hands.

"The next best thing," according to the doctors, "is to know what to do when you suspect you may have touched the plant."

The best treatment in that contingency is lots of soap and water to wash off the oily substance which clings to leaves and stems and which causes the poisoning.

'Breaking' Into Movies

Two husky young men of 18 and 17 have been visiting all the studios in Hollywood by a simple trick. They buy some lumber usually just one long board—and carry it in one of the side or rear gates. Once on a lot, they're able to walk around as long as they like, but they have to leave the lumber there when they go home. The way they were discovered was by nearly being arrested for trying to carry their own board out of a studio.

GOODRIDGE

Isaacson- Stephenson

At a ceremony which took place at the Methodist church in Bemidji Saturday afternoon at 4 o'clock, Miss Dorothy Isaacson, only daughter of Mr. and Mrs. Chris Isaacson of Bemidji, became the bride of Raymond Stephenson, son of Mrs. Gena Stephenson of Goodridge. Dr. Crawford Grays officiated at the single ring ceremony.

Their vows were spoken before an altar decorated with assorted flowers and white candles. A prelude of organ music was played by Mrs. Strong of Bemidji and preceding the ceremony Mrs. Willard Howe of Milwaukee, cousin of the bride, sang, "Because" and "I Love You Truly", accompanied at the organ by Mrs. Strong.

The bridal march from Lohengrin was then played and the bride entered on the arm of her father. Her gown, which was train length, was of white net trimmed with lace, over white satin. She wore a finger tip veil capped with a regal coronet, and she carried an arm bouquet of yellow roses and white stock, tied with white ribbon. Her only ornament was a gold bracelet worn by her mother on her wedding day, and she carried her grandmother's handkerchief.

The matron of honor was Mrs. Wilson Westberry of West Palm Beach, Fla., sister of the groom. Her dress was of pale pink crepe organdy trimmed with white lace, and she carried an arm bouquet of pink roses tied with blue delphinia.

The ring-bearer was 3-year-old Charles Howe of Milwaukee, cousin of the bride. Karl Isaacson, brother of the bride, attended the groom.

Mrs. Isaacson, mother of the bride, wore a light blue chiffon dress, trimmed in white and with a separate coat of chiffon. Mrs. Stephenson, mother of the groom, was dressed also in a coat dress of dark blue silk crepe. They both wore corsages of pink roses and delphinium.

Following the ceremony a reception was given for relatives and immediate friends in the church dining hall, which was decorated with assorted flowers. A buffet lunch was served to about 50 guests. The four tiered wedding cake was trimmed in pink and white and topped with a miniature bride and groom. The young couple received a large number of lovely gifts.

Immediately after the reception they left on a wedding trip to the Black Hills, and the Yellowstone National Park. For going away the bride wore a pink suit with white accessories. On their return they will make their home in Fargo where the groom has a position with the Gamble Stores.

Bratland-Ellingson

The Goodridge Lutheran parsonage was the scene of a wedding on Saturday evening at 7 o'clock, when Miss Thelma Bratland, youngest daughter of Mrs. Tillie Bratland, and Ray Ellingson, son of Mr. and Mrs. A. Ellingson of Highland, were united in marriage. Rev. Bletyan officiated at the single ring ceremony in the presence of Almyra Ellingson, sister of the groom, and Olaf Bratland, brother of the bride.

The bride was attired in a street length dress of light blue sheer and carried an arm bouquet of red and white roses. Her accessories were in white. The bridesmaid's dress was of red and white striped shark skin, and she wore a corsage matching that of the bride's bouquet.

After the ceremony the members of the wedding party were entertained at a buffet lunch at the home of the bride's mother. After a short wedding trip they will be at home at Highlanding where the groom is employed.

Rain, Cold Tie up Road Maintenance Projects

The 3,168 mile special maintenance program of the state highway department, most of it "ready to go" and much of it already under contract, has been virtually held at a standstill by unseasonable weather conditions. Even on many miles of highways where gravel windrows were placed two weeks ago, in readiness for regraveling and bituminous operations, nearly two weeks of cold, wet weather and excess moisture have halted all further progress. Furthermore, the highway department disclosed many miles of gravel roads which were just recovering from the effects of the extremely severe spring breakup have again reverted to poor condition and on some trunk highways the load restrictions imposed last spring have had to be kept in force. Even the normal patching and blading operations of highway maintenance crews, to repair breaks in bituminous surfaces and eliminate bumps and "washboard" from gravel roads, for the comfort and convenience of travel until more durable operations can be undertaken, have been seriously handicapped. Some sections of highway are even under water.

Kitty's Komments

Mosquitoes! Mosquitoes! Morning, noon and night, the singing whine of millions of winged stingers spoil the comfort of human beings and animals.

From every stagnant pool of water new batches of mosquitoes come forth each day to harass us all.

Smudges of immense proportion are made to last day and night to protect the stock from the misery of continual persecution by the blood thirsty horde. Poultry are bothered on their roosts at night. Turkey poults jump from their roosts to pile in corners to get away from the stinging pests.

When night falls, they come from swamp and ditch in ever increasing numbers to whine at windows and doors, coming thru screens to bother tired humans who try to sleep.

You cuss the pesky things—get up to get the fly sprayer to put an end to the aggravation.

Again you turn in—not a sound except the steady hum of millions of them out of doors, hungry for blood, but thwarted in their gory efforts by the thick protective smoke that billows from the smudge to protect the sleeping stock.

Reading a Book

Books and other printed matter should not be laid flat upon the desk or table in reading, says the Better Vision institute. Reading is much more comfortably performed when the printed matter is held at an angle to the table and about 14 to 16 inches from the eye. In adjusting the book to obtain greatest eye comfort the book should be moved to or from the eye, instead of leaning the head downward. Light should come from above and behind the reader, with no shadows on the printing. When these precautions are taken a person can sit up straight and carry on his reading most comfortably.

Reading a Book

Books and other printed matter should not be laid flat upon the desk or table in reading, says the Better Vision institute. Reading is much more comfortably performed when the printed matter is held at an angle to the table and about 14 to 16 inches from the eye. In adjusting the book to obtain greatest eye comfort the book should be moved to or from the eye, instead of leaning the head downward. Light should come from above and behind the reader, with no shadows on the printing. When these precautions are taken a person can sit up straight and carry on his reading most comfortably.

WINNIPEG MAYOR INVITES CITIZENS TO IWVA MEETING

Hopes for Big Delegation from South of Border This Week-end

In a letter to Dr. A. R. Hulbert, American secretary of the International War Veterans alliance, Mayor John Queen of Winnipeg extended a formal invitation to residents of this community to attend the organization's annual reunion in Winnipeg opening Sunday. His letter follows:

"I am very happy to have this opportunity of extending a sincere invitation for the citizens of Thief River Falls and surrounding territory to visit us in Winnipeg during the time of the meeting of the International War Veterans' Alliance, starting June 27th, and lasting through until July 1st.

"In these days, when civilization is so seriously threatened, and the liberties which we have been accustomed to endangered, it is good to know that the people of the United States and Canada are as one in their determination not to yield those liberties to any form of Dictatorship, and it seems that the very dangers we are all facing today are bringing the peoples of our two countries closer together in bonds of friendship and understanding.

"Consequently we will be glad to welcome to our midst a large number of our good friends from south of the line and I can assure our visitors that our citizens will co-operate to make their visit enjoyable."

N. W. Towns to Receive Prizes for Sending Big Groups to Aquatennial

To encourage attendance from smaller Northwest communities, first, second and third prize trophies are to be given to towns sending the largest delegations in proportion to population to the Minneapolis Aquatennial July 12 to 20.

This was announced today by A. Herbert Nelson, chairman of the delegations and hospitality committee of the Aquatennial.

Special trophies are to be awarded the three Northwest towns or cities sending the largest delegations of visitors, Mr. Nelson said. Other prizes announced include first and second prize trophies for the best outside bands attending the Aquatennial, first, second and third prize trophies for the delegations traveling the longest distances, and a first prize trophy for the best outside costumed unit.

Tours are being made to various points throughout the Northwest by the delegations and hospitality committee, to assist in organization of community caravans to the Aquatennial. Numerous inquiries from towns that are making plans for tours to the Aquatennial are being received, asking for detailed information about the program.

For prompt response, inquiries should be addressed to A. Herbert Nelson, chairman, delegations and hospitality committee, Minneapolis Aquatennial, 607 Second avenue south, Minneapolis.

Pound of Feathers

There is considerable difference in weight between a pound of gold and a pound of feathers. Gold is weighed by the troy system, in which there are 12 ounces to the pound, while feathers are weighed by the avoirdupois measure, in which there are 16 ounces to the pound. A troy pound, therefore, is less than the avoirdupois pound.

Bemidji Makes Big Plans for July Fourth Week-end

Though more than thirty inquiries have been received regarding the Paul Bunyan Canoe Derby which starts at Bemidji on July 5th and winds up in Minneapolis during the Aquatennial Celebration ten days later there is still plenty of opportunity for experienced paddlers to get into the $1,800 of prize money that is being offered, officials in charge of the celebration assert.

The start of the Canoe Derby is a feature of the three day celebration to be held at Bemidji starting July 4th. Gould's Million Dollar Circus, the flying Marions, amateur sports, fireworks and the canoe races are scheduled for Friday and Saturday, while on Sunday the Paul Bunyan speed boat regatta is to be held with many noted drivers from all parts of the Northwest. Jack Cooper of Kansas City, noted speed boat champion, is to give an exhibition with his boat that has a speed of 92 miles an hour.

HUGE STRAWBERRY RESEMBLES APPLE

Belle Plaine—When Mrs. Emil E. Schultz plucked a strawberry from her everbearing bed Monday, her first thought was that she had a bright red apple in her hand, so large was the berry. It measured six and one-half inches around.

WOMAN BITES DEPUTY ARRESTING HER HUSBAND

Belle Plaine—"The fury of a woman scorned" seems to have found its equal in the fury of a woman whose husband is being arrested on a charge of malicious destruction of property. Deputy Sheriff J. P. Wermerskirchen of Belle Plaine will vouch for it anyway. It all happened when the deputy tried to "pick up" the man charged with the above offense. As Wermerskirchen stood beside the farm tractor reading the warrant, the wife of the man in question crawled up on the machine and leaped at Wermerskirchen, sinking her teeth viciously in his left arm and gouging his nose with her fingernails. A second warrant was subsequently issued charging the wife with third degree assault.

COUNCIL OPENS BIDS JULY 25 ON 2D FIRE TRUCK

To Get Cost Figures on Smaller Unit for Local Fire Department

30 CITY EMPLOYES ASK PAY INCREASE

Approve Permit for Addition to Peterson-Biddick Building

At an adjourned session Friday evening, the city council accepted with minor changes specifications for a second smaller fire truck, and voted to call for bids on the equipment to be opened Friday evening, July 25.

Bids will be received on pumpers of 500 and 600-gallon capacity, mounted on a lighter chassis than the present fire truck, and delivery within ninety days was specified. Fire Chief Leonard Hanson pointed out that needed repairs on the present truck will have to be delayed until the new equipment is received.

At the meeting a petition signed by approximately thirty employes in various city departments was submitted, requesting a $10 a month salary increase to make up for the higher cost of living since the present salary scale was put into effect. The petition was laid over for consideration at the next regular meeting of the council Tuesday, July 8.

A scheduled hearing was held on the assessment for the sewer installation on Crocker and Tindolph avs. S., aggregating approximately $2,050, and no objectors being present the assessment was ordered levied against the affected property owners, who were given until September 1 to pay their assessments in full without interest.

The council approved the signing of papers in connection with the WPA project for the paving of the alley west of Main av. and south of Third st. and for other work. Also approved was a building permit to the Peterson-Biddick company, calling for the construction of a second-floor brick addition 40 by 80 feet in dimensions to the company's building on Atlantic av.

City Officials, Past and Present, See Last Pavement Payment

Members of the council that contracted for the pavement of the streets of the business section of the city twenty years ago met Thursday afternoon with present city officials to watch city clerk P. G. Pederson draw the check that will retire all outstanding bonds of the original issue of $225,000. At Pederson's left is Mayor W. W. Prichard and standing, left to right, are Harry Kinghorn, Emil Griebstein and E. O. Iverson of the present council and Carl Froseth, Ole Ihle and Harry Brumund, members of the council twenty years ago.

City Retires Last of $225,000 Paving Bonds

A heavy financial burden was taken off the shoulders of many taxpayers in Thief River Falls last Thursday when the last of $225,000 paving bonds issued Aug. 1, 1921, and drawing interest at the rate of six per cent was retired with the payment of the final installment of $16,000.

Interest paid out during the twenty-year period on the bonds aggregated the huge sum of $144,600, City Clerk P. G. Pederson revealed. Financed by the issue was the construction of 18 blocks of bitulithic paving in the downtown district.

In addition to the current payment of paving bonds, the city has retired $3,000 in arena bonds this year, and before the end of 1941 will pay $10,000 in power plant bonds and $5,000 in sewage plant bonds.

These payments will leave the city with a total bonded debt of $274,000, including $166,000 in power plant bonds, $75,000 in sewage plant bonds, $30,000 in waterworks bonds and $3,000 in arena bonds.

State Taxpayers Assn. Urges Slash in County Levies Thruout State

An appeal has been made this week by the Minnesota Taxpayers Association to county boards of commissioners to cut down on levies for county government at their coming July meetings.

In two years time the cost of county, township and village units in the 84 rural counties of the state has gone up $111,381. While normal increases might be possible in normal times, the fact is that these are extraordinary times, and we are confronted with ever-increasing burdens due to our national defense program. We cannot afford to hamper the federal government at this critical time, but this does not justify local and county tax increases, Minnesota Taxpayers officials point out.

The fact is that the patriotic thing for local government to do is to help keep home expense down in order to give some relief to taxpayers. Every local unit should adopt a pay as you go plan at once, get on a cash basis, and prevent the accumulation of indebtedness.

"BETSY" DEMONSTRATES HER PATRIOTISM

TELEPHONE GIRL SOLVES TICKLISH PREDICAMENT

Benson—The heroism and fortitude of telephone girls has long been known but here's a story about one who could also think fast in an emergency. Working alone on the late night shift and sweltering one warm night last week, a Benson operator took off her dress, plugging in calls while clad only in petticoat attire. A breeze sprung up and she got up from her post to close a door down the hallway. As she did so, the door to the office slammed shut and locked leaving her on the outside away from her numbers, minus her dress, and in somewhat of a dither. After pondering a moment she piled books up to a point where she, being a diminutive person, was able to crawl through a small door into the office.

THE BONDAGE OF DEBT

Quite appropriate for the Independence Day issue is the picture of the signing of the check that pays the last installment of the pavement debt. Yes, the pavement is now paid for. The biggest bond issue ever floated by the city has been retired. And the pavement is still serviceable and will be for many years to come.

What connection does paying bills have with Independence Day? Everyone who has had the experience of being in debt—and who hasn't—knows the answer. The bonds of debt, as the name properly implies, are very definitely a form of bondage. While we are in debt we are not free. To get out of debt is to regain freedom.

And while we are on the subject, let's pause a minute to remember that it was in the so-called prosperity of the last war that we contracted the debts that caused us so much trouble later on. We have now entered upon another period of inflated values, and if we act as most people have always acted under such circumstances, we will again lose all sense of value. A few short draughts from the cup of prosperity will make us feel like men of means again. Cheap dollars will sing us their siren song and on the wheels of chance we will roll merrily along into the land of easy wealth—and ultimate disaster.

If past experience is worth anything as a guide to the future, the best possible use prosperity dollars can be put to is to pay up old debts. Second best use might be to build up a reserve with which to pick up some of the bargains that will be sold under the hammer when the pay-off comes.

At any rate these are things worth thinking about on Independence Day—by people who are concerned with the problem of their own independence.

There is no reason as yet to be discouraged with the results in Hitler's Russian campaign. It was to be expected that the German armies would make rapid progress in the early stages of their attack and it is not surprising that they have penetrated deeply into the enemy lines. The attack has followed the usual pattern. The element of surprise has given the Germans a tremendous advantage in these early stages of the struggle. The results from now on will depend largely on how much Russia has learned from Hitler's previous conquests—whether or not they have established a secondary line of defense that is better prepared to meet the quick stabs of the panzer troops and by powerful counter attacks to relieve the pressure on their advance units as they fall back. The results of the next week will indicate more as to what might be expected than have the results up to the present time. If, after three weeks of hammering, the Russians still appear to be maintaining good organization and a reasonably orderly retreat then there is good chance for the battle to last until the snow flies.

SHALL WE COMPROMISE?

There perhaps are a few Americans who believe sincerely that the war now raging in Europe, Africa and Asia, is no affair of ours; that the dictators look upon us with nothing but the kindliest of intentions; and that it will be in our best interests to come to terms with them as speedily as possible.

For the consideration of those who may still wonder if the present conflict cannot be settled by compromise, we present a few quotations from the Axis leaders, which state clearly enough for anyone to understand, just what their objectives are. We doubt not that the dictators would welcome a truce, a breathing spell during which they could consolidate their gains and reorganize their forces for the final phase of the program of world conquest. But read for yourself what they have told us of their own plans and purposes, and then draw your own conclusions. Here they are:

"Important is not who is right but who wins."—Dr. Goebbels.

"We will never approach history impartially, but as Germans." — Die Deutsche Schule.

"All without exception must bear their part in the policy of Fascism, in private and in public, in every lecture room, from every pulpit. Woe to those who teach the youth of today that there is a culture which 'takes no interest in politics'."—Signor Paolo Orano.

"The pacifist-humane idea may be quite good after the most superior persons have CONQUERED AND SUBDUED THE WORLD in such a measure as makes them its exclusive master. Therefore, first fight, and then, perhaps, pacifism."—Hitler in Mein Kempf.

"Anyone who really from his heart desires the victory of the pacifist idea in this world should support by every means THE CONQUEST OF THE WORLD BY THE GERMANS."—Hitler in Mein Kempf.

"Either the world will be governed by the ideology of modern democracy, in which every issue will be decided in favor of the numerically stronger races; or it will be ruled by the laws of force, when the peoples of brutal determination, not those that show self-restraint, will triumph."—Hitler in Mein Kampf.

"The struggle between two worlds can permit no compromise. Either we or they. Either their ideas or ours. Either our state or theirs."—Mussolini.

"There are two kinds of pacifism: true pacifism, which springs from a weak and sickly nature or from blindness, but which is honorably meant; and sham pacifism. This last is a political weapon and can serve for preparing for war. By putting the opponent to sleep with the help of pacifist declarations it seeks to induce him to neglect his armaments. The soporific fumes which it spreads over the enemy are useful to hide our own armament for war."—General Tierl, Hitler aide.

"The only instrument with which one can conduct foreign policy is alone and exclusively the sword."—Dr. Joseph Goebbels.

"It is impossible to build up an army and give it a sense of worth if the object of its existence is not the preparation for war. Armies for the preservation of peace do not exist; they exist only for the triumphant execution of war.—Dr. Joseph Goebbels.

PUBLIC OPINION

Editor, the Times:

It is now some time since we have said anything about our flood control project. There has not been much to report the last few months and there is not much to report just now. However, that does not mean that nothing is being done. The U. S. Army engineers at St. Paul have been seriously handicapped because of lack of trained men since the national preparedness program requires more trained engineers than are available. Our office at St. Paul which is in charge of Captain J. W. Moreland continues its services to the best of its capacity.

The present situation along Red Lake River and especially along the Clearwater River does bring the seriousness of flood conditions again to our attention. I wish to assure all of our readers that the Red Lake River Flood Control association has not decreased its endeavors to do everything possible for the promotion of our important project. We are maintaining constant contact with officials in charge of the necessary surveys and reports. It is hard to be patient while many are suffering further damages and this year will reaffirm the urgent need of flood control. Such damages as are being suffered by floods so far this year would never have been, if a good flood control project had been constructed now.

Since the heavy rains began the U. S. Army office at St. Paul has sent out men to recheck their former figures and calculations. Such re-checking can only re-establish the eminent need of a comprehensive river project. I believe that we can be reasonably certain that when the project is completely calculated that it will be comprehensive enough to really solve the problem. No information as to what will be done and how is yet available. Facts and figures will no doubt determine the manner of solution. We are fortunate to have such a capable and sympathetic man as Captain Moreland heading the U. S. Army office at St. Paul.

The Red Lake Flood Control association has already reported on damages this year and survey men have been over the area. We have the assurance that those who will suffer from loss of hay and feed crops necessary for the feeding of their livestock will be taken care of. The Directors of the said association met at Oklee last Monday evening. A serious loss of hay and feed crops was reported in several sections. This situation will be given our continued attention now. Meanwhile it becomes increasingly evident that the cause for floods can and must be remedied in the near future.

Senator E. L. Tungseth, Chairman.

SO. ST. PAUL LIVESTOCK

(By U. S. Department of Agricultural Economics and Minnesota Department of Agriculture)

South St. Paul, Minn., July 1, 1941: Market sharp downturns in slaughter cattle prices served to curtail marketings, and as a result of the supply abridgement the trade displayed a healthier tone Monday's market, according to the Federal-State Market News Service, was generally steady. While slaughter steers and yearlings had a tendency to strengthen as the following session. Most other killing classes were steady with the close of last week, although bulls were in extremes [illegible] lower. Offerings of stock cattle were light and that market also had a tendency to firm. Several loads fleed and choice light and mediumweight steers topped at $10.50 and there were choice and fed heifers at $10.25. Medium to good slaughter steers bulked at $8.75 to $9.75. Fourteen loads of Canadian cattle, largely steers, which sold at $8.50 to $10.00, arrived for Monday's trade.

Hogs started the week sharply lower and failed to recover on Tuesday's session. Barrows and gilts were off 25c to mostly 25c, while sows were down 20c to 25c. Tuesday's top was $10.50 paid frequently for sorted 190 to 210 lb. weights, with the bulk Good and Choice 160 to 240 lbs. kinds making $10.15 to $10.50. Similar grades 240 to 270 lb. offerings turned at $9.90 to $10.25 and weights up to 400 lbs. cashed downward to $9.50. Good sows under 400 lbs. brought $9.40 to $9.50 and heavier weights sold downward to $9.30. Continued weakness in the dressed pork trade plus slightly enlarged receipts influenced the lower trend.

Producers have been forced to accept lower price levels for most slaughter classes of ovine stock. Native spring lambs were 25 to largely 50c lower, with yearlings along the down. Sheep have retained chiefly steady prices. Western spring lambs moved Tuesday around prices 50c under comparable arrivals last Thursday. These declining prices reflect the lower trend of eastern dressed lamb markets, the outlet of which remains very slow. Tuesday's top including Washington spring lambs at $11.25, natives at $10.75, best yearlings realized $9.75, and slaughter ewes $4.50.

PITCHERS' BATTLE MARKS PLUMMER-ALL-STAR CONTEST

Plummer Defeats Picked Red River Valley Team 3-1 at Crookston

Crookston's Highland park was the scene of a well-pitched ball game last Sunday when the Plummer team defeated the Red River Valley All-Stars, 3 to 1. Only three hits were collected during the contest, with Hovanac on the mound for Plummer allowing the All-Stars but one hit, while pitchers Jacobson and Ellergaard gave up but two hits, singles by Lefty Fremling and Walt Toulouse.

Plummer tallied their two scores in the 2nd inning, when Rube Fremling punched a single into right-field, was safe at second base when Rustvold fumbled a throw from third-baseman Sipe on McCrady's roller to third, with McCrady reaching first base safely. Both runners advanced on an over-throw of first base, and then Walt Toulouse rifled a single thru the box, scoring Fremling and McCrady. Plummer added another tally to their total in the 6th inning, scoring on an error, two stolen bases, and a fielder's choice.

The All-Stars scored their lone run in the 4th inning on two bases on balls and two errors.

In connection with the survey work, a temporary tower has been erected on the county fair grounds. After leaving Thief River Falls the party will proceed on its way north to the border, working east and west along the American side of the boundary.

LOCAL TEAM GETS 19 HITS, WHIPS RED LAKE FALLS 11 TO 1

Thief River Falls Nine Will Compete at Grygla on July Fourth

Playing on the new diamond in Riverside park at Red Lake Falls Sunday the local ball club pounded the pitching of stocky Dave Kelley for 19 hits, which they converted into 11 runs, and defeated Eddie Kiefenheim's Red Lake Falls team by a 11 to 1 score, making Helmer Ness' debut as manager of the Thief River nine a success. The local team will participate in the Fourth of July celebration at Grygla on Friday, playing the Grygla team; and next Sunday the Red Lake Falls team will play here, meeting the locals on the fair grounds diamond.

After Wally DuChamp had lined out to the center-fielder, who made a diving catch, Stan Cockrell drove out a line single to right-field, and Bill Hallamack followed with a ground single into right-field, sending Stan to third, and when Eddie Kiefenheim made a low throw to the plate Stan scored. Hallamack tallied a moment later on Jaranson's long fly to center-field.

Red Lake Falls marked up their only score on a two-base error by Stevenson. Kelley had reached first on a hit to center-field, which he barely beat out when Wally DuChamp made a fine throw to first base. Joe Pouliot then poked a long fly into left-field, and when Stevenson fumbled the ball, Kelley was able to make the circuit for the score. Pouliot also attempted to score on the error, but was thrown out, Stevenson to Hallamack to Nornes.

Four successive singles, by Bob DuChamp, Clarence Offerdahl, Birdean Nornes, (who were the hitting stars of the game, with Bob getting "3 for 4", and "Poop" and Birdean getting "4 for 5") and Stevenson accounted for 3 Thief River runs in the 4th inning.

The locals picked up a pair of runs in the 5th, a couple in the 7th, and the final tallies in the 8th inning. Meanwhile pitcher Bill Hallamack was hurling steady Ball, scattering the 4 hits which he allowed, and three of those hits were of the "scratch" variety, to hold the Red Lake Falls team in check. Bill deserved a shut-out, and but for the loose play in the 2nd inning, would have rung up his second shut-out of the season.

The box score:

Ball Team Gets a New Manager

The press of other activities, mainly managing the roller-skating in the Arena, made it impossible for "Chuck" Dostal to continue as manager of the ball team, so the boys have "drafted" Ole Ness to manage the club for the balance of the season. The Helmer Ole Ness, that is. And I think it's a wise choice, for he is an experienced ball player and the boys like him; and Helmer isn't too old to get in there and play a few innings of ball. He had charge of the team on Sunday, and they came through with a 11 to 1 win over Red Lake Falls.

The local infield really put on some Fancy Dan plays Sunday. For instance, in the 6th inning a Red Lake Falls batter bounced a grounder to short, near second base, and shortstop Jesse DuChamp had to make a diving stop of the ball, but instead of scrambling to his feet and making the attempt to get the runner at first he flipped the ball to Johnny Jaranson, the second baseman, and Johnny whirled and made the throw to first to get the runner. That's playing heads-up ball.

One of these days center-fielder Wally DuChamp will throw a batter out at first base. Sunday he made a throw, on a ground hit over second base, and everybody at the game, except the base-umpire, thought that Wally's peg to first had beaten the runner.

Red Lake Falls is putting the finishing touches to a fine recreational plant. The game Sunday was played on the new diamond in Riverside park. The park, which will be utilized for such outdoor sports as baseball, football, and in winter, hockey and skating, is well-located, being built in the natural amphitheatre just to the west of the court house. I didn't think that they had so much idle land down there.

Red Lake Falls Here Sunday

Don't forget the ball game at the Fair Grounds next Sunday. It is reported that the Red Lake Falls club is being reorganized for the game, with veterans Eddie Kiefenheim, Ray Perras, and Dave Kelley being dropped from the squad. Sammy Blair is rumored as the new catcher, and there's some talk that St. Hilaire's Woody Almquist will be their pitcher. Well, Woody will be tough enough to beat.

A World's Record

"Five Transhooters Set World Record" reads a headline. And the article, by Jimmy Robinson, from the trapshooting tourney at Durand, Wisc., reads as follows: "But, listen to this. A world's record. Clyde Mitchell, Horace Aldritt, A. F. Jones, Matt Youngman, and Otto Nelson broke 123 out of 125 in one event in the handicap—a record from these yardages—Youngman and Mattsold at 22 yards, the rest at 23 yards. Each broke 25 straight, except Youngman and Mitchell who busted 24s. They ran 111 straight before Mitchell missed his 23rd bird, and then Youngman 'muffed' his 24th target."

The A. F. Jones mentioned in the item is a Thief River Falls marksman, being a specialty salesman who makes this city his headquarters.

Speaking of trapshooting, the local nimrods will be ready to use the fair grounds trapshooting field in a week or two. The new cement trap house is completed, and the new trap has arrived and awaiting installation.

They're Generous Sponsors

I. B. Hartz and Bill LaFave, sponsors of the Hartz and Bridgeman's teams in the D-ball league, are to be complimented on the fashion-plate appearance of their teams, now that they have outfitted their clubs with new shirts. Mr. Hartz has dressed his team in a new blue-and-white shirt, with the elbow-length raglan sleeves being white, and the balance of the shirt blue, and the lettering in white. With their red trousers it gives the Harts boys a patriotic appearance—red, white, and blue. Bill LaFave's Bridgeman team has the same style shirt, with the sleeves being black, and the body of the shirt in gold.

Art Langseth, the Dagwood of the Hartz team, became so excited over his new shirt that he hurried home, donned his D-ball outfit, with the red cap and red trousers, and went through fifteen minutes of maneuvers in front of the hall mirror. His conclusion was that he looked like a D-ball player.

2 YOUTHS ESCAPE IN POLICE CHASE; CAPTURED LATER

Admit Car Theft, Tell of Taking License Plates in This City

Two youths who fled from a car they had stolen in Red Lake Falls escaped following a chase by Crookston police Monday of last week, only to be taken into custody later.

One of the pair, Harry Stevens of Crookston, was picked up at the Middle River CCC camp, and appearing in district court at Crookston, was sentenced to serve an indeterminate term at the state institution at St. Cloud; while the other, Daniel Taylor, was arrested in Albert Lea and was to be sentenced this week.

Both admitted the car theft, as well as having come up to Thief River Falls after taking the car and stealing a set of license plates here from a car belonging to Miss Bernice Granum.

MINNESOTA HISTORICAL SOCIETY

9TH EUCHARISTIC CONGRESS ENDS IN ST. PAUL THURSDAY

80,000 Persons Participated in Final Rites at State Fair Grounds

The ninth National Eucharistic congress ended late Thursday with thousands in the church center at the Minnesota fair grounds humbly receiving from the personal representative of Pope Pius XII the benediction of the Blessed Sacrament.

A weather break that came an hour before the last spectacle of the four-day congress began the two miles procession of the Blessed Sacrament saved scores of thousands along the line of march from a heat wave such as exhausted many at Wednesday's pontifical mass for children.

Skies that clouded up in the late morning let loose a deluge of rain about 1 P. M. that knocked temperatures in the sun at the fairgrounds from about 100 down to 75 degrees. Thousands standing in open areas along the the procession line were drenched.

Officials of the Roman Catholic church said 80,000 made the two-mile march from Como park to the great altar at the fairgrounds despite the rain. Shortly after the procession started the rain tapered off, and then started again as the benediction began.

Roosevelt Man Elected Head of the N. W. School Alumni Group Saturday

Arthur Grove, Roosevelt, and Clarence Sargent, Crookston, were elected president and secretary, respectively, at the annual meeting of the Northwest School Alumni association Saturday, in connection with the annual alumni reunion at the school. Both terms are for two years.

The association voted to continue two scholarship awards of $25 to each one member of the freshman and junior classes, with the school faculty deciding on the basis for the awards. Also, the plan of having three consecutive class groups unite each year for their reunion, and a schedule whereby these reunions would occur every 10 years, was approved by the association.

The class of 1916 took attendance honors at the reunion Saturday with 50 per cent of the class being present. The class was celebrating its silver anniversary.

Paul Engelstad of Thief River Falls was master of ceremonies at a class program. Each member of the class was presented with a booklet with personal history letters and pictures of the class.

The annual alumni-faculty softball game was won by the alumni, with the Weckwerth brothers forming the battery, by a score of 12 to 2.

Stassen Cites Slash in State Debt Since Jan. '39

Minnesota's total state debt has been reduced more than $14,300,000 since Governor Harold E. Stassen and other officials of the present administration took office in January, 1939, accountants for the state reported this week as they tabulated figures for the fiscal year closing June 30th. Debt of the state was $129,787,660 on January 1st, 1939, when the Benson administration was closing up its books and the present administration was preparing to take over. As June wound up this year, the total had been reduced to $115,454,489, making a decrease of $14,333,171, or about 11 per cent in the two and one-half years since Stassen took office.

Watching him, as Admiral Stassen signs the commissions, are Win Stephens, left, general Aquatennial chairman; Eva Brunson, Queen of the Lakes; and Tom Hastings, president. The governors are invited to Minneapolis July 12 to 20.

WELFARE BOARD IN MARSHALL CO. ASKS HALT IN WPA WORK

Cites Shortage of Labor for Haying and Harvest Season

Because of an acute shortage of farm help and call for men on construction projects, largely caused by large numbers of young men being called into U. S. Army service, resolution requesting the closing of all W. P. A. projects in the county during the haying and harvest seasons, were adopted by the Marshall County welfare board at its regular meeting last week.

There are four W. P. A. projects operating in the county at the present time, giving employment to approximately 60 men. More than 100 county men have been called to military service under the Selective service act, thereby causing a shortage of needed farm help, welfare board members pointed out.

With the Highway 75 paving program now under way a large amount of labor will be needed for this project, contractors having already made a request for 50 men, said Paul T. Steen, executive secretary. Many farmers are also making requests for labor to assist them in haying operations which are now under way and also thru the harvest season which will very likely start after the middle of July.

GOVERNOR URGES CARE IN AVOIDING JULY 4TH MISHAPS

Advises Caution on Highways and While Swimming and Fishing

Governor Stassen called on Minnesota residents today to cooperate with safety leaders in a united effort to hold down accidents during the hazardous Fourth of July holiday season.

Urging caution on the highways and while fishing and swimming, the governor asked men, women and children of Minnesota to show the nation what can be done by a safety-conscious state.

Coincidentally, the Minnesota Safety Council, through its president, A. V. Rohweder of Duluth, called on its widespread membership to assist actively in curbing mishaps.

"The National Safety Council expects the Fourth of July accident toll to be the worst in the records of the United States," Governor Stassen said.

"However, such a toll can be avoided. Traffic accidents and drownings can be avoided if the individual recognizes the necessity of caution, realizes that safety is only common sense.

"In past years the state has set safety records that have attracted the admiration of the entire country. This has been because its citizens have been safety-minded, have kept their holidays from becoming tagedies.

"Let us once again give the nation a real safety record. It can be done if we, as individuals continue to recognize the fact that accidents can be prevented."

Rohweder appealed for extra public safety by the Minnesota Safety Council's membership, which includes men and women in every walk of life.

"Minnesota this year needs more than ever the whole-hearted support of the many persons who have enabled the council to reduce mishaps in Minnesota," he said.

"The three-day holiday period this year challenges our every effort. But the challenge can and must be met with caution, common sense and a determination to recognize the ever present threat of death and injury."

Buying or Selling of Crappies Banned in State

Crappies and sturgeon can no longer be bought and sold in Minnesota. That was the opinion of Attorney General J. A. A. Burnquist, based on a law passed by the recent legislature.

Previous to April 18, 1941, when the act was passed, crappies or sturgeon taken under commercial fishing licenses in international waters between Canada and Minnesota could be sold. Now the sale of either species is prohibited, regardless of where they are taken.

Projectors

Both the Smiley groups of the "Consumer Buying" project had their meetings this past week. The South Smiley unit met at the O. N. Olson home Tuesday afternoon with their leaders, Mrs. Freeman Allen and Mrs. Mark Olson. These leaders conducted a very instructive lesson on the wise buying of staple foods, pointing out the importance of such a money saving factor as buying staple foods such as oatmeal, macaroni, starch, etc., in large quantities rather than the small boxes. Such a practice will save a pretty penny indeed. Wise buying certainly goes far in saving money if a woman would only take the trouble and time to sit down, when the Times comes and pore over her favorite store's ad on groceries and check over her needs. Those "ads" are what counts in saving pennies. It pays in the long run. There were twelve members present at this meeting and being that this was the last meeting of the year, the members decided to have a final check-up meeting in the form of a picnic at the Ole Lian farm home Sunday, Aug. 24. Arrangements were that everyone bring their families and a "Dutch Treat" feed.

The North Smiley unit met Wednesday at the Walter Lendobeja home with their leaders, Mrs. Willis Roese and Mrs. Adam Lendobeja. A purse of money and a set of silverware were given the honor guests. Rev. and Mrs. Larson are former residents in Thief River Falls as Rev. Larson was the pastor at the Augustana Lutheran church here from 1913 to 1916. Five of their children were present. Iverson, who has held that office for a great many years. The Hiawatha school has the same officers. Miss Gunda Engen will return as teacher.

She and her two daughters, Lillian and Elsie accompanied another daughter (Evelyn) and her husband, Mr. and Mrs. Fred Bjornson by car to Bellingham, Wash. While there they spent several days visiting at the homes of Mrs. Larson's two brothers, Fred and Emil Jacobson. The party visited friends at Anacortes, Wash., also. Then the Bjornsons and Mrs. Larson took Miss Lillian and Miss Elsie to Seattle where they boarded the steamer "Columbia". The whole party made an inspection tour of this steamer which, in itself, was something to see. The view of the mighty Pacific was a thrill never to be forgotten. The two girls left by that steamer for Anchorage, Alaska where Miss Elsie has made her home the past two years. She will be married this week to a young man up there. The Bjornsons and Mrs. Larson returned Thursday via Grand Forks. Not the Rabble

A squad of recruits were out with an officer who was putting them through an observation test. Coming to the top of a hill the officer pointed to a distant party of soldiers. "Private Smith," he said to one of his squad, "how many men are in the digging party in that field?" The party was so far away that they only looked like tiny dots, but Smith replied unhesitatingly! "Sixteen men and a sergeant, sir!" The officer put his field glasses to his eyes, and counted them. "That's quite right," he said, "but how did you know there was a sergeant there?" "He's the one not digging, sir," replied Smith.

Dear friends:

"While we are celebrating the Fourth," says a newspaper comment, "would it not be well for us to pause long enough to recall what the noise is all about?"

We think the suggestion is well taken. We are apt to forget about the Declaration of Independence, and think only of the picnics and the fireworks.

Nevertheless, we wish you a sane, pleasant, and enjoyable Fourth.

Respectfully,

Carl B. Larson

BUSINESS VOLUME IN N. W. HIGHEST IN ELEVEN YEARS

Federal Reserve Bank Gives Increased Activity in Region

Northwest business volume last month "continued at the highest level since 1930," the Minneapolis Federal Reserve bank said in its monthly review Thursday.

"Bank deposits continued to expand," continued the review. "Farm prices advanced further and farmers' cash income from marketings was above a year ago."

All but one of the general business indices studied by the bank were at highest levels since 1929 or 1930.

Some of the straws in the wind that indicate just how much conditions have improved: Both city and county department store sales advanced sharply and were at the highest May levels on record.

The country lumber sales in index was at the highest May level since 1929.

The Minnesota index of employment rose to the highest point on record.

Construction contracts awarded in the district last month were the largest for any month since June, 1923.

Various Jobs Available at Employment Office

A $175 a month time-study man, a wood patternmaker, and a bookkeeping machine operator, paying $100 a month, are among the new unfilled jobs now awaiting qualified registrants at the local office of the Employment-Security Division. The division this week is making a special effort to obtain power sewing machine operators, the demand for which is increasing daily. These are in addition to a long list of construction workers needed for two years of employment at the United States Army and Navy base, now being built at Newfoundland.

Fast Action in Rodeo and Circus at County Fair

Rodeo stars from many parts of the west's cattle countries will vie with one another in the thrilling cowboy and cowgirl exhibitions, which form an outstanding part of the big Barker Brothers Combined Rodeo and Circus, to be seen afternoons and evenings before the grandstand at the Pennington county fair July 31, August 1 and 2.

In a bronc riding contest there is just one object between man and horse—for the rider to stay "forked" on the outlaw's back. The more the animal rages, snorts and pitches, the rougher the going for the cowboy—and the more exciting for the spectators.

A rodeo horse is not just a wild horse. His main idea is never to be saddled, much less ridden, even for the ten seconds the rules of rodeo say are sufficient to decide the winner—man or horse.

CHIPPEWA INDIAN ADMITS SLAYING SISTER-IN-LAW

Acting Superintendent Reports Getting Confession from King

J. H. Brott, acting superintendent of the Red Lake Indian reservation said Friday Gordon King, 23 year old Chippewa Indian charged with killing his sister-in-law, Mrs. William King, white, mother of seven, had confessed the shooting.

Brott also said King, a shrewd woodsman, had out-maneuvered purseurs and even bloodhounds had never been more than eight or ten miles away from the scene of the crime and once circled back to the woods shack where the slaying occurred.

Superintendent Brott, seeking a motive for the shooting, said King indicated he "resented" the victim's presence on what is part of the estate of Louis King, the suspect's father. Brott said King told how he had planned the shooting for six months.

Mrs. King, shot twice in the presence of four of her children who range in age from seven months to 17 years was buried Thursday at St. Mary's mission.

Before taking Brott to St. Paul to face federal charges because the shooting occurred on a government reservation, officials planned to continue efforts to locate the victim's husband, missing since the crime.

Kitty's Komments

This year, more than ever the Fourth of July will be celebrated in its true meaning our Independence Day.

When the old world is in such choas; with one free nation, one after another, losing its individuality it seems fitting that we as a free people should really observe the day in all its glory.

Here we live, one people of many nationalities, but all with that sacred love of freedom, our heritage of 1776.

People who came to the United States were often a persecuted lot who had that burning spark of freedom in their hearts. They found a refuge here. Its no wonder then, that instead of being just Norwegian, a German or a Pole we're proud, so proud to be known as Americans.

When we're off to celebrate the Fourth this year, let's make it a safe and sane Fourth try with all our efforts to prevent some accident that would be tragic not only to ourselves but perhaps to innocent others.

Lets shoot some fire crackers (with care) send some skyrockets heaven ward, give sonny a cap pistol and in our hearts thank God that it's fire crackers, not bombs, skyrockets, not anti-air craft, cap pistols, not real pistols, and have a grand Fourth!

SLIGHT CUT IN BUDGET FOR CO. WELFARE MADE

Welfare Board Announces County's Share to be $29,985.01

ALFRED BREDESON IS REELECTED CHAIRMAN

Additional Welfare Burden Created by '41 Session of Legislature

The Pennington county welfare board, at its annual reorganization meeting Monday, reduced its 1942 budget for the third consecutive year, it was announced today by Alfred Bredeson, chairman of the board. The amount of the reduction is small, amounting to only $700, but relief costs in the rest of rural Minnesota have increased by three quarters of a million dollars in the past year.

Mr. Bredeson pointed out that there must be an additional welfare levy made by the board of county commissioners for the costs of University hospital and reimbursement to townships on direct relief costs, and that therefore the total county levy for poor relief may not be any less for the coming year.

He added that the board had expected to reduce its budget by another $5,000.00, but the failure of the legislature to follow the governors' recommendation and give the counties their proper share of federal social security funds for aid to dependent children will mean that the counties will have to pay twice the amount of the state for the next two years.

Also, the last session of the legislature passed a law requiring county welfare boards to take over the board and room payment of all state wards, a cost borne previously by the state or under direct relief. The law provides for a 50 per cent reimbursement to the counties, but the legislature failed to appropriate the necessary money. Also passed was a law providing for the care of indigent tuberculous persons living outside the sanatorium, and then failed to provide the necessary funds.

Reduction in the budget has been made mostly on two items, old age assistance and surplus commodities. Old age assistance is expected to average $7,400.00 a month in 1942 as compared with a one time peak of $9,200.00. The saving in surplus commodity cost is due to the stamp plan.

In all, the board will administer directly or indirectly an expenditure of about $376,000.00 in 1942 on welfare, semi-welfare, and purely public or social programs. Of this amount, the county share will be $27,685.01. This figure includes administrative costs of about $6,600.00, about half of which is paid by the Federal government, and amounts to only one and one-half percent of the total expenditure.

The Board had its usual election of officers, who for the coming year will be: Chairman, Alfred Bredeson; vice chairman, O. M. Mandt; and secretary, Paul Roy.

The share of county funds asked last year was $30,958.50, compared to actual expenditures for the year of $29,368.55, and a budget of $29,985.01 for the 1941-42 fiscal year. It is anticipated that this latter sum may be reduced further by the receipt of approximately $2,200 from the state for poor relief.

Falling Stacker Fatally Injures War Veteran Saturday

Ernest Kolling, 44, farmer living north of Gully and a veteran of the World War, was instantly killed early Saturday afternoon in an accident on his farm.

Handicapped in his activities by suffering from asthma, Kolling was in the farm yard directing two of his sons in putting up a hay stacker when a team of horses driven by a third son became frightened and started to run away. As the father ran to catch the team, the stacker fell, striking him on the head and crushing him to the ground, death being instantaneous.

Born in Duluth in 1897, Kolling spent his youth in and near that city, and in 1925 was married to Miss Christine Tveitlie of Gully, who survives him, together with four children, Omar, Reuben, Calvin and Dorothy. His parents and brothers and sisters also survive.

Funeral rites were to be conducted today at the Norwegian Lutheran church at Gully, Rev. C. Field officiating.

CELEBRATIONS ON 4TH ATTRACT LARGE CROWDS

Ideal Weather Contributes to Success of the Occasion

THRONGS WITNESS FIREWORKS IN CITY

Canadian World War Veteran Delivers Address at Grygla

Favored by ideal weather conditions, Fourth of July celebrations in Grygla, Plummer, Highlanding and other communities in this section attracted unusually large crowds Friday, many residents of this city participating in the observances.

That many local residents did not leave the city on the Fourth was indicated by the large assemblage that turned out in the evening to witness the elaborate display of fireworks set off across the river from the Elks park.

Apparently the only Thief River Falls accident victim on the Fourth was Robert Glimsdahl, age five, who, police reported, ran into the side of a light truck driven by Willard Bensfield on East First st. at Conley av. The back wheel of the truck passed over the child's foot, cutting it severely.

At Grygla William D. Radcliffe, of Winnipeg, Canadian World War veteran, was the speaker on the Fourth. He discussed the significance of the occasion and pointed out the common bond created between Canada and the United States by joint participation in the World War and the present defense effort.

Headlining the sports program at Grygla was a series of exciting horse races. In the preliminary heat Friday Alvin Holte placed first, Martin Holte second, and Alvin South third. In the first heat Saturday Martin Holte won first place, Alvin Holte second and Alvin South third, while in the second heat winners were Martin Holte, first; Alvin Holte, second; and Wesley Leigh, third.

The Shetland pony race was won by Michael Harty, with Clarence Taylor in second place.

Building Permits Approved for Three Substantial New Residences

The city council at its regular July session Tuesday evening awarded the contract for next winter's supply of coal for municipal buildings, approved building permits aggregating approximately $15,000, and ordered the preparation of plans and specifications covering repairs to the public library building.

The Consumers Cooperative association, lowest of four bidders, was given the contract to supply 275 tons, more or less, of Kentucky screenings on its bid of $9.85 and 75 tons of Pocahontas lump coal at $11.85.

Principal building permits approved were for three new residences to be built by Roy Oen on Kendall av. N. at an estimated cost of $5,500; Norby & Hanson on Merriam av. near East-Third st., $4,000; and Guy Anderson, Merriam av. at Third st., $2,800.

At the session the council heard a plea from Miss Hanna Leine of St. Lukes hospital for action in halting a noise nuisance created by newsboys at a newspaper distributing office across the street from the hospital. LOCAL GIRL SCOUT GROUP IS GOING TO CASS LAKE AUG. 3D

Those Planning to Attend Asked to Register by Saturday

The Girl Scout camp at Cass Lake has been renovated and greatly improved in its facilities this year, it was announced today by Mrs. E. B. Benson, co-chairman of the camp in this community, who returned early this week from an inspection trip to the camp preliminary to the departure of the local group of Girl Scouts for an outing during the period from August 3 to 17.

Local Girl Scouts may attend either one week or two as preferred, and may register not later than Saturday, July 12, with either Mrs. Benson or Mrs. A. F. Berge, co-chairman.

It was reported that much new equipment has been installed at the camp this year, and that sanitation conditions are excellent. Miss Leoth Abbott will return to serve her fourth year as skipper at the camp.

15 MARRIAGE LICENSES ISSUED HERE IN JUNE

There was brisk business in the issuance of marriage licenses in Pennington county in June, a total of fifteen applications being filed in the office of Clerk of Court Henry Storhaug, compared to twelve in June, 1940.

Selective service has narrowed *its age limits with the blanket deferment of all men 28 years of age or older not now in training.*

The effect of the order was to make only those from 21 through 27 liable to a year's duty with the army in the future, and it increased the likelihood of an early call for many of the 750,000 young men who registered July 1.

The blanket deferment order was issued last week as local boards throughout the country were concluding the enrollment of the men who have reached 21 since the first registration last October.

Brigadier General Lewis B. Hershey, deputy selective service director, who issued the instructions, said he acted at the request of congressional leaders in anticipation of final congressional approval of legislation which would have the same effect.

The order affects approximately 8,000,000 men between the ages of 28 and 36—or almost half of the 16,500,000 who signed up last October when all men between 21 and 36 were required to register.

Senate-approved legislation now pending before the house military committee would provide deferment for all men who were 28 or over on July 1. The bill contains a clause making the deferment retroactive to July 1 and providing for the discharge of any men of that age group who are inducted into services on or after that date.

Inasmuch as congressional leaders anticipate passage of this bill without major change, Hershey said, further inductions in this group should be postponed for a period of 30 days to permit final action on the bill. Enactment of the measure would put the deferment on a permanent basis. It applies, however, only to peacetime.

Final Rites for Louis Williams Held Monday

Final rites were conducted by Rev. T. C. L. Hanson of Holt at the Silver Creek Church at 2 o'clock Monday, July 7 for Louis O. Williams of Excel Township, who passed away at a local hospital on Thursday, July 3 at the age of 77 years, three months, and 13 days. Interment was made in Greenwood cemetery.

Mr. Williams was born on March 20, 1863 in Hamilton County, Ia. He was married in that state in 1890 to Margaret Thoreson and lived there until 1902. At that time he moved to this community where he has since made his home on a farm.

His parents, three brothers, three sisters, and one daughter are dead. Surviving him are his wife, Mrs. Margaret Williams; three sons, Henry, Andrew, and Clarence all of this city; three daughters Mrs. Martha Johnson of Kalispell, Montana, Mrs. Albert Bock and Esther of Hogeland, Montana; one sister, Mrs. Ella Shire of Worthington; 11 grandchildren; and two great-grandchildren.

Mr. and Mrs. Arthur Knutson and children Donald and Bernice motored to Crookston last week to attend the wedding of Marjorie Whitney of Crookston and Russell Becken of Erskine.

At the end of nearly three weeks of blitz the Russian army is still an army, and that is something. Just what has happened and is happening in the campaign is anybody's guess. Reports are conflicting and most of them no doubt are exaggerated, some probably entirely without foundation. The fact, however, that Germany has quit claiming the annihilation of a Russian army or two each day and admits meeting stubborn resistance indicates that the struggle is by no means one sided. Having survived the explosion of the first surprise attack, the Russians now should have a fair chance of maintaining organized opposition for a long time.

There is no longer any question as to what our country will do about the convoy problem. With the establishment of an American base in Iceland, our navy will protect the shipments of supplies to that point, simplifying the problem of the British by enabling them to concentrate their north Atlantic defense to the comparatively short distance between Iceland and their own ports. It may be expected that our ships will soon be engaged in a shooting war.

There is merit in the request of the Marshall County Welfare Board asking that government relief work projects be discontinued for the time being in order that more labor will be available to the farmers for haying and harvesting. The relief projects, it should be remembered, were set up to meet an unemployment emergency. That emergency no longer exists. Those who are willing and able to work can now find jobs. This is true especially for the young men. There will come a time when there will again be need for government work projects but right now, when we are confronted with an actual labor shortage, let's save the relief funds for the more difficult period ahead of us. At the present time the relief problem should be at a lower than normal level and well within the means of the local communities to provide for.

Interest charges on the city's $225,000 pavement bond issue totaled $141,600 during the twenty years of the life of the issue. If the principal had not been reduced during this period and the city had paid only the interest, then the interest charge would have been approximately twice as much and we would still have owed the full amount of the original issue. By financing this debt on the amortization plan the city paid out a total of $369,600. If we had paid interest only our cost would have been approximately $280,000 and we would still be confronted with the problem of paying the debt. There would be much merit in a law providing that all obligations, public and private, extending over a period of years, must be paid in equal annual installments.

A LESSON IN GOVERNMENT

Many wars have been fought to gain and to preserve the form of government we now enjoy. We are now engaged in another struggle which may require us to make great sacrifices if we are to retain the right to decide for ourselves what form of government we are to have. Is our present form of government worth preserving? In order to answer that question intelligently a person must have some understanding of the different forms of government we have to choose from or that might be imposed upon us. That would include an understanding of our own institutions and it isn't often that we give the whys and the wherefores of even our own government a passing thought. That is why the following paragraphs appealed to us. In just a few words they tell a big story. They are quoted from a speech delivered by C. D. Dalins in presenting an award.

> The point is that a pure democratic majority may be capricious, autocratic, and unjust to a minority or to minorities; furthermore, natural leadership quickly rises to the top in a majority group and power and wealth inevitably center in a very small minority. This is true of a business, of a labor union, of a church, of a nation, or of a democratic majority in a nation. Therefore, it is also true that a minority may have sufficient power to ride roughshod over a majority. So in order to protect everyone and balance both the power of the majority and of the minority, the founders of our Constitution were careful not to set up a political democracy, but a republic, with a vote for everyone, but with constitutional representative government guaranteeing certain inalienable rights to minorities and with checks and balances of power.
>
> Politically, democracy under a republic or otherwise implies ultimate rule by the majority. But true democracy goes further than that. It guarantees and protects the freedom and liberty of the individual and of all individuals. Hence, we have a republican form of democracy, that not only gives rule to the majority party, but also guarantees the rights and freedom of the individual. Stated otherwise, democracy is a way of life that presupposes freedom, opportunity, and responsibility for the individual. It is a balance between liberty and equality on the one hand and mob rule and dictatorship on the other. It is important that we understand this else all our sacrifices and wars to protect democracy may be in vain.

RED LAKE FALLS BOWS TO LOCALS BY 6 TO 1 SCORE

Thief River Falls Will Seek Revenge on Plummer Next Sunday

In a seven-inning ball game played on the fair grounds diamond Sunday the locals defeated Red Lake Falls by a 6 to 1 score. The Thief River Falls team will meet the Plummer aggregation here next Sunday in what is expected to be one of the "climax" games of the season, with the locals anxious to avenge the two previous defeats handed them earlier this year by Gus Krueger's boys.

Bill Hallamack pitched out of two "tight" spots in the 1st and 2nd inning of Sunday's game. Gagner's single off Bromberg's glove opened the game. Kiefenheim bounced a single into right-field, with Gagner moving to third, and Kiefenheim going to second on throw. Pay Perras sent a dribble to the mound and Hallamack pegged to catcher Jacobson to get Gagner at the plate. Kiefenheim was picked off third, Hallamack to Bromberg. Mesarole grounded out, Hallamack to Cockrell. Columbus drew a base on balls to open the 2nd inning; and pulled up a third base on Jorgenson's double to left-center. Joe Pouliot, on a slow roller, was safe on a fielder's choice, filling the bases. Elwood sent a hot shot to Jesse DuChamp, who whipped the ball in to the plate to force Columbus. And Bill Hallamack took Kelley's ground ball, threw to Jacobson who forced Jorgenson at home, and Jake then made the throw to Cockrell to complete the double play. Red Lake Falls' lone score was tallied in the 7th inning on Columbus single to center and Jorgenson's long double to left-field.

Johnny Jaranson's walk, Hallamack's long double, accounted for the locals first tally in the 2nd inning. A single by Jaranson, a base on balls, an error on Jesse DuChamp's ground ball, and Jorgenson's low throw, gave the locals another run in the 4th inning. Three scores in the 5th inning put the game on "ice". Jacobson walked; Wally DuChamp beat out a slow roller to third; Nick Bromberg poked a single over third with some good leg-work, beat out base, scoring Jacobson; Cockrell, a hit; Jaranson's fly to second base went into center-field.

In a game which had everything, homeruns, strikeouts, errors, and lost balls, the green-uniformed Land O'Lakes defeated Viking, 14 to 11. Viking started their young pitcher, Buddy Stone, on the mound, and he hurled fine ball, being handicapped by poor support. Viking put on a 6-run rally in the 7th inning, the power blow of the frame being Gilbert Holden's lost-ball homerun.

Hallamack Leads Local Hitters; Average .421

The mid-season batting averages reveal that the veteran Bill Hallamack, with a fine .421 average, is leading the local hitters. Bobby DuChamp's .350 is good for fourth place, and to be the leading hitter among the DuChamp trio of players, with Wally hitting at a .276 clip and Jesse with a .160 mark.

PLUMMER DROPS SEASON'S 1ST TILT TO ALVARADO 8-6

Wins Fourth of July Contest Over Leonard Team by 2 to 1 Score

The Plummer team received its first defeat of the season last Sunday when they dropped an 8 to 6 decision to the Alvarado club, in a game played under miserable playing conditions at Alvarado. The hard-hitting Alvarado team pounded Plummer's ace pitcher, John Hovanac, off the mound with a 5 run rally in the 7th inning. The veteran Jim Gilbertson finished for Plummer, holding the Alvarado team scoreless and permitting but one hit.

Playing before a large Fourth of July crowd at Plummer on Friday the Plummer nine defeated Leonard of the Paul Bunyan league, 2 to 1, in ten innings. Rube Fremling's long drive to center-field, scoring Deane Schoenauer, who had received a walk and gone down to second on a passed ball, broke up a pitcher's duel between Lefty Hovanac and Leonard's Isaacson.

Plummer will journey to Thief River Falls next Sunday, and will attempt to add to its string of victories over the Thief River club.

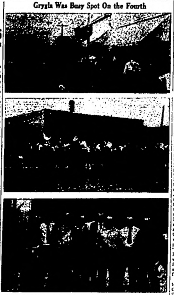
Lions are Guests of Rotary at Enjoyable Golf Party Tuesday

In a golf match featuring a party Tuesday evening at the golf course, at which the Rotary club was host to Lions club members, a Lions team won the coveted tin can trophy from the Rotarians. At a Dutch lunch held following the play, Mayor John Queen of Winnipeg, a visitor here, spoke briefly, complimenting the Lincoln high school band on its performance at the recent IWVA convention in Winnipeg. Dr. E. S. Amesbury, Lions president, and A. F. Berge, head of the Rotary club, also gave short talks. The affair was attended by 35 members of the two groups.

FIRE DAMAGES SHED ON TINDOLPH AV. TUESDAY

The fire department was summoned Tuesday afternoon to a shed in the rear of 411 Tindolph av. S. when a fire started in the building, apparently set by a small boy who had been playing in the vicinity. The blaze was extinguished after some damage had been done.

Grygla Was Busy Spot On the Fourth



Grygla was jammed with a celebrating crowd on July 4th as the top picture indicates. Good music and lots of it was provided by a band made up of Thief River Falls musicians, center picture, and below is a group of men from the Goodridge community who beat a Grygla team in the tug of war contest and seemed very happy about the whole thing. Left to right they are Russel South, Henry Hegtvedt, Peter Sjolsvold, Henry Becker, Knute Hegtvedt, Frank Rohrer, Orrin Rambeck and Alvin South.

LOCAL BALL TEAM WINS JULY 4 DUEL WITH GRYGLA NINE

Large Gallery Sees Locals Win Contest by Score of 9 to 3

In one of the features of the American Legion's Fourth of July program in Grygla on Friday the Thief River Falls team, by a 9 to 3 score, defeated the Grygla team. The well-played game was witnessed by a large crowd.

Lead-off men Wally DuChamp opened the game with a base on balls, moved to second on passed ball, and after Cockrell and Hallamack had struck out and Johnny Jaranson had drawn a walk, Bobby DuChamp shoved a double into right-field to score Wally. Jesse DuChamp ended the inning by bouncing out, short to first.

Hallamack's double down the right-field foul line, followed by Jaranson's double along the left-field foul line, and Nornes' scorching single into left-field, scored 2 runs for Thief River in the 3rd inning.

Stan Cockrell's line-drive triple into right-field, scoring Nornes and Helquist, who had singled, and Wally DuChamp, who had walked, high-lighted the big 6th inning when the locals scored 5 runs. Gryglas' pitcher, Woody Almquist, was plagued by loose support in this inning, with the Grygla outfielders misjudging fly balls.

Bill Hallamack pitched no-hit ball until the 5th inning, when Gunderson drove a ground ball between third and short, and no-one fielded the ball until the 6th inning, when Hank Sandland's ground single into left-field, his steal of second, and Art Sandland's single through the box, scored Grygla's first run. Grygla picked up a couple of runs in the 8th inning on Woody Almquist's single into left-field, a fielder's choice, a stolen base, and Art Sandland's second hit, a single to center-field.

Legion Junior Baseball Team Splits Even on Two Games Played Past Week

The local American Legion junior baseball team divided the two games played during the week, breaking into the victory column with a well-earned win over Warren at Warren last Wednesday evening, winning by a 3 to 1 score, and dropping a 7 to 2 decision to East Grand Forks in a game played on the Fair Grounds diamond yet.

Johnny "Soup" Campbell scattered three hits, struck out 5 batters, to lead the locals to their win over Warren, Bob Baker, Homer Matheson, and Don Berg, with two hits each, led the attack on Warren's Paul Erickson.

Behind Mahlon Spitzer's three-hit pitching, and taking advantage of loose play the locals, the East Grand Forks team defeated Thief River, 7 to 2, in a seven inning twilight game played here last night. "Soup" Campbell and Lenny Lorentson shared the pitching duties for the locals.

Grand Forks will play the locals on the Fair Grounds diamond next Wednesday.

Plummer vs. Thief River Falls

The contest that is on tap for the Fair Grounds diamond next Sunday, between Plummer and Thief River Falls, is expected to be one of the "climax" games of the season. The scrappy Plummer nine, with a couple of wins over the local team already this year, will move in to take the Thief River club over the hurdles for the third time. Since those defeats by Plummer the locals, with Bill Hallamack on the mound, have racked up five straight wins and the boys feel that they have the stuff to knock off those proud Plummer Red Sox.

The intense rivalry between the two clubs, which tied for the Northern Minnesota crown last year, hasn't been lessened by the fact that Plummer hired our ace pitcher Hemmy Sahl to hand the locals the two defeats earlier this year. And there are a number of personal rivalries. Jesse DuChamp will attempt to show Plummer's Lindquist a few shortstopping tricks; Wally DuChamp will give a center-fielding lesson to Hefius; Johnny Jaranson and Deane Schoenauer, both second-baseman, will try to out-shine each other; Stan Cockrell, at first base, won't have much trouble out-fielding Rube Fremling, but he will have to do some hitting to out-slug the Rube; and Bill Hallamack, who's anxious to even old scores with Plummer, will be on the mound trying to out-pitch and out-smart the Red Sox "imported" hurler, Lefty John Hovanac. And manager Ole Ness will be matching tactics with Plummer's G. A. Krueger. So all in all, quite a game is in store for the fans.

And accompanying the Plummer team will be one of baseball's rarities—a young lady score-keeper. She's Miss Althea Krueger, attractive daughter of G. A. Krueger the Plummer manager, and she's the official scorer for the club. Crookston's Walt Grinols, who's not very easily surprised, was astonished at the capable manner in which Miss Krueger wrote the book for the Plummer game held at Crookston the other week.

Westrum on All-Star Team

Wes Westrum, who caught ball for Plummer and Crookston last year, and who's catching for Eau Claire this year, was named to the Northern league all-star team. Westrum is a cousin of Ardell and "Leck" Robinson, former local ball players, and a cousin of Oslo's "Smokey" and "Bunty" Robinson. There's always been baseball in that family, so it's no wonder that Wes has turned into a A-1 major league prospect.

A D-ball High-light

In the 7th inning of the Land O' Lakes vs. Viking game Monday occurred one of the most comical incidents of the season, when the Land O'Lakes fielders lost a ball. Viking, in the midst of a rally, had two men on base and Gilbert Holden at bat. He laid wood to one of Ham Myhrer's pitches and drove the ball over short-fielder Jimmy Kelly's head; out-fielder Andy Anderson (the Lallue Anderson of last year's Prowler football team; who's home from the navy on a two week furlough) made a chase, over-ran the ball; Kelly came running for it, but he lost it, too; Viking runners were rounding the bases; Walt Larson was tearing his hair; Kelly was calling Andy a "Knuckle-head"; Andy was calling Kelly a "Snow ball"; and all the Viking runners scored; Gilbert Holden got a home-run; and not until both teams came out into center-field for the search, was the ball found.

Miscellany

Louie Benson, catcher for the Crookston Pirates, was in town on Saturday. The Pirates had an open date, and Louie spent the day visiting with friends—Earl "Shorty" Tripp, goalie for the Fargo-Moorhead Comets, has received his brakeman's rating on the Soo Line, and has been out on a couple of "pay" trips—Lenny Helquist, the fellow who tripped over the pitcher's mound in Grygla on Friday, is a student brakeman—O. F. Halldin and his son Kenny made local Soo Line history this week when Kenny was fireman for his dad. It's reputed to be the first instance of a father-and-son being an engineer-fireman combination. Dave Kelley, Red Lake Falls' pitcher, hurled fine ball Sunday, and especially so in view of the fact that he had given a blood transfusion to his 11-year old son on Saturday.

The ones who do the most complaining are the ones who are absent when there's anything to be done about it.

Staples—Mrs. L. H. Montay and Mrs. Maynard Avery received a distinct shock when Bonnie Jean Lane, 4 years old, caught an eight pound walleye pike off a dock on Lake Shramineau recently. It seems the women had been cleaning and baiting Bonnie's hook and casting it in the water just to amuse the child when Bonnie announced she had a nibble. To humour her, one of the women took the line and then had to call on the other woman to help her land the eighth pound Walleye that Bonnie had caught.

YOUR DEFENSE against an impending COAL SHORTAGE CENTRAL LUMBER CO'S COAL CONTRACT BUDGET PLAN

The coal docks at Duluth constitute the principal coal supply of the northwest. Owing to recent strikes, vastly increasing coal consumption for the national defense, and the diversion of lake steamers and railroad cars for government needs, little more than half of normal deliveries has been made to the lake docks.

This means coal will be hard to get this winter.

We at Central Lumber Co. are doing our part by stocking all the coal our bins will hold. But we can store only so much at one time, and that is not enough to last this community all winter.

We therefore urge all our friends to fill their own bins without delay, so that we can bring in more coal before the transportation situation becomes worse.

To make it possible for you to get your coal supply now, without financial hardship, we are making available for the first time to persons with good credit:

CENTRAL LUMBER COMPANY'S COAL CONTRACT BUDGET PLAN

Under this plan you can fill your bin now and pay in convenient monthly installments spread over the heating season.

Let us explain to you exactly how our Coal Contract Budget Plan works. You have everything to gain and nothing to lose by acting promptly. Come in today.

The board accepted the resignation of Miss Ruth E. Aluminum Scrap to be Collected Next Week

New County School Head

MISS JUDITH LOCKREM
Who Tuesday was named by the county board to succeed Richard Dablow, who resigned as county superintendent of schools, effective September 15.

Arrangements for the collection of all possible scrap aluminum from homes and business places here and in other communities throughout the county are being completed under direction of Major Gustav Schilbred of Thief River Falls, who has been appointed chairman of the Civilian Defense Council for this county by Governor Stassen.

The collection of scrap aluminum is the first of many important activities to be undertaken by the local civilian defense councils now being set up throughout the state. Dates set for the campaign are from July 21 to July 29.

Instructions and suggestions for the campaign, just received from Ernest L. Olrich, state defense coordinator, stress the urgent need of the government for aluminum and ask for the cooperation of all citizens in assembling as much of this vital defense material as possible.

"The nation needs aluminum for airplanes and other items in its defense program more rapidly than existing facilities can produce it," Mr. Olrich pointed out. "The people can help very much in this emergency by donating all the aluminum ware they can spare from their homes or business places without being replaced. If a housewife has other types of utensils she can use in place of her aluminum ware, she should donate all the aluminum ware she can spare, but she should not give away anything that would require her to purchase new utensils."

In the city of Thief River Falls, Major Schilbred announced, Boy and Girl Scouts will make a house-to-house canvass to collect the articles, or those having contributions to make may call Mr. Schilbred or members of his committee.

Residents in the rural districts are asked to make delivery to the nearest member of the defense council, members of which outside the city include M. H. Jackson, St. Hilaire; Ole Odegaard, Hazel; Jay Payne, Goodridge; Bud Korstad, Highlanding; and R. Gordon, River Valley.

2D DRAFT LOTTERY HELD TONIGHT IN WASHINGTON, D. C.

Total of 15,744 Young Men Registered in State of Minnesota

Sequence numbers for 15,744 young men who registered in the State of Minnesota on July 1 will be drawn in the Second National Selective Service Lottery to be held in Washington, D. C., this evening, Lt. Col. J. E. Nelson, State Director of Selective Service announced today.

The sequence numbers will determine the order in which these new registrants will be integrated among the old registrants who have order numbers larger than the last selectee of their local board who was involuntarily inducted before midnight, June 30, 1941.

For an example, if a local board should happen to have 100 new registrants and 1,000 old registrants on its list whose order numbers follow that of the last involuntary inductee as of midnight June 30, then one new registrant would be placed after each group of 10 old registrants.

Any induction made after midnight, June 30, will be ignored in the integration of new registrants among old ones.

The lottery, which will determine the sequence in which new registrants will be integrated among old ones, will be held in Departmental Auditorium, Washington, D. C., at 6 P. M. today.

A set of serial numbers, each preceded by the letter "S", from "S-1" to include the largest number used by any local board in the country in assigning serial numbers to July 1st registrants, will be drawn by lots. Approximately 800 numbers will be drawn, Col. Nelson said.

The serial numbers in the order they are drawn in the lottery will constitute a master list to be used by local boards in assigning "Sequence Numbers" to their July 1st registrants.

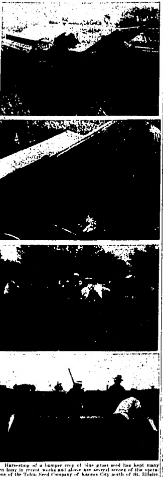
Blue Grass Crop Being Harvested



Harvesting of a bumper crop of blue grass seed has kept many men busy in recent weeks and above are several scenes of the operations of the Tobin Seed Company of Kansas City north of St. Hilaire. Special harvesters strip the tops from the grass and these tops are thoroughly dried in curing yards before being sacked and shipped for cleaning and sale. The top pictures show the strippers, a gang of three being hauled by one tractor on the Blazek farm northwest of St. Hilaire. The scenes below show some of the activity in the curing yard on the Picard farm immediately north of the village. T. J. Tobin, in charge of the operations, estimates this year's local payroll at between $6,000 and $7,000. Several other seed companies are operating in the territory.

Hats off and a round of cheers to the county officials who this year are making a substantial reduction in the county's debt, cutting it $82,000 to a net balance of $566,000. Auditor Senstad reports that the financial affairs of the county are in good condition, with no outstanding warrants to worry about and a little cash to the credit of most of the funds. Most of the county's debt, contracted originally at six per cent, has been refunded at lower interest rates which now average only slightly more than four per cent. As good news, that's tops. During the past twenty years the county has paid out in the neighborhood of $600,000 in interest on its $600,000 debt and it is mighty encouraging to know that at last some progress is being made in the reduction of the principal itself. So hats off and a round of cheers for the progress that now is being made.

Prospects for local business activity were never brighter than they are at the present time. Crop prospects in the entire trade territory are good and prices, compared to those of recent years, are favorable. The city's biggest industry, the railroad, is maintaining what must be close to a record payroll. Home construction is swinging into high, the indications being that this year's record will be well up to the average of recent years. Unless things go terribly wrong within the next few weeks, 1941 is going to be a good year for folks hereabouts.

Earnings of the city's light plant increased ten per cent during the first six months of the year. The new telephone directory is bigger by a hundred names than the one issued a year ago. These facts, along with the information that the county has reduced its levy for next year and reports that the mosquitos are not as bad as they were a few weeks ago are things we can all feel good about.

Among other normal activities that are suffering an enforced curtailment as a result of the war is highway construction. The state highway department now finds itself in the strange position of having ample funds on hand for an enlarged construction program and yet having difficulty in maintaining even a normal schedule of new jobs because of a shortage of skilled labor, particularly engineers and draftsmen. More than a hundred of the engineers and draftsmen employed regularly by the department have resigned to accept more lucrative work in the national defense program. At its present salary schedules the department has been unable to replace them and money available for new construction is piling up waiting for the completion of plans. Maybe this is as it should be. Instead of worrying about the possibility of there being a little cash balance in the highway department funds perhaps there would be some merit in the idea of tucking these balances away to be used to cushion the shock of unemployment when the present emergency ends.

Daylight saving would have greater appeal in our neighborhood if a few early morning hours of summer could be added to the winter afternoons.

It is possible that the Dunne brothers and a few of their intimates in the Twin Cities may be put out of circulation for a few years, Uncle Sam having taken exception to some of their activities. If the worst comes to worst Minnesota probably will be able to struggle along without them. It may mean that we will have to get along with a little less violence in our metropolitan centers but if that is necessary in the interests of national defense who are we to complain.

For nearly four weeks now the Russian army has been withdrawing in disorder and with heavy losses, according to the reports from Germany, but as yet, if we may judge by the names of the towns and rivers where the fighting is taking place, the Hitler war machine has made surprisingly little progress. That doesn't mean that the Russian campaign can be called a failure but it does indicate that Hitler is encountering more difficulties in his conquest of Russia than he had anticipated. The fact that the Russians have survived nearly a month of attack adds greatly to their chances of being able to maintain their resistance indefinitely. And the Germans cannot continue their offensive indefinitely. The elements of time and distance are against them. Verily, Herr Hitler now has a bear by the tail, afraid to let go and no doubt a little worried about how long he is going to be able to hang on.

A father of three sons told us this week that while he didn't like the idea of our country going to war he thought maybe it would be better for the younger generation if we helped stop Hitler now rather than face the probability of being forced to maintain a big war machine for many years to come if Hitler should take over the rest of the world. We liked what he said, and the way he said it.

Our machine operator has been suspicious of that God Save America song since he learned that it was composed by Berlin.

If the war should end tomorrow would our country be plunged into depression again? Economists think not and they base their conclusion on the assumption that the government would not permit a let-down of production. This seems to be the generally accepted idea. Instead of building war machines, our energies would be directed, under government control, into the production of our own peacetime needs and the reconstruction needs of the countries that have been devastated by war. The era of big scale government spending would be continued and an artificial prosperity, based on credits extended to foreign nations, would be created. How long that would be continued would of course depend on developments at that time. Sooner or later the time will come when the government income will have to match the expenditures and then, certainly, we will have to face a few disagreeable facts. But right now the fellows who should know something about such things seem to agree that we can look forward with certainty to quite a long period of increasing government regulation of this, that and the other thing, including prices and wages, as well as production.

The Japs must be having a tough time trying to figure out what to do next. They are faced with the difficult problem of being forced to pick a winner or losing all their chips. If Germany makes spectacular gains in Russia within the next few weeks it is not unreasonable to expect Japan to enter the war as an active Axis partner and start shooting it out in the Pacific. If, however, Russia is able to withstand the pressure, even to the extent of maintaining an orderly retreat, the Japs probably will become a peace loving people again.

450 MATTRESSES NOW FINISHED IN COUNTY PROJECT

County Agent States Work Will Continue Thru September

The making of mattresses in the county-wide project in conjunction with the triple A and Extension Service has now passed the half way mark, according to Ernest A. Palmer, county agent. With approximately 450 mattresses completed out of 850 applications, the work is expected to continue through July, August and September at the two centers at Thief River Falls and Highlanding.

As sufficient material has been ordered for 1000 mattresses, there is still enough ticking and cotton for 150 more mattresses. Anyone living in the rural Pennington county who has not as yet filed an application may do so while the material is still available.

Highlanding and North townships lead all other townships in the county to date with 74 and 52 mattresses completed respectively. Other townships with the work well under way are Reiner, Star, Rocksbury and River Falls. Henry Paulson is in charge of the Highlanding center and Mrs. A. C. Matheson is in charge of the Thief River Falls center.

The Thief River Falls golf club will be host to the league matches on July 27th.

Incidentally, Jim Nordine was a participant in the State Amateur golf tournament played over St. Paul's Town and Country course last week. Jim played in the Championship flight and won his first round match when he defeated Roger Arneberg, Rochester, 1 up in 19 holes; but was eliminated by Harry Robinson Jr., who shot a 32-37—69, to defeat Nordine, 3 and 2.

LOCALS SCORE SIX IN 8TH INNING TO DEFEAT PLUMMER

Overcome Early Lead to Win Contest Here Sunday Afternoon

Exploding into a 6-run rally in the 8th inning the local baseball team broke up an exciting but loosely-played game here Sunday afternoon and defeated Plummer, 11 to 7.

Errors by Bob and Wally DuChamp, and Nornes, combined with "Brownie" McCrady's looping single down the right-field foul line to give Plummer 3 runs in the opening inning. Lefty John Hovanac's double into right-field (he was the game's hitting star with "four for four", getting two double and two singles) and Lindquist's single to left, scored another Plummer marker in the 2nd inning.

Thief River Falls picked up a couple of scores in its half of the 2nd inning when Nick Bromberg was safe on a fielder's choice, went to second on an error, took third when "Poop" Offerdahl beat out a slow roller, and scored on Wally DuChamp's single into right-field. Cockrell beat out a short pop to Fremling, sending Offerdahl to third, and Wally to second. Bill Hallamack drew a walk to force in a tally. John Jaranson retired the side of a whiff. Two hits, by Jesse DuChamp and Birdean Nornes, and an error, gave the locals two scores in the 3rd inning, and knotted the count at 4-all.

Plummer collected scores in the 4th, 7th, and 8th innings, while Thief River Falls was marking up a lone tally in the 5th inning, to give Plummer a 7 to 5 lead going into the last half of the 8th inning. Hallamack was out when left-fielder Fortier made a fine catch of his long fly. Jaranson received a base on balls. Shortstop Lindquist bobbled Bob DuChamp's ground ball, and followed with an error on Jesse DuChamps' grounder, to load the bases. Nornes connected with one of Hovanac's fast balls and drove a double into deep right-center, clearing the bases. Offerdahl's single into left-field scored Nornes. Wally DuChamp poked a single into right field, sending Offerdahl to third. McCrady's high throw to second, which went into center-field, scored Offerdahl and moved Wally to third, and Wally scored when Hovanac uncorked a wild pitch. Pitcher Bill Hallamack closed out the game by retiring Plummer in order in the 9th inning.

Jesse DuChamp played a fine game at shortstop for the locals, spearing two line drives off the bat of Howard Hoflus. Nornes took over the slugging honors for the Thief River team, getting two well-hit doubles, driving in four scores.

Streamlining D-ball League

Last Thursday night a majority of the team managers, Clarence Offerdahl, Gregg Pouliot, Helmer Ness, Walt Larson, and Clarence Stromberg, decided to reorganize the D-ball league into a five-team circuit for the balance of the season. It is hoped that the reorganization will stimulate the interest of the players and the fans, for diamondball this year has been very lack-lustre. Mosquitoes and postponements may have had a dulling effect on fan interest, but it's a fact that the league has been unbalanced, with the bulk of the top-notch players being monopolized by four or five of the teams.

If Monday night's game between Hartz and Bridgeman's is any criterion of the league reorganization, then it was a fine thing, for that game was one of the fastest and best-played games of the season. Hartz had to play seven innings of red-hot ball to win their 7 to 2 victory.

Under the revised schedule each of the teams will be playing two games a week, and every game will be a contest, for the five teams are intense rivals.

Worth Noting

Make arrangements to attend at least one of the American Legions junior baseball tournament games at the Fair Grounds on Saturday. Thief River will meet the tournament favorite, East Grand Forks, at 10 o'clock Saturday morning, and Crookston will play Warren at 2:00 P. M. The winners of the preliminary games will meet at 6:15 P. M. for the championship.

"Doc" Elstad, coach of the local nine, stated that either Johnny "Soup" Campbell or Lefty Lenny Lorentson would be on the mound for the opening game. Doug Snelling is slated to do the receiving, Don Berg at first base, Hunt at second, Vern Tormoen at third, Campbell or Baker at shortstop, and Homer Matheson, Bob Baker, Marlyn Dorn in the outfield.

Mysterious Montagues

The local golf club had a couple of Montagues on the course Saturday morning. At 3:00 A. M. headlights were noticed around the No. 1 tee, and a couple of golfers were seen to be in a heated argument. One of them teed a ball and made a drive. Those headlights were then seen to crawl out on the course, apparently searching out the ball. It is rumored that this pre-dawn driving contest was the result of an argument as to the driving ability of one of the golfers. The golfer who wagered that he could drive the golf ball 200 yards is reported to have lost the bet.

It's Only a Rumor

That widely-circulated rumor to the effect that Coach John Lindenmeyer had received his call for army duty, and that he was to have taken his physical examination on the 15th, is only a rumor. Superintendent Morris Bye and the members of the School Board announced that they hadn't received any information from Lindenmeyer. They expect, though, that he will receive his army call soon, and it's this expectancy that causes these rumors to rise.

Still the Record-Holder

[illegible] the Fair Grounds trap-shooting lay-out still leaves Haakon Olson's record of 25 consecutive misses intact. Cliff Overum, using a borrowed automatic, broke 9 out of 25, to make a gesture toward the record. One thing about Haakon's record, and which gives him a great deal of satisfaction, is the fact that it can't be broken, only tied.

It Was Westrum-Benson Night

At the ball park at Crookston Sunday night. A number of fans from this vicinity (nearly the entire Plummer ball team was in the stands) were at the game. I was in a party that contained Clarence Offerdahl, Bob and Jess DuChamp, Stan Cockrell, Johnny Jaranson, and Buttercup Nornes. Pink-cheeked Nornes was making remarks about the soft stuff that the Northern league pitchers were throwing, and that he would have clubbed those sharp-breaking hooks of Eau Claire's Loren Bain out of the park. Nornes always talks like that when he's fifty feet from the plate.

But in spite of the 19 to 3 trouncing which Crookston received, the game was interesting. Louie Benson, who caught for the Pirates, played a bang-up game, poling out two doubles, and making the fielding play of the contest when he made a diving catch of a short pop foul. Wes Westrum, Eau Claire's catcher, caught his usual nifty game, and drove a long ball out against the right-field fence.

T. R. Falls, 11; Plummer, 7

That's all that needs to be said about Sunday's game.

More Tourists This Year in Vicinity of Bemidji

A total of 3760 have registered this year compared to 1762 for last year. Minnesota, North Dakota and Iowa maintained their lead during June, but Illinois nosed out Wisconsin for fourth place. There is a very noticeable trend in transcontinental travel, with coast states showing a heavy registration.

PENNINGTON AAA COMMITTEE GIVES WHEAT PLAN DATA

Explains Manner in Which Excess Wheat Acreage Is to be Handled

In an effort to place wheat marketing cards in the hands of all wheat producers before harvest, the Pennington county AAA committee is taking steps to set up machinery to handle this new phase of the farm program Carl R. Anderson, county AAA chairman announced today.

Marketing quotas will be in effect on all farms on which wheat is raised, Mr. Anderson stated, adding that as soon as wheat acreage on a farm is measured, marketing cards can be issued.

If seeded acreage is not larger than the wheat acreage allotment, or 15 acres, a marketing card will be issued permitting all wheat produced on the farm to be marketed without penalty. In order to market wheat on farms on which are seeded 15 acres or less of wheat in 1941 or those on which the normal production of acreage planted is less than 200 bushels, it is necessary to have a marketing card, which will be issued only upon request.

If measured acreage of wheat seeded is in excess of 15 acres and the acreage allotment, excess acres must be taken care of before a marketing card can be issued.

Mr. Anderson points out the following ways among others, the excess wheat may be disposed of:

Payment in cash of 49 cents a bushel for the excess to the county AAA treasurer and receive a marketing card permitting sale of all wheat.

Deposit with the county treasurer 49 cents a bushel on the excess to be held in escrow to the growers credit. The excess wheat under this plan must be stored on the farm and if it cannot be shown on demand, the money reverts to the United States treasury.

Deliver the excess wheat to a bonded warehouse and secure warehouse receipts for the surplus. The grower under this rule assumes all responsibility for storage charges. Receipts under this plan must be deposited with the county AAA treasurer.

Haul the excess wheat to the elevator and sell it with a 49 cent penalty. The county committee will then give the grower a marketing card to sell the remainder of his wheat.

FARM SECURITY AGENCY ASSISTS 50,700 IN STATE

Borrowers Repaying Their Loans, State Director Announces

The Farm Security Administration has assisted 50,700 farmers, or one out of every four, since the rural rehabilitation program began in 1935, Milo G. Flaten, state FSA director, reported today.

Summarizing a survey recently made of the program etaoin made of the progress of families taking part in this U. S. Department of Agriculture program in Minnesota, Flaten said that in the past six years 41,135 families have received loans, and 9,565 additional families have had other rehabilitation assistance.

The loan cases, Flaten explained, are divided into two broad classifications, standard and non-standard, both of which are self-liquidating.

"There are at present 11,419 standard loans in Minnesota," he said. "These standard loans have been made to farm families on the basis of balanced farm and home plans. Since these families are those whose problems have piled up over a number of years, they need long-range plans of operation which will help them get on a self-sustaining basis again.

"Emergency loans have been made to 27,690 families whose condition was not quite so critical as those who received standard loans. These families were suffering from the ill effects of one or two crop failures, and are expected to recover in a much shorter time than those who needed standard loans."

Since the start of the program, 10,505 Minnesota borrowers have completely repaid their loans.

"In a limited number of cases," Flaten explained, "we have found it necessary to make grants in order to get the family off to a sound start. Usually these grants were just large enough to tide the family over until the end of the first crop year. In Minnesota these grants have averaged $287.27 per family over a five-year period."

The survey also showed that of the $11,568,335 which has been loaned to date in Minnesota, $3,925,231 has been repaid to the federal treasury as installments on the loans.

Patrol Pushes Drive on Bad Lights and Brakes

Aiming at two leading factors which contribute to traffic accidents, the Minnesota Highway Patrol last month checked lights on 23,506 cars and tested brakes on 17,378. These figures were contained in the monthly report of Patrol Chief Elden Rowe.

A total of 4,034 motorists were given written and verbal warnings for infractions of the law which tended to involve them in motor vehicle accidents. Improper lights were the chief cause for warnings, with 1,040 motorists being informed their car lighting equipment was defective and should be repaired immediately.

"Must repair" tags were issued 1,825 motorists because equipment on their cars was dangerously faulty or illegal. For having no tail light, 534 motorists were given tags, 343 for having only one headlight, and 270 because of dangerously inadequate brakes.

During the month, 1,664 traffic law violators were arrested, with improper equipment being a prominent cause of arrest. This violation was charged to 690 drivers. Excessive speed resulted in the arrest of 193, careless driving 174 and driving while intoxicated 134.

STATE DEFICITS OF EIGHT MILLION NOW ELIMINATED

State Treasurer Reports on Past Fiscal Year Ending June 30

More than $8,400,000 in deficits in the various funds embraced in the general revenue fund of the state of Minnesota have been eliminated since Governor Stassen and other officials of the present state administration took office early in 1939, accountants for the state reported this week as they tabulated figures for the fiscal year just-concluded on June 30th.

On January 1st, 1939, when the Benson administration was drawing to a close, the general revenue fund had a deficit of $8,522,020.50, including overdraft and outstanding warrants.

Excepting a loan which has been made to the state prison revolving fund and which will be repaid in a few months, the general revenue fund now has a balance of $844,643.86, counting both the payments made and outstanding warrants. Governor Stassen indicated in a report to the legislature his belief that the deficit would be eliminated by June 30th except for any fund that might be loaned to the prison to finance its activities pending receipts from the summer sales of machinery and twine. His prediction now has been confirmed, the accountants report.

State treasurer Julius Schmahl reports that the general revenue fund had a cash balance of $658,184.87 on June 30th. Outstanding warrants on this date amounted to $763,541.01, according to tentative figures submitted by State Auditor Stafford King's office. This would make a deficit at the close of business for the fiscal year of $105,356.14.

Loans from the general revenue fund to the state prison fund for the fiscal year totaled $950,000. Taking into consideration this asset of $950,000, the general revenue fund has, not a deficit of $105,356.14, but actually a balance of $844,643.86.

Schwantes, chief of the division of agricultural Engineering, and Norton Ives, extension specialist in agricultural engineering, [illegible] Farm, St. Paul, and A. Kirk Crawford, A. M. Foker, and W. THERE ARE COINCIDENCES AND COINCIDENCES

Jordan—While marching back into camp one day from drill, Othmar Forchlingsdorf, one of the Jordan enrollees at Camp Claiborne, La., suddenly noticed a familiar name stamped in indelible ink on the packsack of the soldier in front of him. Looking closer, he found that the haversack once belonged to Albert Busch, a fellow resident of Jordan, who saw much active service in some of the heaviest fighting of the Meuse-Argonne and St. Mihiel offensives.

DEFENSE ADDS MILLIONS OF TELEPHONE CALLS

Speed in producing ships, guns, planes, tanks, ammunition—all the equipment for defense—has increased tremendously the demand for telephone service.

Never before have such demands been put upon the telephone, particularly in the larger cities and over the principal long distance lines.

National defense demands for telephone service are being met promptly and fully but doing this and, at the same time, minimizing the restrictive effect of defense needs upon the service generally, is a tremendous undertaking.

Staples—Mrs. L. H. Montay and Mrs. Maynard Avery received a distinct shock when Bonnie Jean Liane, 4 years old, caught an eight pound walleye pike off a dock on Lake Shramineau recently. It seems the women had been cleaning and baiting Bonnie's hook and casting it in the water just to amuse the child when Bonnie announced she had a nibble. To humour her, one of the women took the line and then had to call on the other woman to help her land the eighth pound Walleye that Bonnie had caught.

Wicked Dogs

A total of eighteen sheep were killed out right by stray dogs on the Ole Helgeland farm the other evening. What could possibly be more wicked and useless than those dogs killing perfectly innocent animals? A large number of dogs have been shot in this community this summer. Smiley has a great many sheep raisers and not much time is lost in shooting strange dogs near the sheep pastures. If anyone values their dog, he had better keep his dog tied up in the night. If your dog comes home in the wee hours in the morning all played out, he's been chasing sheep, perhaps. If he doesn't come home—hes' been shot. So think it over and tie the hound up whether you suspect him or not.

AFTER FIFTY YEARS
BROTHERS MEET AGAIN

Brainerd—It was a happy reunion for Fred and George Reynolds when the two brothers met after a fifty year separation. They parted at Bird Island in 1891, Fred making his home at Lake Margaret, and George moving to Preston, Idaho. Not knowing where to locate Fred upon his return to Minnesota, George asked the Brainerd police who in turn found the long sought for man. They met in Brainerd, and the fifty year span of their separation made the delayed reunion a thrill not experienced by many people.

ANNOUNCE LOAN PROGRAM TO AID GRAIN STORAGE

Farm Security Agency Will Extend Assistance to Borrowers

An emergency supplemental loan program has been launched in Minnesota by the Farm Security Administration of the U. S. Department of Agriculture to finance the construction of repair of low cost granaries for borrower-farmers who are faced with the problem of finding proper storage space for their wheat as they finish it this month and next.

Hilding W. Thelander, county supervisor of Farm Security, disclosed that the Washington office has authorized loans to provide emergency farm grain storage on the following conditions:

1. Such loans may be made only to standard Farm Security borrowers and to other farmers who have received loans from FSA for participation in co-operative grain elevator associations in Minnesota;

2. Such loans may be made only for amounts necessary to construct or repair emergency facilities which will meet minimum Commodity Credit Corporation farm storage requirements and thus qualify the farmers for Commodity Credit Corporation loans available to cooperators in the AAA program.

Mr. Thelander said this action was being taken by Farm Security to help alleviate the critical grain storage problem developing in Minnesota and other Northwest states as a result of the bumper wheat crop to be handled this season with terminal and sub-terminal warehouses and country elevators already filled almost to capacity with the record carry-over of surplus grain.

Colored Fish

The marine gardens off the coast of Nassau are famous for their beautifully colored fish and strange but lovely undersea formations of coral which can be viewed through the crystal-clear waters from glass-bottomed boats which make regular trips from Prince George's Wharf.

Unicycle Act at Co. Fair

Two fine European performers, Mayay and Brach, who were touring America with their unicycle novelty at the time their country, Denmark, was invaded, and who will have to remain in this country for the duration of the war, are scheduled to appear both afternoons and evenings before the grandstand at the Pennington county fair, according to George M. Wilson, secretary.

Mayay and Brach were well known throughout Europe as topliners in their field. Perhaps no other cyclist has ever done as many seemingly impossible stunts on a unicycle as Brach. Miss Mayay, who won a beauty contest as Queen of the Circus during the stay of the Greater Olympia Circus at the Chicago Stadium last April, possesses outstanding ability as a performer as well as great charm.

BICYCLING HONEYMOONERS VISIT AT ST. PETER

St. Peter—"All the world loves a lover," and more so might this apply to a certain young couple who believe in modernizing their honeymoon. The young couple recently stopped in town while enroute—on bicycle—from their home in Evanston, Ill., to the Black Hills of South Dakota. Using the lightweight type of bike, the pair said travelling that way was easy and comfortable. They averaged about 50 miles a day.

Golden Wedding

Mr. and Mrs. Matt Ahola were honored with a golden wedding at their home near Malcolm on Sunday afternoon by a large crowd of over one hundred friends and neighbors who surprised them on their fiftieth wedding anniversary. Mr. and Mrs. Ahola, who were married in Finland fifty years ago were presented with a purse of money, the presentation being made by Joshua Jokela in behalf of all those present. Visiting formed the afternoon's diversion after which a sumptuous lunch, which had been brought by the guests was served in buffet style from an outdoor table centered with a white three-tiered, square wedding cake, trimmed with pink and topped with a miniature bride and groom. The party was arranged by Mrs. Joshua Jokela and Mrs. Frank Makal. Those from a distance who were present were Mr. and Mrs. Edward Ahola of Detroit, Michigan, Mrs. Bill Ward and son of Toronto, Canada, Mr. and Mrs. Arthur Karvonen and family, Mrs. Helia Matta, Mr. and Mrs. William Vaha and family, Frank Habaranta and daughter, Mr. and Mrs. Oscar Hoiman and Erick Eskell, all of Plummer, and Mr. and Mrs. Sidney Fladeland and children of Thief River Falls.

Correction

In last weeks column in the article, 4-H club meets" it was stated that Virgil Holthusen, Winton Leverson and Violet Magnuson were named on the program committee to arrange the 4-H club program to be presented at the August meeting of the North Star Farmers club. This program will instead be arranged by Helen Rasmusson, Adeline Nygaard, Rolf Lunde and Arvid Anderson and the first three named will arrange the program for the next regular meeting of the Benville Brigadiers 4-H Club.

Silver Wedding

The Curtis Smith home was the scene of a silver wedding on Sunday afternoon when a group of about one hundred friends and neighbors tendered the Smith's a pleasant surprise in honor of their twenty-fifth wedding anniversary which occurred on July 1. The honored couple were presented with a lovely silver service and a cash purse in honor of the day from their friends. The presentation was made by George Larson, who also sang "Silver Threads Among the Gold".

At the close of the afternoon the hostesses, Mmes Emil England, Alvin Dahl and George Larson, served a delicious lunch which had been provided by the guests. Mr. and Mrs. Smith were served at a table which was graced by a beautiful white wedding cake decorated in pink and green and topped with a miniature bridal pair.

HARRY GREGG OF EAST G. FORKS HEADS GROUP

Conservation Department to be Represented by Carl W. Moen

Carl W. Moen, top ranking lecturer and informational representative of the Minnesota Department of Conservation, will address the annual meeting of the Northwestern Minnesota association of Conservation Clubs to be held at the Thief River Falls Auditorium Monday evening, July 28.

Nomination of Moen as convention speaker was made last week by Commissioner William L. Strunk after a request by Harry Gregg, association president, that the department furnish a speaker.

Among the outstanding features of his lectures are the "Conservation I. Q." tests which he gives. Moen conducts a conservation quiz in the monthly publication of the department and at his lectures holds contests with teams selected from the audience answering his conservation questions on a competitive basis.

Also carried as a feature of the entertainment program are natural color films made by department photographer Ralph A. Woolsey. Among the films are reels made at the Carlos Avery game refuge, at the Lac Qui Parle water conservation project, of wild geese in migration and of pike propagation.

Nineteen conservation clubs from northwestern Minnesota localities are members of the association.

Present officers, in addition to Gregg, are W. F. Zauche, Baudette, vice president; Kenneth Schlasinger, East Grand Forks, secretary-treasurer; and A. A. Trost, Warren, member of the State Advisory Council.

Clubs which comprise the association are the Bronson Gun club, East Grand Forks Rod & Gun club, Fertile Izaac Walton League, Grygla Sportsmen's club, Holt Sportsmen's club, Lake of the Woods Sportsmen's club at Baudette, Sportsmen's Conservation club of Newfolden, Pennington County Sportsmen's club of Thief River Falls.

WLS Troupe at Co. Fair Wednesday Night Only

A pioneer in radio entertainment is the WLS National Barn Dance, which is observing its seventeenth anniversary this year, and in celebration of the event a gala tour of this popular radio show has been arranged. With a galaxy of new stars of comedy, song and dance, the National Barn Dance is coming to Thief River Falls for a performance at the Pennington County fair Wednesday evening only, July 30.

There are many interesting features of the new Barn Dance Show, but the main and original idea remains—rustic comedy and music in the setting of a hayloft. But it is vaudeville up-to-date, and novelty of the highest standard. The Saturday night coast-to-coast broadcasts of this show still rank among radio's most popular programs.

It was seventeen years ago, April 15, 1924, that the first National Barn Dance program took the air over WLS, then located in the Sherman Hotel, Chicago. It was purely an experiment, but it registered immediately, and for the last nine years, the programs have been broadcast from the Eighth Street Theatre, Chicago.

Anything that can last seventeen years, and especially entertainment, must have something. The National Barn Dance has. It is unique and distinctive and it is native American entertainment at its best. It presents the songs, music, laughs and dances of our country. The artists have individual characteristics, and after one or two appearances on the show, there is no need for introduction. At the first word or note, the listeners know them. This creates a friendly atmosphere between artists and audience, and there is a demand for personal appearances of these nationally popular entertainers.

The father, Mr. Y. C. Sinn, acts as master of ceremonies for this talented group of ten people whose ages vary from Sally, 21-year old daughter and a pianist of ability, on down to 3-year-old baby June, a child singer.

Harmony singing by two different trios; tap, acrobatic, ballroom and Hula dances, plenty of comedy and music all combine to give a thrilling hour of fun. The show takes one back to the days of high class vaudeville.

Also included in a snappy 5-piece band, led by Harry Sinn, the 11 year old hot shot of the drums.

The average person forms an opinion by adding to a small measure of information, a dash of imagination and a large quantity of prejudice, shaking well with emotion.

POLICE CHIEF A. B. STENBERG TO QUIT POSITION AUG. 15

Popular Officer to Reenter Employ of Soo Line Railway

It was learned this week that A. B. Stenberg, Thief River Falls police chief for the past ten years, is submitting his resignation from that office, effective August 15.

WLS QUIZ SHOW AT PENNINGTON FAIR WEDNESDAY NIGHT

Members of Audience Given Chance to Win $100 in Prizes

Do you know all the answers, just some of them, or none of them?

You will be given the opportunity to answer these questions for yourself, and will have a lot of fun—regardless of your ability—during the hilarious Quiz Show, which is one of the features of the WLS Barn Dance Show, coming to the Pennington County fair Wednesday evening, July 30.

A quiz program is top-speed entertainment as presented in this WLS show. It stands to reason that everybody cannot be asked a question by the master-quizzer, but there is fun for everyone whether on the side-lines or the center of attention.

The master-quizzer of the WLS Quiz Show is a past master when it comes to asking questions of an amusing and tricky variety. That's where the fun for everybody comes in. For the person who is asked the question there is more fun, of course, because he or she is in line for one of the cash prizes, and a total of $100.00 in cash prizes will be awarded during this quiz program.

As soon as the master-quizzer has selected the person to be quizzed, hand microphones are rushed to the candidate by radio stars in the show. There is fun, action and thrill during this feature of the program. The person to be quizzed gets a close-up view of a popular WLS entertainer, a peep into the microphone, his question from the Master Quizzer and his chance to win a cash prize.

At the weekly luncheon of the Rotary club Tuesday noon in the Evelyn hotel, E. O. Peterson gave an account of his recent trip to New York City, Washington, D. C. and other eastern centers.

Big Rodeo, Circus at Fair Each Afternoon

The advance guard of the big Barker Brothers Rodeo and Circus arrived in Thief River Falls early this week to begin work on the arena before the grandstand at the Pennington county fair for the combined rodeo and circus entertainment, which will be offered Thursday, Friday and Saturday, July 31, August 1 and 2.

The Barker Brothers show is different from the ordinary rodeo in that while it carries all of the thrills of the rough riding broncho, the Indians and Cossacks, it also combines the best features of the modern circus with its clowns, trained animals, ponies, monkeys and its daring acrobatic stars.

Steer wrestling or bulldogging, possibly the most dangerous to rodeo contestants will bring before the fair's stands many stars who have fought their way to the top in this endeavor. They have appeared with success at Cheyenne, Wyo., Frontier Days; Pendleton, Ore., Rodeo; Chicago Stadium Rodeo, and other nationally famous roundups.

Rodeo attractions are but part of the Barker Brothers offerings to this year's fair patrons. A complete circus will also be on display as a part of the program at all performances. Unlike other rodeos or circuses, Barker Brothers intersperse their wild west thrillers with stars from the 'big tops'. In doing this, they relieve the taut nerves of the spectators with a lighter form of entertainment, then come back with more thrills. The idea has proven a good one, as the show has met with capacity crowds at every appearance.

HEARTY RESPONSE GIVEN ALUMINUM DRIVE IN COUNTY

Boy and Girl Scouts Canvass Entire City in Two-Day Period This Week

Stating that the drive to collect scrap aluminum in Pennington county and thruout the nation will continue until this week-end, Major Gustav Schilbred, chairman of the county civilian defense council, announced today that with the help of Boy and Girl Scouts a house-to-house canvass of Thief River Falls was completed in two days, and met with a wholehearted response from the public.

Major Schilbred said that any county resident who has not yet been called on to cooperate may share in the project by bringing aluminum scrap to his nearest committeeman or by bringing it to 814 East Fourth St., city, or by calling Mr. Schilbred, telephone 972. "Remember," he said, "that it is not the amount of the individual contribution that counts so much as the participation in the campaign of all citizens."

Mr. Schilbred expressed appreciation of the services of the Boy and Girl Scouts, as well as of members of the American Legion post and Lions club who supplied cars and drivers to aid in the city-wide canvass.

Enemies are friends you made the mistake of losing.

FARM SECURITY COMMITTEEMEN MEET THURSDAY

State Chairman Milo Flaten Explains Program at Meeting Here

Members of newly-organized Farm Security Administration advisory councils from twelve counties attended a school of instruction at Thief River Falls, last Thursday, July 17. The members, appointed by Milo G. Flaten, state FSA director, will advise and assist in the operation of the Farm Security program in Minnesota.

"Councils consist," Flaten said, "of a three-member rural rehabilitation committee, a three-member farm debt adjustment committee, a three-member tenant purchase committee, and three members at large."

At last Thursday's meeting, they discussed problems of tenure, health, credit, soil improvement and other problems in their relation to low-income farm families.

Speaking at the forenoon session, Mr. Flaten told committeemen, "Nothing is important except as it relates to people and people tied down to land."

Members of the committees were chosen, according to Flaten, because of their concern for the welfare of small operators and their interest in the efforts of FSA to help disadvantaged farm families overcome the difficulties which stand in the way of their achieving security on the land and a better standard of living.

FSA makes loans to farmers unable to obtain credit elsewhere for the purchase of chattel goods. Loans are made for five years at five per cent interest and are based on supervised farm plans. In selected counties, the FSA also makes real estate loans to eligible tenants. These loans can be made for periods up to forty years at three per cent interest. Services of the farm debt adjustment committeemen are available to all farmers involved in debt obligations beyond their capacity to pay. Committeemen will aid farm debtors and their creditors in reaching agreements based on ability of the farmer to satisfy his debts.

The councils which include bankers, farmers, ministers, doctors and others on their membership will meet frequently.

Counties represented were Beltrami, Clearwater, Kittson, Koochiching, Lake of the Woods, Mahnomen, Marshall, Norman, Pennington, Polk, Red Lake, and Roseau.

Over 500 Mattresses Made in County to Date

Over five hundred mattresses have now been made in the Pennington county mattress program. This brings the program past the half-way mark in the county as there are on file approximately one thousand applications. There are two centers in the county—one at Thief River Falls and one at Highlanding. Each center is capable of turning out about sixty mattresses a week, but cannot run full capacity as the county allotment in ticks per week is only fifty. Unless the allotment is increased the program will probably be continuing through August and September.

Hitler assures us that his army is still tearing the Russians to pieces but the reports from Russia indicate that the German advance has not been as rapid as Hitler would like to have it. Not that we believe the Russian reports more honest than those that come out of Germany. It is the fact that the scene of action has changed but little the last couple of weeks that proves quite conclusively Hitler's Russian blitzkrieg has not blitzed as successfully as his previous campaigns. The Russian army has now survived longer than many experts predicted it would be able to hold together, and apparently it is still far from being demoralized. The Germans are paying dearly for every mile they advance. And as the weeks pass the crops are ripening, making it easier for the retreating Russians to destroy what they cannot harvest, increasing the possibility that Hitler, instead of securing rich stores of food, will find only a barren waste as he pushes forward.

Are you one of those optimistic farmers who expect a big crop of grain this year? If so, maybe you should start figuring out what you are going to do with the crop after you get it threshed. There seems to be a shortage of storage space. In Kansas railroads have refused to accept shipments of grain for storage because no storage room is available. A thousand carloads of grain are on siding down there with no place to unload. Farmers are piling the grain in their fields. It already is a serious problem and isn't going to become less serious as the harvest moves north.

Isolationists tell us the present national emergency has been brought upon us by war mongers but we are inclined to agree with Walter Lippman who places the responsibility upon the isolationists. Our country's foreign policy has been directed by the isolationists ever since we repudiated President Wilson's plan of a League of nations. Following their leadership, ostrich like, we buried our head in the sand as far as international troubles were concerned. Until the last couple of years we have consistantly encouraged international piracy by serving notice on the world that we would not lift a finger to preserve international peace as long as the law breakers respected our rights. There is good reason to believe that if, at the right time, we had declared our intention to help maintain order we could have formed a united opposition to the aggressors that they would have been forced to respect. Not that it matters a great deal at the present time who is responsible for past mistakes. It will be important, however, when the present mess is cleaned up, that we understand clearly the background of our present troubles in order that our future policies can be formed more wisely.

Early reports from the war front that is close to home are most encouraging. Harvesting is getting under way and Bill Ferguson reports receipt of the first load of 1941 grain, winter wheat combined by H. J. Finstad south of town, 60 lb. test, excellent quality and running 23 to 25 bushels to the acre. And the heat hasn't been all to the bad, Florian Szymanski brought four stalks of corn to the Times office yesterday, part of a seven acre patch on his battle field in the Kratka sector. Take our word for it, it was taller than we could reach.

The Japs are sticking their chins out again, this time presumably to protect their neighbors down in Indo China. This may not be the time the explosion occurs but one of these fine days the Japs are going to run into a peck of trouble in their own back yard and when the smoke has cleared away either they don't have a navy or we won't. From our standpoint there probably isn't much to be gained by postponing further a disagreeable situation that seems inevitable.

It's county fair time again, which provides a good excuse for a lot of people to knock off for a day and get good and tired for some other reason besides hard work. We are glad the fair comes only once a year but we wouldn't want it any less often than that either. Once a year is about right. This year's exposition is number 40, another proof that the community is getting along in years. They tell us it started as a trotting association. At that time, with everybody owning or hoping to own a snappy driving outfit, there was universal interest in horses—and horse racing. Young bloods of today think in terms of hundred horsepower—streamlined. Fair entertainment has changed. Better lighting and sound amplification have made possible an entirely new type of program. But by and large there probably isn't a great deal of difference between the county fairs of today and those of forty years ago. There still are the exhibits, the merry-go-round, the pink lemonade and the crowds. The county fair is one institution that has survived many centuries of changing conditions and the fact that it has adjusted itself successfully to all climates indicates that it is a hardy plant that probably will do well for many a year to come.

Congratulations to the group of Pennington county residents who were made American citizens last Friday. The nation to which they have sworn allegiance isn't perfect, but it is about the best there is in this world.

Here's hoping that that aluminum ware shower is a big success in Pennington county.

A Minneapolis girl was named Aquatennial queen Friday. Fortunately for her, Thief River Falls didn't have a candidate.

Leon Henderson is one Washington New Dealer who deserves public support in his effort to head off a disastrous inflation.

Developments of the past week indicate that the Minneapolis police chief is indeed sitting on the hot seat.

Strange to say, a Northfield man complains that women's slacks aren't always sufficiently slack.

A half-century ago, they tell us, our grandparents built churches at the crossroads, and now we build taverns.

A Sunday paper carries this ad in typically abbreviated style: For Rent—Bdrm with two wdws. We gather that bdrm means bedroom, but there is room for speculation as whether wdws refers to widows or windows.

This is the time of year when grain farmers are holding their breath.

Howard Smith represented the Elks lodge at the national convention in Los Angeles.—Charles Conner was married July 22 to Miss Palma Holmes of St. Hilaire. —The M. A. Use of Air Express in Nation Hits New High

Gross revenue from nation-wide air express in May, 1941, was the highest in history, an increase of 46 per cent over May 1940, it was announced today by O. C. Paulson, local manager of the Railway Express Agency. The weight of shipments carried during May also reached a new mark of 891,212 lbs., a 55 per cent gain over the comparable month in 1940. The huge increase in long haul national defense traffic was largely responsible for the records.

Large Audience Hears Band Concert Friday

TAXPAYERS GROUP WARNS TOWNSHIPS ON HIGHWAY BONDS

Say Townships in Southern Minnesota Being Urged to Bond Selves

Word has been received from J. P. McDonald, president of the Minnesota Taxpayers association that he has information in his files that high pressure salesmen are at work in some of the townships located in counties in the southern part of Minnesota urging the township officials to bond their township to the extent of $35,000, stating that a complete township road system can be built for that amount of money.

There are three townships in that vicinity bonded to the extent of $90,000 and the farmers in that locality are starving themselves to pay the heavy taxes, it was reported.

A. J. Rau, the president of the Pennington County Taxpayers association, states if the township officials in this county adopted this plan, bonding the townships to the extent of $35,000 each, with the already $566,000 bonded indebtedness against the county, and in addition to the ditch bond that has accumulated we would find ourselves in the same predicament these three townships are experiencing.

A glittering parade of femininity, gayety, mirth and music is "Step Lively", a pretentious new open air musical show scheduled for nightly appearances before the Pennington county fair's grandstand, beginning Thursday evening July 31, and continuing through Saturday night, August 2.

A full length, superbly costumed show is promised at each appearance of "Step-Lively". Carrying its own band, composed of young, 'tuned-to-the-times' musicians, all specialists on their own particular instruments, the various numbers move smoothly from start to finish.

"Step Lively" cast is a select one, each and every member picked for a talent to fit the theme and production ideas of the show. Dance routines are bright and new, and there are special musical arrangements to make the performance pleasing to ear and eye alike.

The chorus is precision-trained, skilled in the intricate swing steps now popular on stage and screen. Modern, colorful scenery with ample lighting effects form an attractive background for the large cast.

Growing With Your Child

Institute of Child Welfare, University of Minnesota

One of the times in which a mother's understanding help is most needed by a daughter is during the daughter's adolescent years, for girls of this age are generally sensitive and feel the desire to confide in someone close to them. Unfortunately, however, there are some daughters who do not have confidence in their mothers—they are afraid that their mothers will not try to understand. This attitude may be due to several things.

The first of these is ridicule—the fear of being laughed at. The daughter is afraid that should she tell her mother, mother will tell the rest of the family and they, in turn will poke fun at her until she is positively wretched. When a daughter tells her mother something secretely, no matter how trivial, and discovers that mother has been a traitor, she'll naturally not tell her anything she wants kept "mum".

The second reason is that mothers are sometimes altogether too inquisitive. There is nothing quite as antagonizing as a mother who rushes into her daughter's bedroom the first thing in the morning plumps herself down on the bed, and in great eagerness asks about the "date" the previous evening. Anything daughter might say is answered by a hundred probing questions. Daughter feels that mother thinks she is holding something back, but worse than that she feels that mother is prying into her private affairs. A wise mother will avoid any reference to the past evening's events aside from a possible remark on "how nice Jack looked." Then if daughter does not say anything, she'll leave her alone. It won't be long before daughter is sharing the evening's happenings.

The last reason and possibly the most important is that mother is so shocked at some of the things daughter tells her that daughter decides not to tell her anything rather than to upset her. Possibly there are things youngsters do now days that are rather shocking to a mother, but if she will take them calmly and understandingly she will profit by it in the end. If she reasons out the episode with daughter, using her own experience or that of others, her helpful advice will be almost always willingly received. For example, one mother that I know of, upon hearing that her fifteen year old daughter was "going steady", told her that she had nearly done the same thing at daughter's age and had she done it she never would have met the man she married. Daughter reconsidered, and mother got a lot farther than had she said in a horrified tone, "You are much too young, I'll not stand for it!"

Four Marshall Co. Men to Enter Army Thursday

The Marshall county draft board at Warren announced this week that four men will leave that city next Thursday for induction into the U. S. Army at Fort Snelling. Included in the group are Elof Rand, Strandquist; Clifford Hanson, Goodridge; Walter H. Netteberg, Strathcona; and Raymond J. Kurowski, Stephen.

Seeking Enlistments in U. S. Coast Guard

Single men 18 to 31 years of age who are registered for the draft may enlist in the United States Coast Guard, the national maritime police force. Draft registration does not bar anyone from volunteering and serving in the Coast Guard for a period of three years, it was announced in St. Paul this week.

Over 100 trades and professions are taught at no cost to the student while he draws pay from $21 to over $400 per month. A $10,000 estate can be acquired through government insurance.

The Coast Guard recruiting service, having just opened an office at 101 United States Courthouse, Minneapolis, is inaugurating a recruiting campaign in Minnesota.

FISH TAKES BAIT; IT HAS NO EYES

Lindstrom—A strange fish story is told by Cyrus Sundberg; a story that is true but hard to believe. Cyrus landed a 3¼ lb. wall-eyed pike in Green Lake. The fish was not only minus its sight, but had no eyes at all. Just how it knew where the minnow was, on which it bit remains a mystery.

21 Blossoms on Stalk

In her garden, Mrs. Oscar Kummer of Beattie has lilies growing which have produced 21 blossoms all on one stalk which is four feet tall. The flowers are all clustered at the top, jostling each other gently but firmly, for a share of the sunlight. The lily has attracted considerable attention.

July 21st, Harts, 9; Kiewel's, 1.

July 22nd, Red Lake Falls, 11; Bridgemans, 10.

This week's schedule:

July 24th, Red Lake Falls vs. Kiewels.

July 25th, Bridgemans vs. Land O'Lakes.

Land O'Lakes, 11; R. L. Falls, 0

Playing their best game of the season, and with "Ham" Myhrer pitching a 4-hit shut-out, the Land O'Lakes trounced the Red Lake Falls team, 11 to 0, Friday night. A big 5-run 1st inning permitted "Ham" to coast in to his win, and the four hits he allowed were scattered, with Gregg Poullot getting two and Pat Kiefenheim and Ray Kitzro a hit each.

R. H. E.
Land O'Lakes 500 302 1 — 11 13 1
R. L. Falls 000 000 0 — 0 4 9
Batteries: Myhrer and Jacobson; Kitzro and Birds.

Harts, 9; Kiewel's, 1.

Harts were avenged for an early season defeat by Kiewel's when they handed Ole Ness' team a 9 to 1 shellacking Monday night. "Goose" Gulseth's 6th inning double was the "power" blow of the game, for it drove in 3 tallies. Wally DuChamp averted a shut-out when his fly into left-field went over Al Johnson's head and was lost in the tall grass for a "county fair" home-run. Kiewel's out-hit Harts; but Gordy Kaushagen's 7 bases on balls and a couple couple of errors, and hits in the clutch, gave Harts the game.

Kiewel ......000 001 0 — 1 9 3
Harts ......203 004 x — 9 5 1
Batteries: G. Kaushagen and Eide; Ness and Offerdahl.

Red Lake Falls, 11; Bridgeman, 10

Two errors, a wild pitch, and two hits, gave Red Lake Falls 3 runs in the last half of the 6th inning, to overcome a 10 to 8 Bridgeman lead, and gave the Wilcox Lumber team an up-hill to 10 win Tuesday night.

Bridgeman ...105 311 0 — 10 11 6
R. L. Falls ...340 103 x — 11 10 6
Batteries: Sagmoen, Hanson and Johnson, Weckwerth; Gullickson, Kitzro and Poirier.

Hartz, 4; Land O'Lakes, 1.

Playing errorless ball behind the 4-hit pitching of Al Ness, and taking advantage of 7 Land O' Lakes errors, the Harts team won the week's feature game when they defeated Walt Larson's green-shirted Lakers, 4 to 1. Doubles by "Ham" Myhrer and Woody Almquist in the 7th inning broke up Ness' bid for a shut-out. Don Lorentson, with "three for three", led the Hartz 9-hit attack on Myhrer.

Harts ...... 001 001 2 — 4 9 0
Land O'Lakes 000 000 1 — 1 4 7

LOCAL BALL CLUB WINNING STREAK ENDED BY WARREN

Marshall County Team Wins by Score of 5 to 4 in Tenth Inning

Playing under a blistering sun on the wind-swept Warren diamond Sunday afternoon the locals had their six-game winning streak broken when Warren's improving nine edged out a 5 to 4 win in a ten-inning game. Thief River Falls will meet the well-rated Alvarado team in a game on the fair grounds diamond next Sunday.

Two bases on balls, a single by Rosendahl, a wild pitch, and a stolen base, accounted for two Warren runs in the 1st inning. Thief River knotted the score in the 3rd inning, when Nornes poked a single over second; Ole Ness drew a walk; Helquist whiffed; Jesse DuChamp drove a sharp single into left-field, scoring Nornes; and when catcher Bossman's throw to Stroble bounced away from the mound, Ole Ness scampered home with the second tally.

Harry Howard's double along the right-field foul line, followed by Art Howard's single, gave Warren a marker in the 4th inning. On hits by Birdean Nornes, Lenny Helquist, and Jess DuChamp, Thief River pushed across a score in the 5th inning, to tie the game at 3-all.

The big 10th inning: Jesse DuChamp got a life at first when second-baseman Willey booted a grounder. Bromberg sacrificed Jess to second. Bill Hallamack struck out. Johnny Jaranson drove a hard bouncing ball to short, and got a hit when the ball struck the shortstop in the throat. The Warren shortstop collapsed to the ground, with the ball bounding away to the edge of the infield. Jesse DuChamp, playing heads-up ball, rounded third and came home for the tie-breaking score. With Jaranson on third base Wally DuChamp lined out to Harry Howard.

Winton Znerold opened Warren's half of the 10th with a single to right-field; Johnson drove a single past Jesse DuChamp; McGlynn looped a short single to left, filling the bases; Rosendahl's single into short left-field scored Znerold with the tying run. Harry Howard struck out; Stroble clubbed a ground ball to third and on a very close play, Johnson slid across the plate with the winning score.

Warren's veteran hurler, stocky Harold Stroble, pitched smart ball, scattering the nine Thief River hits and collecting 10 strikeouts. Bobby DuChamp, Thief River's third-baseman, shared starring honors with Warren's Stroble, for Bobby accepted seven chances at third base without a misplay.

Polar Golf League Matches

Golf links enthusiasts have some interesting golf in store on Sunday when the Polar league matches will be played over the local course. Of particular interest will be the duel between Crookston's Ernotte Hillier and Thief River's Jimmy Nordine. These two golfers, and they are two of northwestern Minnesota's ablest golfers, have divided honors in the two league matches in which they have faced each other, so Sunday's match will be somewhat of a "rubber" affair.

The local team which has a comfortable third place in the league standings, has ambitions of bouncing into second place, overtaking Bemidji. And the prospects for doing so are fair. While the local entry will be minus their No. 2 player, Hans Chommie, who will be out of the matches because of a strained or torn ligament in his right elbow, the team will have Vic Kvikstad and Cal Colvin in the lineup, and they'll have the added advantage of playing the home course.

I'll have to make it a point to be out there Sunday and include myself in the gallery following Nordine and Hillier. The matches are scheduled to begin at 10:00 a. m.

East Grand Forks Wins

The handful of fans that witnessed the American Legion sub-district junior baseball tourney played here Saturday saw some mighty fine baseball, especially during the Thief River Falls vs. East Grand Forks game Saturday morning, when Doc Elstad's team nearly kicked over the "dope" bucket and beat the East Siders. Ray Baker's East Grand Forks team, which appeared to be the most mature club in the meet, won the tourney, and they deserved their victories.

There were a number of expert players in the tournament and it's quite difficult to name the outstanding boys; but on an all-star team I'd select Pete Hunt, East Grand Forks, catcher; Vernon Peterson, East Grand Forks, pitcher; Don Berg, Thief River, or Jimmy Laurent, Crookston; first base; Don Johnson, Crookston, second base; Clyde Babcock, East Grand Forks, shortstop; Vern Tormoen, Thief River, third base; and Lorry Worden and Joe Knapper of East Grand Forks, and Merell of Crookston, in the outfield.

The district junior baseball tournament is scheduled for the Warren park on Saturday and Sunday, and it will be worth your while to drive over there.

Chinning with some of the East Grand Forks boys I learned that they expect to have a crackerjack of a basketball team this year. They will have Clyde Babcock, Pete Hunt, Ken Kennedy, Bennett Larson, and Lorry Worden returning from last season's team; and they have a transfer student, from Sacred Heart, who's a promising basketball player, a kid they call "Killer" Martin, a 15-year old youngster who's supposed to be a hot shot. It's funny, though, that the other district teams seem to have championship clubs during the summer months, and then along about tournament time it's Thief River that collects the championship silver.

Ball Game Here Sunday

The locals will attempt to start another winning streak when they meet Alvarado on the Fair Grounds diamond Sunday afternoon. This Alvarado outfit has been playing a lot of winning ball this year. Last Sunday they took Red Lake Falls over the hurdles by a 9 to 6 score, and Red Lake Falls had Woody Almquist on the mound. Earlier victims of Bill Beard's Alvarado club were Plummer and Oslo, so Thief River will have to play ball to come out the winner in Sunday's tussle.

Nicodemus the Handy Andy

Nick Bromberg, playing at first base for the locals in the Warren game, had 19 chances,—16 put-outs and 3 assists, which is pretty busy first-basing. And without an error.

Excepting the battery positions, Nick has only to play center-field and second-base and then he's made the circuit of the team, having played every other position.

He's Hitting .419

Apple-cheeked Birdean Nornes, the local young catcher, who will be designated the "rookie of the year", is clubbing the ball at a .419 clip, having collected 13 hits in 31 trips to the plate.

Honorary Mention

To Jesse DuChamp for the heads-up plan that he revealed in the Warren game, when he scored from second base on a hit to the shortstop. Very clever play.

EGF JUNIORS WIN THE SUBDISTRICT BASEBALL CROWN

Defeat Crookston 9 to 0 in Tournament Finals in City Saturday

Taking advantage of the lack of control by the two Crookston hurlers, and playing errorless ball behind the sensational 16-strikeout, 2-hit shutout pitching of their ace hurler, lanky Vernon Peterson, coach Ray Baker's East Grand Forks team won the sub-district American Legion junior baseball tournament played here Saturday by defeating the Pirates, 9 to 0, in the championship game. The victory enables East Grand Forks to participate in district tourney which will be held at Warren on Saturday and Sunday.

The tournament, which was played on the fair grounds diamond, was opened at 10:00 A. M. with a game between Thief River Falls and East Grand Forks; and after 9 innings of nip-and-tuck baseball, the Green Wave, on a high-soaring triple to deep center-field by Vern Peterson, who was playing in the East Side out-field, scored 3 tallies in the 9th inning to eke out their 6 to 3 win. The game, which was the most exciting of the entire meet, and the best-played, was a pitcher's battle between Lefty Lenny Lorentson, pitching for the locals, and Mahlon Spitzer, on the mound for East Grand Forks, with Lenny having the advantage in the statistics, for the local port-sider struck out 13 East Siders, while Spitzer collected 11 strikeouts. The hitting honors for the game, aside from Peterson's game-winning triple, went to Vernon Tormoen, the local's third-baseman, who had "three for five".

Crookston won their semi-finals game by over-whelming a short-handed Warren "nine", 14 to 2. Warren was forced to start the game with only seven players in their lineup, as Paul Erickson, pitcher, and Earl Erickson, catcher, did not arrive until the contest was in the 4th inning. Crookston, on 2 hits and four bases on balls and an error, marked up four runs in the second inning; and added five tallies in the 3rd inning on three hits, two bases on balls, and an error. Warren averted a shut-out by pushing across two scores in the 7th inning, with Johnny Znerold, Enge, and Ranstrom poling out hits.

GRAND FORKS NINE DOWNS PLUMMER SUNDAY, SCORE 6-4

Double-Header to be Feature on Plummer Diamond Next Sunday

The Plummer losing streak was extended to three games last Sunday when the Grand Forks All-Stars defeated Plummer, 6 to 4, in a ten-inning game played on the Plummer diamond. Two infield errors, a single by Schie, and a double by M. Anderson, accounted for two All-Stars tallies in the 10th inning to break the 4-all deadlock.

The Plummer management is offering the fans a double-header attraction on the Plummer diamond next Sunday July 27th when they will put on a matinee of several innings of inter-squad baseball by the Plummer Midgets preceding the contest between Plummer and the All-Stars of the Little Six league. Rural Mail Carriers To Aid in Campaign to Sell Defense Stamps

Thirty-two thousand rural mail carriers are now acting as agents in the sale of defense savings stamps, postal officials have informed the U. S. Treasury department. Demand for the stamps in sparsely settled districts caused the post office department to authorize the carriers to act as salesmen.

The stamps range in value from ten cents to five dollars. Purchasers are given albums in which they can be mounted. When filled, the albums may be exchanged for defense savings bonds.

Post office officials recalled that rural mail carriers acted in similar capacities in 1917 and 1918 selling war savings stamps.

Truck Bearing Elephant Tips over Near Baudette

The big elephant of the Lee Bros. Circus, which showed in Baudette Wednesday, knows what it feels like to be in a highway accident, says the Baudette Region. Early that morning, as the circus was being moved from International Falls to Baudette, the truck carrying the elephant left the slippery road near Loman and overturned in the ditch. The big animal was not injured in the least, and whiled the time away munching grass along the ditch while the truck was being put back on the road. The sight of the elephant grazing along the road was a strange one to those who motored by, and it might have had a bad effect on anyone who had been celebrating too much the night before.

Haying Bee

The spirit of neighborliness still lives in this community and we are proud to relate a story which took place last week on the Peter Levang farm. Berwin Jacobson, who rents the farm from his father-in-law, has for the past few weeks been seriously ill with a stubborn case of inflamatory rheumatism which keeps him confined to a Thief River Falls hospital. As can be expected, with farm laborers being scarce the hay of the farm had not yet been cut. On Friday twenty-one willing and helpful neighbors arrived with their own machinery and set to work. In the course of the day all the hay was cut, raked and stacked into eight fine stacks, keeping several mowers, sweep rakes and three stackers in operation. Mrs. Levang served coffee and lunch to all the workers.

Mrs. Berwin Jacobson is a patient at the same hospital as her husband having became the mother of a fine eight pound boy, born on Thursday, July 17.

Mrs. John Peterson Feted

The John Marratteck home was the scene of birthday party last Thursday afternoon in honor of Mrs. Morratteck's mother, Mrs. John Peterson. Visiting formed the main diversion of the afternoon after which Mrs. Morratteck served a lovely buffet lunch, the main feature of which was a three-tiered white birthday cake decorated in blue, one tier topped with eight candles and another with five, to indicate eighty-five years, Mrs. Petersons' age.

Mrs. Peterson, to whom the party came as a pleasant surprise, received several gifts from the thirty guests in commemoration of the day.

Sunday the local baseball team met defeat at the hands of the Newfolden nine in a game played on the local diamond. The score was 12 to 7 and John Gunderson pitched for the locals in place of Henry Sandland, who has left the community.

STATE MAKES BAD RECORD FOR ROAD MISHAPS IN JULY

32 Residents Lose Lives in State During First Half of Month

Death stalked the highways of Minnesota during the first two weeks of July.

Masking chiefly in the guise of inattentive driving, excessive speed, and crowding the center line, it claimed 32 lives on the state's highways and streets, chalking up during the first half of the month a grim toll of traffic fatalities which came within four of equalling the "allowable death" budget of the Minnesota Editors' Save 100 Lives campaign for the entire month.

Forty-two deaths were recorded during July a year ago, and the traffic safety drive had hoped to reduce this toll to 35 this year. With all hope of such a record shattered, newspaper editors and state and local safety leaders have been redoubling their efforts during the remaining days of the month, in the hope that public cooperation through safer driving would save at least a few lives during the last two weeks.

Records of the traffic and safety division of the state highway department disclosed that of the 32 men, women and children killed between July 1 and July 16, only about 20 per cent were victims of traffic errors outside the three principle divisions—speeding, inattention and driving on the wrong side of the road.

Center-line crowding, or what used to be known as "hogging the road", was reflected in an unusually large number of extremely severe head-on collision and sideswipe accidents, several of which resulted in multiple deaths and one of which claimed five lives. Speed too great for road and weather conditions, or to inattention to the job of driving, or a combination of both.

One-Third of Trucks on Trunk Routes in State Carry Farm Products

One third of the truck loads on Minnesota rural trunk highways are farm products, it was found by the highway planning survey, a cooperative project of the state department of highway and the federal public roads administration. By weight, agricultural products, live stock, and animal products make up 35.1 per cent of the loads carried, forest products 6.4 per cent, products of mines 6.7 per cent, manufactured products 51.4 per cent and mixed loads 0.4 per cent.

Field, orchard and garden products made up 13.2 per cent of the total weight, the larger items in this classification being, corn oats, fresh fruits, potatoes, hay and alfalfa. Cattle, hogs sheep, horses and other live stock made up 13.2 per cent of the total, Poultry, eggs butter, milk, cream, fish, hides, wool, and other animal products made up 8.7 per cent of the total.

Sand and gravel were listed among "products of mines," and made up more than half of that item carried by truck. Fuel-wood and lumber were the two largest items among the forest products.

WISHES DEER CARRIED INSURANCE POLICY

Eveleth—A deer is not something to look at, but rather something to avoid when driving an automobile. So thinks a tourist in the Kabetogama lake area after the unfortunate contact his car made with a wandering deer. The vehicle costing $4,500 suffered $1,000 damage and will have to be towed to Illinois where a private mechanic will make the necessary repairs.

NYA Is Giving Defense Training Courses Now at Shakopee, Glenwood

The two largest boys' NYA resident centers in Minnesota are devoting their full work programs to defense experiences, it was announced today by C. B. Lund, state youth administrator. Equipped with complete shop facilities, they are offering through their work and related training program, actual production experiences in certain defense fields.

The Shakopee resident center, located one mile east of Shakopee, will house 450 young men between the ages of 17 and 25. They will receive experiences in the fields of machine shop, sheet metal, welding, radio and other related fields. In addition to their regular work program they will spend a part of their time in a related training program which will be conducted by the state department of vocational education.

The Glenwood resident center for boys, located in a large, three-story resort hotel on the shores of Lake Minnewaska, is increasing its enrollment capacity to 205 youth. Youth attending this resident center will receive experience in the fields of radio, sheet metal, machine shop, welding and forge. They will be paid $30.00 per month, of which approximately $20.00 will be deducted for their subsistence and certain medical charges.

Youth who are interested in entering these resident centers are asked to write directly to the NYA office at Central School, Thief River Falls.

University Farm Man Advises Against too Early Grain Harvest

Minnesota farmers are cautioned against too early harvesting of the 1941 grain crop by W. W. Brookins, extension agronomist at University Farm, who recommends cutting at the proper stage of maturity as one of the most important steps in getting high grade grain to the bin. Better yields and quality are assured, he says, where the crop is harvested at maturity and threshed only when dry enough for safe storage.

Direct evidence of loss of quality is revealed in recent experiments made by stations in the grain producing areas. For example, wheat harvested 13 days before maturity resulted in a decrease of 15 per cent in yield, 20 per cent in weight per bushel, and 40 per cent in quality. Oats harvested in the milk stage suffered a 30 to 40 per cent loss in weight per bushel.

Brookins believes that premature cutting is sometimes justified to avoid hail and insect damage, and, with some varieties, to avoid excess shattering. But grain should be at least in the firm dough stage before cutting, and wherever possible, should be allowed to mature beyond this stage.

100 U. S. Doctors Leave to Serve Great Britain

Nearly 100 American physicians will sail during the month of July for overseas duty in Great Britain and her colonial possessions, it was announced today by the American Red Cross. Qualification of the first group of men to volunteer for service in the Royal Army Medical Corps or as civilian doctors in the Emergency Medical Service is being sped by recent eligibility modifications by the British, the Red Cross said.

KITTY'S KOMMENTS

What could be more beautiful than a field of ripening grain waving in interchanging shades of green and golden?

Everytime the farmer looks at it, he gets an indescribable urge to set the binder to it. He just can't wait until its fully ripe.

Finally it stands an evenly ripe field and the binder begins its work. Such a merry sound, the hum of the binder and the click of the bundles as they fall rapidly in the bundle carrier to be deposited in rows for the shockers.

When the field is reaped and shocked its' a sight a farmer loves to behold. There are so many things wrapped around the roots of a farmer's heart that keeps him ever bound to the farm. I always liked this poem, author unknown, that I found in a farm paper when I, as a child was collecting for a scrap book. The poem so vividly describes just how a person feels about the farm.

Homesick

I want to get out in the country again,
Where there's cornfields and fences an' trees,
And I want to go down to the medder and wade
In the clover clean up to my knees.
I've said it before, and I'll say it again,
And I'll stick to it right up and down,
There ain't any sense in yer tryin to transplant
An old hayseed like me into town.
There something keeps callin' and tuggin' my heart
And my eyes git so dim I can't see
There' a lump in my throat—I'm jest an old fool,
But by jing, it's the country for me.
I'm sartin when Emily brought me to town,
She didn't mean one bit of harm,
But I'm homesick for neighbors, an' critters an' crops,
An' I'm going straight back to the farm".

REACH FOR HANDKERCHIEF BRINGS EIGHTY DOLLARS

Graceville—Miss Frances Ryan was quite amazed when she reached into her purse to get a handkerchief and found eighty dollars instead. It seems that the purse was one she had not used for some time. About three years ago the girl's mother placed eighty dollars in the purse and when going to remove it found the money gone. However, the money had accidentally been slipped in a side compartment and there it stayed until its recent discovery.

With WLS Barn Dance

UNCLE TOM CORWINE

Sound effects, as everybody knows, are an important feature in radio. There are elaborately equipped departments with every conceivable device to give effects, and add color to programs. But with UNCLE TOM CORWINE, who is featured on the WLS National Barn Dance, he is his own sound effect department. It is he who provides the fighting dogs and cats, the cows and the cackling hens that are heard during the broadcast of this popular Saturday night program. Corwine is coming to the Pennington county fair Wednesday evening, July 30.

ROOSEVELT ASKS CONGRESS TO GIVE ADDED AUTHORITY

Seeks Power to Keep Selectees in Army for More Than One Year

A sharply divided congress Monday received from President Roosevelt an urgent appeal that it declare a national emergency so that army selectees, national guardsmen and reservists can be kept in service.

Mr. Roosevelt asserted emphatically that "the danger to American safety today is infinitely greater" than it was last year when these troops were called to the colors for service expected to last only a year, and he urged that they not be mustered out now.

He also recommended, "because of the swiftness of modern events," that congress remove the restrictions which now limits to 900,000 the number of selectees that can be enrolled in any single year.

The army as a whole could not be increased beyond the force of 2,725,000 now contemplated, however, unless congress appropriated funds for more troops. Its present strength is about 1,500,000.

Rural Roads Get 2-3 of Motor Vehicle Traffic; State Trunks 45½ Pct.

Minnesota motor vehicle owners do 62.5 per cent, or nearly two-thirds, or their traveling on roads in rural areas, and 37.5 per cent in urban areas, according to studies made by the Highway Planning Survey, a cooperative project of the State Department of Highways and the Federal Public Roads Administration.

Interviews with nearly 20,000 owners, representing all vocations, all types of vehicles and all parts of the state, revealed that 45.5 per cent of the vehicle miles traveled in 1936 were on rural trunk highways, 13.6 per cent on rural county roads, 3.4 per cent on rural local roads and streets, and 37.5 per cent on streets and extensions of trunk highways and county roads in urban areas.

Both rural and urban-owned vehicles made extensive use of trunk highways, the survey found. Travel on other rural roads was predominately that by rural-owned vehicles and travel on urban streets was largely by urban-owned vehicles.

Rural-owned vehicles did 50.9 per cent of their travel on rural trunk highways, 30.9 per cent on rural county roads, 7.8 per cent on rural local roads, and 10.4 per cent on urban streets and hoghways.

Vehicles owned in municipalities of 1,001 to 25,000 population did 61.8 per cent of their traveling on rural trunk highways, 5.9 per cent on rural county roads, 1.7 per cent on rural local roads, and 30.6 per cent on urban streets and highways.

Many People Suffer from 'Hidden Hungers', State Minnesota Physicians

National defense has put a problem in eating squarely up to the people of the United States even though they are the best fed people in the world, nutrition experts of the Minnesota State Medical Association pointed out in a bulletin issued by the association's committee on public health education today For efficiency and maximum health among workers and producers as well as among the armed forces, better education about the simple principles of adequate nutrition is needed here, the doctors say.

"It may be true that nobody actually goes hungry in the United States," the experts say. "But a great many people, even in Minnesota, the dairy state, are suffering from hidden hungers simply because they do not drink sufficien milk or eat enough eggs, meat and vegetables."

These hidden must be satisfied if we are to have the stamina, courage, energy and determination needed to bring us out of the present national emergency, the doctors declare.

Better nutrition and better health for a great many Americans does not depend upon more medical treatment or even more income than they have now, the experts point out, but simply upon a better selection of foods already available for the asking. In addition to cereals, flours and sugars they need more meat, eggs, milk cheese and vegetables to bring them up to a state of true health to be distinguished from mere absence of actual illness and a real zest for living.

RIPE TOMATOES FOR THE FOURTH OF JULY

Aitkin—Ripe tomatoes for the fourth of July is the goal this year of Mrs. William Groepel of near Aitkin. Tomatoes on the plants she set recently are fully formed and almost full sized and with the present warm, sunny weather, will undoubtedly be in the pinkish stage on or before the day of firecrackers. Since the plants have had no special care, some sort of a record for maturing tomatoes early will be established if they provide tomatoes for the Groepel salad July 4.

Job Insurance Payments in This Region are Far Below June 1940 Total

With Minnesota's employment index standing at 122.5—approximately 15 points higher than it was a year ago—another significant indication of improved conditions, particularly in the Thief River Falls area, is a sharp decline in the number of workers currently making application for job insurance payments.

The monthly report of C. J. Sjolander, local manager in charge of the Thief River Falls office of the employment security division, shows that during June only 27 initial claims for unemployment compensation were filed. This is 49 per cent fewer than the same month in 1940.

"This decline in claims for benefits," said Mr. Sjolander, "is a very reliable indication of our local upward trend of business. The fact that these two conditions have been prevailing most of the time for the last six months strongly indicate that the trend is well established."

CAR STALLED AS ANGLE IRON PIERCES TANK

Howard Lake—Little did A. E. Akins realize as he was driving east of Wayzata that soon his car could stop and help would have to be summoned. This happened however, when a 23-inch-long angle iron was hit by one of the car wheels causing the metal to pierce the gas tank and resulting in a total loss of all the fuel. Mr. Akins had to call Howard Lake to have a car come and tow his vehicle home.

PLAN ADDITIONAL 4H ACTIVITIES AT PENNINGTON FAIR

Trophies and Free Trips to be Awarded by Business Places of City

4-H Club members are taking part in three additional activities this year at the Pennington County fair being held at Thief River Falls July 30-August 2. These are livestock, dairy, and showmanship contests being sponsored by business organizations in Thief River Falls. The Union State bank, The Northern State bank, the the Thief River Falls Times are contributing trophies for the high individuals in each group.

In addition to this various concerns in the city are each sponsoring a club member in paying his expenses to the state fair and return for the state wide contest. Organizations sponsoring these trip winners are Thief River Falls Cooperative Creamery, Land O' Lakes Creameries, Consumers Cooperative association, Pennington County Farm Bureau, Farmers Union Cooperative elevator association, and the Farmers Union oil station.

Regular Monday and Tuesday evening practice sessions have been held through July in preparation for the county contests. Approximately thirty interested 4-H club members have been in attendance at these gatherings.

UNEARTHS INDIAN BURIAL GROUND

Morgan.—Roy Green, shovelman for a road crew in Morgan Township, can well be given the title of explorer. Recently he unearthed a number of skeletons in a nearby pit and discovered that this location was an unmarked Indian burial ground of 80 years ago. Of the seven skeletons found, one was in a sitting position. The skeletons were removed to the Indian Community Hall, pending arrangements for their disposal or burial.

Production Credit Units Have Loaned Two Billion

The 2-billionth dollar to be loaned by production credit associations is included in the loan of Martin Paulson, approved Thursday, July 10, by the Newton (Iowa) Production Credit Association, according to word just received by Secretary-Treasurer Robert J. Lund of the Thief River Falls Production Credit association. Secretary Lund says that while the 2-billionth dollar was not loaned by the local association, nevertheless the group here contributed $1,289,124.12 to the total volume in the past seven years, and is interested in this development because it shows what farmers have been able to do throughout the United States in supplying short-term credit for their needs through hundreds of local cooperatives.

RECREATION HIGHLIGHTS

By Ferd B. Elstad

The recreation program is sponsored by the city council in cooperation with Works Projects Administration recreation leaders.

Playground Tournaments

Tournaments will be held in all the activities available at the playgrounds. Croquet, ping pong and horseshoe contests will be held to determine city champions, as was the case last year. Croquet and ping pong are available at all play areas. Horseshoe courts will be found at East-side park and Tindolph. Everyone is encouraged to take part in these tournaments so that they might be bigger and better than last year.

Archery

Tuesday and Thursday nights from 7 to 9 o'clock have been set aside for archery at East-side park. Several groups have taken interest in this activity and others are invited to take part. Plans call for a tournament to be held later in the summer and in the fall of the year. Supervision and all equipment is furnished and instruction is given.

Over-night Hike

Members of the Triple L club, accompanied by their leader, Camille Dostal, went on an over-night camping trip last Tuesday night. This was the third and final overnight hike of the season. At least, that was the plan. However, if enough interest is shown, more hikes will be held. Participants on these hikes cook a mid-night lunch, sleep out, and then cook their breakfast, leaving the campsite early in the morning.

Craft Shop

The arena craft shop is being kept open for use by all those who are interested in making craft articles or repairing broken furniture, and the like. Several adults have taken advantage of the shop during the summer along with children. Others are invited to make use of the shop equipment. No charge is made for the use of all the equipment. Supervision is also provided.

Handicraft

Lucille Thomas, handicraft leader, is at Tindolph park during the summer months. Many different articles of handicraft are made. All those participants who came to the arena during the winter and spring months to take part in handicraft classes will find the work just as enjoyable at the park. Everyone is invited to come.

Other Activities

Roller skating in the arena is for everybody. Softball games at the Fairgrounds every night provide entertainment for all those interested. Swimming at Tindolph pool is something to look forward to, during the hot weather.

Finance Control Held Getting Out of Hands of State Legislature

The Minnesota legislature has "just about yielded its financial control of the state," James P. McDonnell, president of the Minnesota Taxpayers association, declares in an analysis of the problem of dedicated state funds, published by the association.

Referring to the last legislative session, McDonnell says: "Never has there been a session in recent years where so much financial difficulty has arisen because so high a percentage of state revenue had previously been earmarked for certain dedicated services.

"While the purpose behind dedicated funds may have its good points over a long period, it has its immediate defects which just about places our legislature in a straightjacket.

"Our state legislature is the highest legislative authority in the state; yet, it has, through tradition and custom and constitutional law, just about yielded its financial control of the state."

"The result is that there is not enough money left over after dedicated items are taken care of, to meet urgent needs of other state departments, even though the total of state taxes paid by the public might be sufficient for all departments if more equitably distributed."

This County Included in Fergus Falls NYA Area

A reorganization of the National Youth Administration area offices in accordance with a nation-wide reorganization plan was announced today by C. B. Lund, state youth administrator, St. Paul. Carl Mahnke, formerly area director in the Bemidji office, has been appointed director of the new, enlarged Fergus Falls office. Two field offices are established in the Fergus Falls Area, one in Bemidji and and the other in Thief River Falls. The works projects representative in Bemidji will be Russell Moldrem and the youth personnel representative Theodore Sjoding. Frank Govednik will be the field representative in Thief River Falls.

OPERATOR OF SPRAYER KILLED BY EXPLOSION

Sauk Centre—A peculiar accident took the life of Ervin Van Beck one morning recently. The young man prepared a pressure potato sprayer and evidently pumped too much air in the tank causing the bottom to burst out. The force of the explosion blew the tank upwards hitting him in the skull, and causing skull fractures and a brain injury. Erwin was alone at the time of the accident. When he failed to return, his father set out to find him and discovered the body in a nearby field.

Stand on your own rights and you won't be told where to get off.

GIRL ATTACKED BY SWARMING BEES

Mora—Not only was the local school band furnishing music during one of its recent practice sessions on the school grounds, but a nearby swarm of bees were giving forth with a melody of their own. So found out Wilmina Hoffman who was standing near the bees, and soon heard the buzzing of the insects coming closer to her. The attack was merciless, and an estimated hundred stings were felt by the girl. Although feeling quite uncomfortable after the unexpected encounter, Miss Hoffman is recovering satisfactorily.

Be Wise—Read The Times.

Si Sez:

Bill Dahlquist of the Times and I have had a lot of arguments about prices—world conditions—local conditions—and the national set-up. Today I told him of some of our experiences in rising prices and deliveries on the various lines of merchandise we sell.

For instance refrigerators—not only are prices going up every week it seems but deliveries are future—future—future. Ranges, radios, pianos, washers, band instruments, furniture, the story is the same all the way through. You don't wait a week but rather weeks and months for the things you want.

Last year Bill asked me who was going to buy our wheat and other products. Today—this fall—the government is loaning right here in Thief River Falls:

$1.01 per bu. on wheat on the farm.
50c per bu. on rye on the farm.
45c per bu. on barley on the farm.

Beef, lambs, hogs are bringing big returns, high cash prices, cash on the barrel head.

Never in the 36 years I have spent in the Valley have I seen a prospective crop like this one. If nothing happens to it—and I don't know what could now—the farmers are going to have more money than any year since the old world war days.

If a farmer buys $500 worth of furniture—electrical appliances—musical instruments—today instead of this Fall—he will have at least $100. In other words 500 bushels of wheat will actually be worth $600 and he can pay us after harvest and when he gets his government loan.

To the white-collared man—the city man on a salary—now—of all times, is the time to buy what you need for your home. You can save—save enough to have the same effect as a salary raise—enough to pay all finance charges over a long term contract.

All men who are thinking today admit that now is the time to buy. And Si Poppler says—here—at Poppler's —is the place to buy. Thank you.

Si Poppler.

Volume 31 — Thief River Falls, Pennington County, Minnesota, Thursday, July 31, 1941 — Number 31

CONSERVATION GROUP STAGES MEETING HERE

150 Present at Northwest Association Session Monday Night

HALLOCK MAN NAMED PRESIDENT OF GROUP

Favorable Action Is Taken on Lengthy Series of Resolutions

One hundred fifty men representing eight sportsmen's clubs Monday evening attended the annual meeting of the Northwestern Minnesota Association of Conservation Clubs in the municipal Auditorium. Officers were elected for the ensuing year, resolutions adopted, and the group witnessed the showing of motion pictures of wild life presented by Carl E. Moen of the department of conservation, assisted by Dr. Edward Bratrud.

Paul Hanson of Hallock was elected president, succeeding Harry Gregg of East Grand Forks who presided over the session. F. A. Brown of Grygla is the new vice president, and Elmer Smith of Lancaster will serve as secretary-treasurer.

County directors named include Haldor Hanson of Karlstad, Kittson county; W. F. Zauche of Baudette, Lake of the Woods; Marvin Smeby of Newfolden, Marshall; Bill LaFave, Pennington; J. J. Rinowski of Roseau county; and Jack Simms of East Grand Forks, Polk county.

Favorable action was taken on a series of resolutions presented by the resolutions committee, of which Judge Oscar R. Knutson of Warren served as chairman. One provided for the appointment of a committee to develop an enlarged membership for the association, and another changed the date of the annual meeting from the last Monday in July to the first Sunday in August.

Another resolution recommended an open season on Hungarian partridges in Northwestern Minnesota, the open territory to include all of Marshall and Pennington counties. It was also recommended that the commissioner of conservation be given the power to declare a five-day deer season after making a survey to learn the number of deer in the territory, and it was further asked that the season be opened either on a Saturday or Sunday.

A closing resolution thanked the officers for their effective work during the past year, and complimenting W. F. Zauche of Baudette on his work as chairman of the legislative committee. Mr. Zauche submitted an exhaustive report covering the activities of his committee while the legislature was in session early this year.

An excellent demonstration of tap dancing was given by Jackie Ruddy, ten-year-old East Grand Forks boy.

Mr. Moen showed colored motion pictures prepared by the conservation department, dealing with the flight of the blue geese, Carlos Avery game farm, fish propagation in Minnesota lakes and streams and upland game birds.

At the close of the evening lunch was served in the Civic and Commerce rooms by members of the Pennington County Sportsmen's club.

Members of Fair Revue Cast Entertain Lions

At the Lions club luncheon Wednesday noon in the Palm Garden cafe, W. E. Dahlquist, in behalf of the fair board, presented Randolph Avery, co-producer and master of ceremonies of the "Step-Lively" revue, appearing at the county fair this evening in the first of three performances. Mr. Avery introduced the Perry Twins, members of the cast, who supplied a clever clog dance, and Bob White in a series of impersonations.

Rev. Lie of Fisher New Pennington Co. Pastor

Rev. Halvard Lie of Fisher will be installed Sunday, August 10, as pastor of the Nazareth, Clearwater, Little Oak and Oak Park Lutheran congregations. Dr. I. T. Aastad of Detroit Lakes will officiate at installation rites at the Clearwater church at 11 o'clock in the morning, and at Oak Park church at 2 o'clock in the afternoon.

Thronson Reports on 1941 Assessment Roll

New Mus[illegible]pervisor

MISS GRACE OMUNDSON
Of Detroit Lakes, who was elected Saturday by the board of education to serve as public school music supervisor in the local schools, succeeding Miss Ruth E. Nelson. Miss Omundson has accepted the appointment.

City Assessor T. M. Thronson submitted figures to the local board of review, which was in session in the assessor's office from Monday thru Wednesday, showing that personal property in Thief River Falls as of May 1 this year had a full and true value of $1,669,429 and an assessed valuation of $515,866.

These figures represent a slight decline as compared to last year, Mr. Thronson explained, owing to the fact that the classification of bank assets as personal property ceased following the enactment of new regulations in the 1941 legislature. The 1940 personal property assessment showed a full and true value of $1,676,894 and an assessed valuation of $517,462, of which latter figure the local banks supplied $49,568.

Allowing for the elimination of the banks, the 1941 figures reflect an actual gain of almost $48,000, most of which is represented by new buildings on railroad right-of-way, these being classified as personal property.

Real estate improved since May 1, 1940, showed a full and true value of $142,020, and an assessed valuation of $39,684. Assessments of moneys and credits also increased from $797,480 in 1940 to $830,095 this year.

Mr. Thronson reported that his office this year handled 1,560 household returns and 283 returns from business places, an aggregate of 1843 compared to 1,799 in 1940. The figures, he stated, indicate an increase of approximately thirty new families in the population of the city during the past year.

CITY COUNCIL BUYS 2D FIRE FIGHTING UNIT LAST FRIDAY

Buys American-LaFrance Unit on Ford Chassis at Cost of $3,430

Fire fighting equipment of the Thief River Falls fire department will be augmented shortly as the result of the purchase of a second smaller unit by the city council Friday evening at an adjourned meeting.

The unit selected following the consideration of numerous bids was an American-LaFrance pumper of 500-gallon capacity, mounted on a 95-horse-power Ford chassis. The bid was in the amount of $3,430 delivered, with delivery promised in approximately 90 days.

The council also approved a large number of on and off-sale beer licenses at its session. A group of property owners affected by the storm sewer assessment on Riverside av. S. were present to reiterate their objections to the assessment that had been levied against them, but no action was taken at the meeting.

City Filtration Plant Sets Record by Pumping 806,400 Gallons in Day

The city filtration plant set an all-time record for its twenty-year history when, during the 24 hours ending at 6 o'clock Tuesday morning it pumped a total of 806,400 gallons of water, with the pumps operating continuously for 23 hours. The huge volume, due largely to the demand created by the extremely hot weather accompanied by lawn sprinkling thruout the city, compares with an average consumption of under 600,000 gallons a day and with the former record mark of 720,000 gallons established in the summer of 1936.

Also elected was an executive board consisting of W. E. Dahlquist, Ben Frolland, E. O. Peterson, Alex Cloutier, Elmer Larson, Harry Lund and A. M. Campbell. The board, which formerly consisted of five members, was enlarged owing to the fact that the local post will be host next year to the Ninth district Legion convention.

The commander and adjutant will represent the post at the state Legion convention in St. Paul in August. Newly elected officers will be installed at a meeting to be held during the coming month.

Serving on the nominating committee were Tom Rowan, chairman; Haakon M. Olson, H. O. Chommie, Joe Maruska and H. R. Lund.

SCHOOL BOARD GETS 2 FACULTY RESIGNATIONS

JAMES NORDINE WILL BE HIS SUCCESSOR

James R. Carlson, English Teacher, Also Resigns His Position

At a special meeting of the local board of education Wednesday morning, resignations of two public school faculty members was accepted, a third was granted a year's leave of absence, and two new teachers were elected.

The leave of absence was granted to Harold Holmquist, world history teacher and debate coach, who plans to do graduate work toward his master of arts degree. Named to succeed him for the coming year was James A. Nordine, who was graduated cum laude this spring from Gustavus Adolphus college at St. Peter, and who won special honors there in debate. Mr. Nordine, who also is an outstanding golfer, is well known locally thru his affiliation with the Thief River Falls golf cub.

Miss Anna Marian Thompson, who taught kindergarten last year in the Knox school, resigned her position, announcing that she plans to be married this fall. Supt. Morris Bye announced that she will be succeeded as kindergarten teacher by Miss Lois Morell, who had been elected earlier this summer as a primary teacher.

Elected primary teacher was Miss Jeanne L. Hewitt of Minto, N. D., who is a graduate of the state teachers college at Valley City, and who has had seven years of teaching experience, including service at Sheldon and Grafton, N. D., and at Hallock.

The second resignation received was that of James R. Carlson, English teacher in Lincoln high school the past year. He has accepted a position as assistant in the speech department in the general college of the University of Minnesota, where he also will study for a master's degree. His successor here remains to be appointed.

The fortieth annual Pennington county fair swings into full action today with all available exhibit space well filled, and with topnotch entertainment features scheduled for both afternoons and evenings to-day, Friday and Saturday.

The livestock barns were filling up Wednesday afternoon, and the poultry building was well filled. The woman's building was packed to capacity with displays of flowers, preserves, fancy needlework, school exhibits and commercial displays.

Particularly outstanding is the exhibit of tractors and other types of farm machinery, occupying a large area in the rear of the grandstand and bleachers, and with a half-dozen local dealers cooperating to make the largest showing in the history of the fair.

Today has been designated as Thief River Falls Day at the fair, and local stores will cooperate by remaining closed this afternoon. Friday is 4-H Club and Farmers Day, with the award of a free tractor as a feature, while an event of Saturday will be the presentation of a new automobile to some person attending the fair that day.

Light rains fell Wednesday afternoon, but halted in time not to interfere with the WLS Barn Dance show, which was presented in the evening before a well-filled grandstand. The crowd enjoyed the performance, of which a feature was a quiz program ably presented under the direction of Chuck Acree, with members of the audience competing for prize awards. Preceding the program the Lincoln high school band appeared in a short concert.

The entertainment before the grandstand each afternoon of the fair is being furnished by Barker Brothers combined rodeo and circus, which fair officials state is the most colorful and complete of any program ever presented on the local grounds.

Barker Brothers will present, at each performance, a complete circus, wild west and rodeo. Bill Blomberg, well known in both the rodeo and circus business, is the general manager and arena director. Bill's circus experience covers the field all the way from water boy to chief trainer and manager. Some of the animals to be seen in his present show were trained by him.

Some of the show's highlights are a group of genuine Alaskan Husky dogs, said to be the only troupe of the kind before the public; the Seline Cossacks, a team of wild-riding horsemen from the snow steppes of Russia; Prof. Manley's trained thoroughbred Shetland ponies; Blomoberg's high-school and jumping horses; a troupe of colorfully garbed Indians in pastimes of the reservation, and a full quota of hard-riding cowboys and cowgirls. In the latter's offerings are included bronco riding, steer wrestling, trick ridinig and trick roping.

Before a dazzling scenic setting which carries out the colors of the American flag, "Step Lively", a new musical with a youthful swing and plenty of comedy, will open a three-day engagement before the grandstand at the fair starting this evening.

"Step Lively", is played in five parts, or numbers, with smartly designed costumes, specially arranged music and novelty acts continually changing to please the eye and ear alike.

Weather Man Relents After 10 Days of Heat

A ten-day heat wave, the longest of the summer, in which the mercury mounted Saturday, Sunday and Monday to the 100-degree mark, was broken Tuesday by a cool north wind, while Wednesday the mercury ranged in the 70s. The government weather recording station at Grand Forks reported a high mark of 103 Saturday afternoon, the highest mark since the record heat wave of 1936.

With harvesting operations now in full swing, grain crops which had given promise of bumper yields are reported to have suffered material deterioration as a result of the extremely hot weather. County Agent Ernest Palmer reported that barley fields in some localities would not be threshed because the heads had failed to fill properly.

While heavy rains fell in some sections of Northwestern Minnesota during the past week, together with a severe hail storm east of Ada in Norman county, the only precipitation here was a light shower Wednesday afternoon.

Betty Crocker KITCHEN CLINIC

Reg. U. S. Pat. Off.

prepared for Your Newspaper by Betty Crocker Home Service Department

WHAT'S A PICNIC WITHOUT POTATO SALAD!

"If you'll just wait a minute", my friend, Mrs. Hart, whispered, "I see Mrs. Cook coming with her potato salad. She makes the best potato salad!"

We were at the annual community picnic where Mrs. Hart was chairman of "the committee". Gladly I let the dish of ordinary-looking potato salad go past me. I was interested in seeing what this extra special salad of Mrs. Cook's would be like. Evidently "the committee" believed that potato salad was as essential a part of any picnic as the fried chicken and lemonade. I counted seven different bowls of potato salad . . . some of them looking uncommonly tempting.

Worth Waiting For

Finally Mrs. Hart came to offer me the first helping from Mrs. Cook's salad. One taste convinced me that it had been well worth waiting for. It had pep and character. It was seasoned to perfection. It was crunchy and soft, gold and red and green and creamy-looking. Really a sort of super-potato salad. Here is the recipe:

MRS. COOK'S SPECIAL POTATO SALAD

- 3 cups potato cubes (from cold cooked potatoes)
- 2 tbsp. finely chopped onion
- 6 radishes, sliced
- ½ cup chopped celery
- 3 hard-cooked eggs, sliced
- ½ large cucumber, cubed
- ¼ cup French dressing
- ½ cup boiled salad dressing
- Pimiento or parsley

Before I tell you about putting this salad together, I'd better explain that this amount will make six servings. Mrs. Cook had doubled the recipe when she took potato salad to the community picnic.

Putting The Salad Together

Place the potato cubes, onion, radishes, celery, cucumber and two of the eggs in a bowl. Mix lightly with the French Dressing. Let stand in a cold place for an hour or more. Toss together with boiled salad dressing. Serve in a large bowl or on a platter garnished with lettuce leaves or other salad greens, slices of hard-cooked egg and chopped parsley or pimiento. A sprinkling of paprika over the top adds to the color.

You Won't Need Fried Chicken With This Meat and Potato Salad

Wouldn't it be fun to just take potato salad to a family picnic . . . and not bother with the fried chicken! Here's a meat and potato salad that makes a grand one-dish-meal for any summer-time occasion.

MEAT AND POTATO SALAD

- 2 lb. lean beef (cooked until tender) (about 4 cups)
- 2 cooked potatoes (2 cups)
- 2 hard cooked eggs
- 2 tomatoes
- 2 onions
- 2 green peppers
- 4 sweet pickles
- 2 large stalks celery
- ½ cup mayonnaise
- Seasonings: 1 tbsp. salt, ½ tbsp. catsup, ½ tsp. pepper and 2 tsp. prepared mustard

This also makes 6 servings. Cut beef and potatoes rather coarsely. Cut eggs and tomatoes in sections. Chop fine the onion and green pepper. Slice pickles and chop celery. Put in bowl, blend with mayonnaise and seasonings, tossing together with two forks. Chill. Serve in bowl lined with crisp lettuce. Garnish with additional sections of tomato and eggs.

Three Ways To Make Fried Chicken

By Katharine Fisher

Director, Good Housekeeping Institute

The fried-chicken season is here! The supply of fryers—fresh and quick-frozen—is usually at its best at this time of the year. So get out your skillet, and treat your family to some good fried chicken. Follow any of these recipes, and you'll have the family loudly clamoring for more.

All recipes tested by Good Housekeeping Institute. Use Institute-approved measuring cups and spoons. Measure level.

KATHARINE FISHER Director of Good Housekeeping Institute

Pan-Fried Chicken

With Flour or Corn-Meal Coating:

1. Buy fryers (1½ to 2½ lbs. each) split lengthwise, quartered, or cut up as for fricassee. Roasting chickens may be pan-fried if first simmered tender after cutting up.
2. Heat enough fat or oil in skillet or chicken fryer to make a ½" to ¾" layer. Use 2 skillets to save time.
3. Clean but do not dry the chicken. Coat by shaking in a paper bag with 1 c. flour (or ½ c. flour and ½ c. corn meal) mixed with 3 tsp. salt.
4. Place a few pieces at a time in hot fat, and brown on all sides. Reduce heat; cover or not as preferred, and fry 35 to 40 min. longer, or until tender. (2 to 4 tbsp. water or cream may be added to chicken after browning if desired.)
5. As the pieces are fried, keep hot in a covered double boiler, in a bowl set over hot water, or in a covered casserole or roasting pan in a warm oven.

WITH EGG AND CRUMB COATING:

1. To 2 c. sifted, dried bread crumbs or cracker crumbs, add 1 tbsp. salt. Beat 1 egg with 2 tbsp. cold water.
2. Dip chicken in crumbs, then in egg, then in crumbs, and fry as above. Flour may be substituted for bread or cracker crumbs.

Oven-Fried Chicken

Here's a method that is especially convenient when several chickens are to be fried, since it cuts down on the turning and watching necessary when chicken is fried in a skillet.

1. Coat, and fry cut-up chicken in a skillet to a golden brown on all sides, as we do in Pan Fried Chicken.
2. Then transfer the chicken to a covered casserole or roaster; cover, and complete the cooking in moderate oven of 350° F. for 1 hr., or until the chicken is deliciously tender.
3. Serve with or without Cream Gravy, as desired.

Deep-Fried Chicken

1. Dip cut-up fryers in egg and crumbs (see Pan-Fried Chicken) or in following batter. Stir 1 beaten egg and ¾ c. milk into 1 c. sifted all-purpose flour with 1½ tsp. salt and ¼ tsp. pepper.
2. Fry a few pieces at a time in deep fat or oil heated to 375° F. or hot enough to brown a cube of day-old bread in 1 min. Keep the fat at 350° F. and fry until tender—about 20 to 25 min.
3. Or simmer cut-up chicken until just tender. Then skin; coat with eggs and crumbs (see Pan Fried Chicken) and deep fry at 375° F. until golden brown—about 5 min.

Kitty's Komments

The moon rode high on a pinnacle of dark and ominous clouds as the mutterings of thunder grew more and more distant every minute.

The silvery rays of moonlight blessed a rainswept garden. The storm was over. I could again go back to sleep.

Lucky people who sleep soundly through any storm no matter how furious, but there are others like me, who, at the first faint flicker of lightning in the west announcing an approaching storm are wide awake!

As the black masses of clouds rush onward and upward and thunder gets louder and more angry every minute, every nerve is tense waiting for the storm to break.

You watch the light mass of rolling wind clouds with fear in your heart and think of the place where that spearhead or snow plow shaped cloud is speeding disaster across the country side. Always where that cloud passes, they have terrific wind. We have been fortunate so far not to have been in its pathway.

The sudden rush of wind proclaims to all, here's the storm! Then a few drops fall—big ones. There's hail in the air.

It then pours—rain coming down in buckets—letting up as suddenly as it came. The clouds are whirling furiously in the heavens. An unmistaking crack of falling hail on the roof and another! The rain again mixed with hail. Finally it's [illegible] in a steady down pour.

Then a sizzling flash of lightning followed instantaneously by a clap of thunder. The barn! You run to the window. Its safe!

It's raining now, quietly and the thunder rumbles to the eastward.

I put on my slicker to go to the turkey roosts to pick up the small fellows who have fallen off in the storm, putting them in the brooder house. None dead, but such a soaked looking bunch!

As I walk back to the house the moon breaks through the clouds, flooding the dripping landscape with light.

The rumbling thunder moves with the storm eastward where others like me are watching its approach.

With a little prayer of thanks that everything is safe, I return to bed and sleep.

Painting the bottom step white is a safety measure suggested for poorly lighted stairways.

Rural Credit farms are selling briskly and liquidation of the state's holdings in farm lands is getting along to the point where the end is in sight. More than three hundred farms in Marshall, Pennington and Red Lake counties have been put back into the hands of owners and taxpayers. Of the ninety-five Pennington County farms sold, all but six have been sold to Pennington County people. Encouraging thing about the liquidation is the collection record. Of 7,069 mortgages and contracts held by the Department only 81 are delinquent more than one year. That means that with few exceptions the farms that have been sold will remain sold, and that, after all, is the important thing. That they are being sold at a big loss to the state is unfortunately true but that was to be expected. Township and county officials have been consulted in determining values and the state is getting a fair price for the land under present market conditions. Farm lands may some day increase in value again, and probably will, but values will never increase as long as the state's holdings hang over the market. Once the thousands of farms held by the state have been put back on the tax rolls, in the hands of owners, we will have a normal condition of supply and demand again and the market value of land will seek a natural level. It is encouraging to know that we now are approaching the end of a depressing influence.

We are beginning to like this man Senator Joe Ball. Frankly, his appointment didn't appeal to us at the time it was made. At that time, it seemed to us, the Governor could have done better by selecting some older and more experienced man to represent the state in the nation's capitol. Perhaps we were thinking a little in terms of party politics. It soon became apparent, however, that the new Senator was not thinking in terms of party politics. At any rate he didn't talk like a politician—not like the politicians we generally send to Washington. By the manner in which he has conducted himself he has given us the impression that as far as he is concerned he would rather be right than senator. The thing that convinced us he is too honest to go far in politics was his speech delivered at a Townsend picnic at Redwood Falls Sunday. The ordinary run-of-the-mill politician would either have declined to address such a gathering or would have given the audience an evasive endorsement of their plan. Not so Senator Ball. He told them that while he favored adequate old age assistance, he could see no merit in their program as an economic recovery plan. He told them that what was paid to them would be taken from someone else, would, therefore, not be new purchasing power but merely a redistribution of present purchasing power and that, "consequently there would be no real increased demand for products and no stimulus to our economic system." Yes, we are beginning to like this man Senator Joe Ball.

We are not going to take sides in the argument about keeping the boys in camp more than a year. There is justification for the complaint of those who argue that a year was the promised limit of service. There also is justification for the appeal of those who are trying to build an army that much of our past effort will have been wasted if the period of service is terminated at the close of the year. In behalf of those who have ideas about building an army it might be said that the promises of politicians never were meant to be taken seriously. In behalf of the politicians it might be argued that, there being no immediate need for a large army, and not enough equipment to properly arm one if we did need it, the army builders might concentrate temporarily on the more efficient training of smaller units with the idea of adding men as they become equipped to handle them.

As we approach the end of the sixth week of Hitler's conquest of Russia we mustn't pass up the opportunity to gloat once again over the fact that the Axis powers are having considerable difficulty. Mussolini may have to throw another division of his crack troops into the fight if his friend Adolph is going to get to Moscow before the snow flies.

LABELED GOODS
St. Paul Dispatch

The Wool Products Labeling act which went into effect Tuesday gives the consuming public the same kind of information on the content of woolen textiles it buys that has long been a normal trade requirement in the buying and selling of raw materials. It is the culmination of a 30-year struggle to provide the consumer with a factual basis of judging the quality of his textile purchases.

The act requires that all goods sold in interstate trade containing 5 per cent or more of wool shall bear labels disclosing by percentage the various fibers present in the article and the type of wool used in that component. For this purpose wool is designated as of three kinds: "wool", which means fiber that has never before been used in a finished product; "reprocessed wool," which means fiber reclaimed from tailors' scraps, remnants and the like never used or worn; and "reused wool," which means fiber salvaged from woolen rags, worn garments and the like.

Only a comparatively small proportion of the textile industry's normal annual consumption of wool fiber comes from the reprocessed category. The major part is divided between new and reused wool on an approximate 70-30 basis. The quality of reclaimed wool goods varies in the same way as new wool goods, according to the quality of the fiber used or reused, and the skill and care of manufacture. Articles made of high grade reused wool can be superior to articles of low grade virgin wool, though in all cases reused wool is employed in manufacture as a lower-cost substitute for new wool.

A big industrialist, trying to speak temperately, puts in the form of a question a proposition that has long troubled the minds of many. "Would the present grave situation exist had officialdom, in recent years, given as much sympathetic consideration to the right to work as it has to the right to strike?" "The right to work"—there's something we must write into the bill of rights when we fix the Constitution over to bring it up to date.—Fairmont, Minn., Sentinel.

SHYSTER TRADE SCHOOLS MULCTING YOUTHS
(Canby News)

"If I were 21 again, I'd get myself a job as a mechanic," recently remarked William Knudsen, the immigrant boy who grew up to become head of General Motors and defense advisor to the President. That's sound advice for the 1941 graduates, advice which many youths with mechanical bents will heed.

There is great opportunity ahead in the skilled trades and as a result there have grown up various shyster trade school and training courses which have as their object not the equipping of young men for a position, but the mulcting of whatever cash they have.

Here are some tips by the Better Business Bureau of Minneapolis on selecting a trade school: interview graduates which any reputable school will furnish, learn about the school from them: interview employers about employment requirements and the value of school training; visit the school if possible; investigate before you invest, most "registration" forms are legal contracts; no reputable school will guarantee positions; check "scholarship" offers carefully; beware of "your last opportunity to sign up"; make sure the salesman's promises are in the contract; don't hurry, most offers will be just as good next week.

A local man who doesn't use tobacco in any form figures that in the 40 years abstinence he has saved around $2,000. He doesn't have the $2,000 and can't explain what he has done with it. The same thing is true of many small expenses and could just as well be applied to the matter of payments on a home. Small weekly or monthly payments would make a home of their own possible, but unless some regular form of payments is once established they will never, perhaps, own a home.—Winnebago Times.

Looking Backward

1931—TEN YEARS AGO

The Peterson-Biddick company started construction of a large new addition to its poultry plant.—Dr. T. F. Kane, president of the University of North Dakota, addressed the local Rotary club. —The mercury mounted to the 101-degree mark July 25. —Mr. and Mrs. N. O. Lawson observed their 63d wedding anniversary. —A. H. Kriel of Red Lake Falls and H. O. Ness of Fosston joined the staff of the Great Northern depot here.—The O. F. Halldin family returned from an extended trip thru the eastern part of the country.

1921—TWENTY YEARS AGO

The twentieth annual Pennington county fair opened with large crowds in attendance.—When the awning on the west side of the Oen Mercantile company broke loose in a windstrom, five large plate glass windows were shattered.—Miss Doris Halvorson, who recently completed a course of study at Oberlin Conservatory, appeared in a piano recital at the Lyceum theatre. —Dr. F. H. Gambell of Willows, California, former local physician, gave a lecture at the Presbyterian church. — Lars H. Larson purchased the Thief River Music company from F. S. Ebert, Theodore Hagen and Roy Halseth.

One of Its Kind

Los Angeles, Calif., lays claim to what is probably the only marriage clinic in this country, probably in the world. It is the Institute of Family Relations with Dr. Paul Popenoe, one of the first ranking social eugenists in the nation, as general director. The institution is supported in part by generous donors who are interested in the promotion of social service. The institute is particularly proud of its premarital service, which is offered to those about to wed who want help in making their marriage a success. Every couple who have taken this service before marriage are still married, so far as is known.

Dog's Eyes Valuable

If you own a dog whose eyes show a lot of white around the pupils, he may be worth his weight in gold, according to Henry East, owner and trainer of Asta, most famous dog in the movies today. This is the rare feature that distinguished canine film stars from normal dogs whose eyes are dark and beady from lid to lid. Because those eyes are a monotone of color, their movements cannot be photographed effectively.

Santa Didn't Get It

Less than one-third of the money saved by individuals during 1940 under Christmas club plans operated by banks was actually used for Christmas purchases, a report by Christmas Club, Inc., shows. Most of the $365,000,000 saved by 7,500,000 club members went into permanent savings, payment of bills, taxes, insurance premiums, educational, travel and charity contributions.

Big Three

Kentucky, Illinois and Indiana are the "big three" of the liquor industry, producing three-fourths of all the whisky made in the United States. Of the total national output of 10,303,914 gallons in March, for example, Kentucky produced 4,677,187 gallons, Illinois 1,442,125 and Indiana 1,334,935.

All new members are put on a probationary period during which they have to prepare a daily list of things to do, and then not do them. First Mace

The mace was provided for by a resolution adopted by the house during the first congress on April 14, 1789. The first mace used by the house was destroyed by fire when the British burned the Capitol in 1814. From that time until 1842 a mace of painted wood served. In that year the present mace was made in reproduction of the original. It is over three feet in height and consists of a bundle of ebony rods, representing the states, bound with a band of silver in imitation of the fasces. From the center protrudes the stem of a silver globe surmounted by a silver eagle with outspread wings.

Statue on Capitol

Not so well known, perhaps, as the Statue of Liberty, the statue which crowns the dome of the nation's Capitol at Washington takes on great significance at this time. The statue is that of Freedom, armed with helmet, shield and sheathed sword. The bronze statue is 19½ feet high, weighs 15,000 pounds. It was set in place, 307½ feet above the esplanade, December 2, 1863. "Freedom" is the work of Thomas Crawford, an American artist. The original model is in the Smithsonian Institution.

Admitting a State

No steps for admitting a state into the Union have been fixed, but a substantially uniform procedure has grown up. Ordinarily the process is set in motion by the people of the territory sending a petition to congress for admission as a state. If this is regarded with favor, congress passes an enabling act, authorizing the territorial officials to arrange for a popularly elected convention to frame a state constitution. After the constitution is prepared it is submitted to the people and, if adopted, is sent to congress for approval. If it is accepted, a resolution is passed declaring the territory a state.

Questionnaires

The federal government received about 123,700,000 reports and returns to questionnaires from individuals and business concerns last year. Industrial, commercial and financial enterprises filed a total of 60,000,000 returns—an average of about 20 for each enterprise—while about 21,000,000 returns of all kinds were filed for farms—an average of about three for each farm. The average industrial questionnaire contains about 65 questions.

SO. ST. PAUL LIVESTOCK
(By U. S. Department of Agricultural Economics and Minnesota Department of Agriculture)

South St. Paul, Minn., July 29, 1941. Pressure became quite pronounced in the slaughter cattle trade this week, fleshed and choice yearlings and lightweight slaughter steers being about the only kinds to escape. Losses of 25c appeared on Common and Medium grades of both steers and heifers, while cows lost 25c or more. Bulls ranged steady to 25c lower, the Federal State Market News Service today says, while vealers sold steady to 50c off. Stock cattle held about steady. Choice mixed yearlings topped the slaughter division at $12.25, but quality was considerably below last week, bulk Medium to Good going at $9.00 to $11.00. A few choice heifers brought $11.50. Good and choice vealers bulked at $11.00 to $12.50, with strictly choice $13.00. Good yearling stock steers brought $10.50.

In the hog division, barrows and gilts scaling from 180 to 240 lbs. gained 25c to 35c, while heavier weights were steady to weak. Sows, meanwhile, after selling 10 to 25c higher on the week's opening session, were back to about steady terms Tuesday. A late extreme top was $11.15 sparingly, with the bulk good and choice 180 to 240 lb. offerings moving at $11.00 to $11.10. [illegible]

Sharply lower live costs have been enforced for fat lambs and yearlings. Liberal receipts of western spring lambs with a meager outlet, coupled with the slow demand that prevailed at eastern dressed centers, were factors that contributed to the faltering price structure. Fat lambs were largely $1.00 off, instances more, while yearlings were 50c to 75c lower. Sheep prices weakened. [illegible]

War on Rabbits

Churches, volunteer firemen, American Legion posts and other organizations report they have waged successful war on jackrabbits which had been destroying young trees in the vast shelter belt plantings of South Dakota. Two hundred and fifty community rabbit hunts were staged. The total bag was 59,893 jackrabbits, 87 foxes and 21 coyotes. The forest service reported 1,818,000 acres were systematically combed by 18,000 hunters, who cut the rabbit population to less than 23 per square mile. It was 36 per square mile in 1935. The forest service furnished the shotgun ammunition. The $9,000 in proceeds from the sale of the rabbits went to charity. The rabbits brought as high as 11 cents each.

Perfect 'Divining Rod' For Discovering Oil

Herbert Hoover Jr., following in his father's professional footsteps, appeared in New York recently to describe an important development of his own in prospecting for oil.

The 37-year-old Hoover said that he and his associates had perfected a modern "divining rod" to discover pools of oil as deep as 10,000 feet below the earth's surface. By adapting the mass spectrograph, a scientific instrument heretofore used only in research laboratories, Hoover said he had made it commercially practicable to analyze gases in sub-surface soils. Such gases as butane and octane reveal hidden oil deposits.

So sensitive is the Hoover device that gases seeping up from buried oil can be detected in quantities as tiny as one-tenth of one cubic millimeter, smaller in volume than the head of a pin. A single pint of earth from the ground above an oil pool will yield that much gas. Furthermore, one part of oil-produced gases can be identified in 20,000 parts of methane, ordinary marsh gas given off by rotting vegetation.

When all the gases have been removed from the sample of earth to be tested, Hoover explained, they are shot through a U-shaped tube by electric and magnetic impulses. Gases of heavier atomic weights become automatically separated from lighter gases by centrifugal force. Those indicating the presence of oil can thus be identified.

One drawback to the Hoover process is the bulkiness of the equipment. The device with which he has worked weighs several tons and fills most of a 600-foot-square room. However, he has hopes of reducing it eventually to portable size.

Helpful Suggestions For Preventing Termites

Prevention is the surest control for termites. Builders recognize that there are many ways to prevent termites from gaining a foothold in the foundations of a house. Since dampness is a favorable condition for termite breeding, the ground around the house should slope away from the foundation walls to assure good draining. Rainspouts should not empty close to the foundations.

If a storm sewer is not available spouts should be emptied onto splash blocks located to carry rain water at least three feet from the building. If a dry well is used, it should be located at least eight feet from the building.

Making the home safe requires a constant check for possible danger points. Since stair rails are in constant use and continual pressure is exerted on them, a check may prove worthwhile. A loose baluster might well be a source of injury, in addition to detracting from appearance.

Manufacturers and local supply dealers furnish wood and iron balusters to fit all sizes and types of stairs and balconies.

Concrete floors on porches, stoops, garages, and basement recreation rooms may easily be freshened with colorful paints. A reliable formula is a primer coat of floor enamel in the color selected, thinned with linseed oil or turpentine in accordance with directions. Allow to dry and then apply a second and third coat of the same enamel full body.

Skillful Hands Needed, Too

A change in our system of education that runs sharply counter to the thinking of the majority of our parents and their children in the past two decades was recently advocated by the American Youth commission, a group of distinguished citizens appointed by the American Council on Education.

In its report, the council suggests that "we abandon the mistaken notion held by many parents who assume that the only road to a higher social and economic status for their children leads through the traditional academic, college preparatory curriculum."

The commission urges the elimination of subjects of less importance in order that occupational adjustment services may be added. It lays greater importance upon the practical at the expense of what has been called the cultural.

The job of our schools is to best fit our children for a job in life; we need men who can work skillfully with their hands just as we need men who can work skillfully with their brains.

Let a want ad be your salesman. Inexpensive, yet a go-getter.

Current Wit and Humor

LOGIC

A man was charged with shooting a number of pigeons, the property of a farmer. Counsel for the defense tried to frighten the farmer.

"Now," he remarked, "are you prepared to swear that this man shot your pigeons?"

"I didn't say he did shoot 'em," was the reply. "I said I suspected him of doing it."

"Ah! Now we're coming to it. What made you suspect this man?"

"Well, firstly, I caught him on my land wi' a gun. Secondly, I heard a gun go off and saw some pigeons fall. Thirdly, I found four o' my pigeons in his pocket—and I don't think them birds flew there and committed suicide."

Easy Winner

The sergeant had 20 recruits lined up for fatigue duty. They were not as energetic as the sergeant thought they should be; so he tried to cure them.

"Men," he said, "I have a nice easy job for the laziest man present. Will the laziest man raise his right hand?"

Nineteen men raised their right hands.

"Why don't you raise your hand with the rest?" inquired the sergeant of the remaining one.

"Too much trouble," was the reply.

Ladies 'Naughtier'

Women are getting "naughtier" all the time, Federal Bureau of Investigation records indicate. A study of 578,320 arrest records for 1939 disclosed that 7.6 per cent represented women. Only 6.8 per cent of cases examined in 1938 were those of women. FBI Director J. Edgar Hoover pointed out that, although fewer women than men commit crimes, those who do break laws commit serious violations.

RECREATION HIGHLIGHTS

By Ferd B. Elstad

The recreation program is sponsored by the city council in cooperation with Works *Projects Administration* recreation leaders.

Playground Tournaments

Tournaments will be held in all the activities available at the playgrounds. Croquet, ping pong and horseshoe contests will be held to determine city champions, as was the case last year. Croquet and ping pong are available at all play areas. Horseshoe courts will be found at East-side park and Tindolph. Everyone is encouraged to take part in these tournaments so that they might be bigger and better than last year.

Archery

Tuesday and Thursday nights from 7 to 9 o'clock have been set aside for archery at East-side park. Several groups have taken interest in this activity and others are invited to take part. Plans call for a tournament to be held later in the summer and in the fall of the year. Supervision and all equipment is furnished and instruction is given.

Over-night Hike

Members of the Triple L club, accompanied by their leader, Camille Dostal, went on an over-night camping trip last Tuesday night. This was the third and final overnight hike of the season. At least, that was the plan. However, if enough interest is shown, more hikes will be held. Participants on these hikes cook a mid-night lunch, sleep out, and then cook their breakfast, leaving the campsite early in the morning.

Craft Shop

The arena craft shop is being kept open for use by all those who are interested in making craft articles or repairing broken furniture, and the like. Several adults have taken advantage of the shop during the summer along with children. Others are invited to make use of the shop equipment. No charge is made for the use of all the equipment. Supervision is also provided.

Handicraft

Lucille Thomas, handicraft leader, is at Tindolph park during the summer months. Many different articles of handicraft are made. All those participants who came to the arena during the winter and spring months to take part in handicraft classes will find the work just as enjoyable at the park. Everyone is invited to come.

Other Activities

Roller skating in the arena is for everybody. Softball games at the Fairgrounds every night provide entertainment for all those interested. Swimming at Tindolph pool is something to look forward to, during the hot weather.

Finance Control Held Getting Out of Hands of State Legislature

The Minnesota legislature has "just about yielded its financial control of the state," James F. McDonnell, president of the Minnesota Taxpayers association, declares in an analysis of the problem of dedicated state funds, published by the association.

Referring to the last legislative session, McDonnell says: "Never has there been a session in recent years where so much financial difficulty has arisen because so high a percentage of state revenue had previously been earmarked for certain dedicated services.

"While the purpose behind dedicated funds may have its good points over a long period, it has its immediate defects which just about places our legislature in a straightjacket.

"Our state legislature is the highest legislative authority in the state; yet it has, through tradition and custom and constitutional law, just about yielded its financial control of the state."

"The result is that there is not enough money left over after dedicated items are taken care of, to meet urgent needs of other state departments, even though the total of state taxes paid by the public might be sufficient for all departments if more equitably distributed."

This County Included in Fergus Falls NYA Area

A reorganization of the National Youth Administration area offices in accordance with a nation-wide reorganization plan was announced today by C. B. Lund, state youth administrator, St. Paul. Carl Mahnke, formerly area director in the Bemidji office, has been appointed director of the new, enlarged Fergus Falls office. Two field offices are established in the Fergus Falls Area, one in Bemidji and and the other in Thief River Falls. The works projects representative in Bemidji will be Russell Molldrem and the youth personnel representative Theodore Sjoding. Frank Govednik will be the field representative in Thief River Falls.

OPERATOR OF SPRAYER KILLED BY EXPLOSION

Sauk Centre—A peculiar accident took the life of Ervin Van Beck one morning recently. The young man prepared a pressure potato sprayer and evidently pumped too much air in the tank causing the bottom to burst out. The force of the explosion blew the tank upwards hitting him in the skull, and causing skull fractures and a brain injury. Erwin was alone at the time of the accident. When he failed to return, his father set out to find him and discovered the body in a nearby field.

GIRL ATTACKED BY SWARMING BEES

Mora—Not only was the local school band furnishing music during one of its recent practice sessions on the school grounds, but a nearby swarm of bees were giving forth with a melody of their own. So found out Wilmina Hoffman who was standing near the bees, and soon heard the buzzing of the insects coming closer to her. The attack was merciless, and an estimated hundred stings were felt by the girl. Although feeling quite uncomfortable after the unexpected encounter, Miss Hoffman is recovering satisfactorily.

Be Wise—Read The Times.

Si Sez:

Bill Dahlquist of the Times and I have had a lot of arguments about prices—world conditions—local conditions—and the national set-up. Today I told him of some of our experiences in rising prices and deliveries on the various lines of merchandise we sell.

For instance refrigerators—not only are prices going up every week it seems but deliveries are future—future—future. Ranges, radios, pianos, washers, band instruments, furniture, the story is the same all the way through. You don't wait a week but rather weeks and months for the things you want.

Last year Bill asked me who was going to buy our wheat and other products. Today—this fall—the government is loaning right here in Thief River Falls:

$1.01 per bu. on wheat on the farm.
50c per bu. on rye on the farm.
45c per bu. on barley on the farm.

Beef, lambs, hogs are bringing big returns, high cash prices, cash on the barrel head.

Never in the 30 years I have spent in the Valley have I seen a prospective crop like this one. If nothing happens to it—and I don't know what could now—the farmers are going to have more money than any year since the old world war days.

If a farmer buys $500 worth of furniture—electrical appliances—musical instruments—today instead of this Fall—he will have at least $100. In other words 500 bushels of wheat will actually be worth $600 and he can pay us after harvest and when he gets his government loan.

To the white-collared man—the city man on a salary—now—of all times, is the time to buy what you need for your home. You can save—save enough to have the same effect as a salary raise—enough to pay all finance charges over a long term contract.

All men who are thinking today admit that now is the time to buy. And Si Poppler says—here—at Poppler's—is the place to buy. Thank you.

Si Poppler.
